

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, AUGUST 15, 1994 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL V

Current Situation: Fire activity increased on several large fires in the Northwest, Great Basin, Northern Rockies and California. A Type I Incident Management Team was committed in the Northern Rockies and the rotation of Type I Incident Management Teams is occurring on the Tyee fire in the Northwest Area.

A shelter deployment occurred on 8/13/94 on the Pioneer fire on the Challis NF in the Eastern Great Basin. One individual was involved and only minor injuries were reported. The Pioneer fire is a confinement strategy fire.

Colonel Anthony Palermo USMC, is the Task Force Commander of the two Marine Battalions assigned to the Tyee fire. Colonel William T. Maddox, USA, is the Task Force Commander for three Battalions and one Aviation Battalion assigned to the Corral Creek and East Fork Chamberlin fires and the Idaho City Complex.

Eastern Great Basin Area Large Fires:

CORRAL CREEK, Payette NF. A Type I Incident Management Team (Johnson) is committed. The 14th Engineer Battalion, (Lt. Col. Perrenot, Commander) is committed. Helicopter support is being provided by the 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, (Lt. Col. Meyers Commander). Late afternoon fire runs in Little French Creek resulted in increased acreage. This complex continues on a course to merge with the Blackwell Complex. Structure protection is continuing on both sides of the Salmon River.

BLACKWELL COMPLEX, Payette NF. A Type I Incident Management Team (Birch) is committed. This is a unified command with Idaho State Department of Lands, represented by Bill Williams. The complex is comprised of the BLACKWELL and 10 smaller fires. Torching and spotting up to 1/2 mile continue to cause control problems. Evacuations are continuing for Burgdorf, Secesh Meadows, and Warren. Extreme fire behavior is expected today with a high potential for the Corral Creek and Blackwell complexes to join.

IDAHO CITY COMPLEX, Boise NF. A Type I Incident Management Team (Liebersbach) is committed. The 20th Engineer Battalion, 1st Cavalry Division, USA (Lt. Col. Bruce Porter, Commander) is committed. The complex consists of the BANNOCK, BEAR RIVER, RABBIT CREEK and NORTH FORK fires. The Bannock and Northfork fires are contained. Significant runs in surface fuels, torching and spotting up to 1/3 of a mile, and flame lengths of up to 100 feet were observed yesterday. Blow ups occurred on the Rabbit Creek fire as a thunderhead stalled over it. A major run toward Sunset Lookout and in German Creek increased the acreage by 1,700. Indirect line is being strengthened in anticipation of a burn out operation to stop the fire from advancing towards Highway 21 and Idaho City. Structure protection is continuing in the Deer Park area and the Black Rock Campground.

THUNDERBOLT, Boise NF. A Type II Incident Management Team (Butler) is

committed. Helicopter support is being provided by the 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, (Lt. Col. Meyers Commander). The fire continued to back towards the South Fork of the Salmon River. Rolling material caused spot fires which ran back uphill, with some crowning and spotting. Air tankers were utilized to prevent the fire from crossing Roaring Creek.

EAST DEWEYVILLE, Wasatch-Cache NF. The fire made a major run yesterday. No other information available.

Northwest Area Large Fires:

TYEE COMPLEX, Wenatchee NF. A Type I Incident Management Team (Wands) will rotate out and (Maupin) will take over the fire this evening. The 5th Battalion, 11th Marine Regiment (Lt. Col. Rick Lindsey, Commander) and the 1st Battalion, 5th Marine Regiment (Lt. Col. Dave Bonwit, Commander) are assigned. The fire spotted across the Mad River yesterday afternoon and is burning in heavy fuels. Retardant drops have helped in reinforcing the line. A change in the containment date was due to the fire spotting across Mad River and necessitating to fall back to secondary lines, which will involve an approximate 6,000 acre burnout.

SNAKE RIVER COMPLEX, Wallowa-Whitman NF. A Type I Incident Management Team (Bailey) is committed. Three CH-47 helicopters from the 214th Aviation Unit, Fort Lewis, WA are assigned. This complex is comprised of the RAPID RIVER, SADDLE CREEK, HAAS HOLLOW, and SWAMP CREEK fires. Very low humidity, moderate winds and very unstable atmosphere combined, pushed the fire out to the northeast. The fire remains about two miles from Seven Devils Guard Station and Campground and has not advanced toward them. Acreage decrease is due to the Triangle Mtn. and Thorn Creek fires being contained and turned back to the forest.

BOUNDARY, Wallowa-Whitman NF. A Type II Incident Management Team (Johnson) committed. Structure protection is taking place on the historical Tower Mountain Lookout and a private cabin about 2 miles northeast of the fire. Explosives are being used to construct line south of the lookout in the wilderness, anchoring it to a forest service road.

HATCHERY COMPLEX, Wenatchee NF. A Type I Incident Management Team (Porter) is committed. A Type II Incident Management Team (Furlong) will transition today and take over the Hatchery and Wilderness fires today. Five CH-47 helicopters from the 214th Aviation Unit, Fort Lewis, WA are assigned. The complex is comprised of the ALPINE LAKES, HATCHERY, RAT CREEK and LOWER VALLEY fires. Crews continue to hold the line despite high temperatures and low humidities causing active burning in unburned portions. Good progress is

being made on mop-up.

METHOW COMPLEX, Okanogan NF. A Type I Incident Management Team (Harbour) is committed. The Complex consists of the WHITEFACE, QUARTZ, STUB, THUNDER MTN. and WAR CREEK fires. The Thunder Mtn. and War Creek fires were added to this complex yesterday from the Okanogan Complex.

OKANOGAN COMPLEX, Okanogan NF. A Type I Incident Management Team (Monahan) is committed. The complex is comprised of the RAINBOW/BOULDER/BUTTE, POORMAN, BURNT SAW, FALLS CREEK and MISC. ABC fires. Monahans short Team will manage fires in the North Cascades NP near Stehekin. The Boulder fire continues to burn and increase. Heavy demob is in progress.

Northern Rockies Area Large Fires:

SAM GROUP, Clearwater NF. A Type II Incident Management Team (Cowin) is committed. This complex consists of the SAM, HIDDEN-FIX, and the MINNESAKA fires. Heavy brush on the Minnesaka is making handline construction and mop-up very difficult.

LOST TRAIL, Montana State. A Type II Incident Management Team (Bennett) is committed. Strong winds and dry fuels contributed to extreme fire behavior last night. Crews were moved off the fire for safety as the fire jumped control lines. A building and private property are threatened.

EAST FORK CHAMBERLIN, Montana State. A Type II Incident Management Team (Forrester) is committed. The 3/82nd Field Artillery Battalion, 1st Cavalry Division (Lt. Col. Marcus Dudley) is assigned. Crews and dozers took immediate action to line a 3-4 acre slopover.

FREEZEOUT, Clearwater NF. This fire is being suppressed under confinement strategy. The fire grew to the south, northwest and northeast due to passing thunderstorms. The fire increased 4,900 acres since last reported.

PRIEST LAKE COMPLEX, Idaho Panhandle NF. A Type II Incident Management Team (Kechter) is committed. The Mankato fire is burning in a Caribou Recovery Plan area. Erratic fire behavior and long range spotting contributed to rapid spread. Retardant held the line to the south. The fire has burned onto the Colville NF in the Northwest Area.

17 MILE, Kootenai NF. A Type I Incident Management Team (Meuchel) has been ordered and will arrive at 0800 this morning. No other information is available.

BITTER-NEZ, Bitterroot NF. A Type II Incident Management Team (Bullis) is committed. The complex consists of the SADDLE, MAGRUDER, NICK, SAWTOOTH and

WAHOO fires. The ICP and base camp move to Magruder Station was delayed due to Red Flag warning and logistical considerations. Confinement of the Magruder fire is being attempted utilizing natural boundaries. Structure protection continued on the Paradise Guard Station.

ST. JOE COMPLEX, Idaho Panhandle NF. A Type II Incident Management Team (Hart) is committed. Six new starts were detected yesterday, the largest was 25 acres. New starts are growing appreciably as Red Flag conditions persist. Demobilization of resources that have met tour of duty commitments is occurring. Crews were removed from lines due to erratic fire behavior.

North Zone - California Large Fires:

DILLON COMPLEX, Klamath NF. A Type II Incident Management Team (Caves) is committed. This complex is comprised of the JACK/XX/CEDAR, KELSEY/WILLIS, HARRINGTON/DIVIDE and 16 other contained fires. A run on Division G crossed the line yesterday afternoon. Two hotshot crews were flown into Division C to begin line construction and monitor the unlined perimeter.

HORIZON, Yosemite NP. A Type II Incident Management Team (Sherwood) is committed. The fire continues to burn in heavy downed lodgepole pine and red fir. A 5 acre spot was being aggressively attacked yesterday by aircraft and handcrews.

Outlook: A RED FLAG WARNING has been posted in eastern Washington, eastern Oregon, Idaho and western Montana for strong gusty westerly winds. A RED FLAG WATCH has been posted in central Montana for strong winds. The strong high pressure aloft that has dominated the weather pattern throughout the western U.S. will flatten a little bit Monday as an upper low off the central British Columbia coast drifts inland. This low will enhance the surface winds across the Pacific northwest states Monday. Cooler daytime temperatures and gusty winds will accompany a dry front into the region. The high pressure will continue to influence the weather pattern for the southwestern states and California. Subtropical moisture and thundershowers will continue in the southwest. High winds are expected to create erratic fire behavior and increased acreage on several large fires today.
