## INCIDENT MANAGEMENT SITUATION REPORT FRIDAY SEPTEMBER 9, 1994 - 0530 MDT NATIONAL PREPAREDNESS LEVEL V

Current Situation: Large fires continued to experience intense activity in Idaho and Oregon. New large fires occurred in Montana and two Type II Incident Management Teams were ordered. Initial attack activity decreased slightly. Demobilization, reassignments and rotation of resources continued.

The demand for Type I helicopters continues to exceed the private sector capacity. The Multi-Agency Coordinating Group at NIFC requests the continued support of U.S. Military helicopters currently tasked by the Sixth Army.

Colonel Chip Leonard, USA, is the Task Force Commander of one Battalion and one Aviation Unit assigned to the Corral Creek and Blackwell fires. Colonel Joseph Leigh, USA, is the Task Force Commander of one Battalion assigned to the Koocanusa Complex.

## Eastern Great Basin Area Large Fires:

The Area Command for the Boise National Forest has disbanded.
CORRAL CREEK, Payette NF. A Type I Incident Management Team (Monahan), and the 1st Engineer Battalion, 1st Infantry Division, USA (Lt. Col. Bostick, Commander) are assigned. Helicopter support is being provided by the 4th Battalion, 1st Aviation Brigade, (Lt. Col. Brostrom, Commander) and the A/6-158th Aviation Unit, USAR. Fire activity increased yesterday. The fire made a run in the Marshall Mine area. Military personnel continue to rehabilitate the lines. The Team will transition with the Blackwell incident today and assume command of both incidents.

IDAHO CITY COMPLEX, Boise NF. A Type I Incident Management Team (Maupin) is assigned. The complex consists of the BANNOCK, BEAR RIVER, RABBIT CREEK and NORTH FORK fires. The fire made a five mile run up the North Fork Boise River. Evacuation of Grandjean Resort and Wapiti Summer tract has been ordered. The fire is expected to be within a mile of Wapiti tonight.

CHICKEN COMPLEX, Payette NF. A Type I Incident Management Team (O'Bannon) is assigned. Crews successfully burned out around Fritser Ranch to protect structures. The fire made a significant run and jumped the dozer line south of Warren Summit. Major torching and spotting up to a quarter of a mile.

BLACKWELL COMPLEX, Payette NF. A Type I Incident Management Team (Harbour) is assigned. Helicopter support is being provided by the 4th Battalion, 1st Aviation Brigade (Lt. Col. Brostrom, Commander) and the A/6-158th Aviation Unit, USAR. Extreme fire behavior that was expected did not materialize. Fire activity was isolated to the Storm Peak area. Transition to the Corral Creek Team will begin today.

THUNDERBOLT, Boise NF. A Type II Incident Management Team (Martin) is assigned. The 4th Battalion, 1st Aviation Brigade, USA is providing helicopter support. Fire activity increased around noon yesterday. Winds caused significant runs with torching and spotting in the Fourmile and Sisters Creek areas, and on the west side of Johnson Canyon above Wapiti Ranch. Heavy use of retardant on the slopes above Wapiti occurred. The paving contract on the South Fork Salmon River was able to resume work yesterday.

TIN CUP COMPLEX, Caribou NF. No new information received.
REILLY CANYON, Salt Lake District, BLM. A Type II Incident Management Team (Fitzgerald) is assigned. All lines held despite strong winds and low humidity. Crews worked hotspots and flare-ups along the lines.

LAKE, Targhee NF. A Type II Incident Management Team (Black) is assigned. Crews supported by helicopters made dramatic progress despite the high winds and Haines index. Numerous areas that were partially burned continue to flare-up and cause spotting.

PIONEER COMPLEX, Challis NF. This complex consists of the PIONEER CREEK and NORTON LAKE fires. The fire is still active in areas with spotting and some torching. The Team turned the fire over to the forest and will close out today.

BUZZARD, Utah State. Initial attack forces did a good job protecting structures. Airtankers were effective when the smoke did not obstruct the target area.

Northern Rockies Area Large Fires:
The Area Command on the Kootenai National Forest has disbanded.
BLACK BUTTE, Gallatin NF. A Type II Incident Management Team (Bennett) has been ordered. The fire is threatening farms, ranches, livestock and timber. Flame lengths over 100 feet were observed.

WINDY POINT, Lewistown District, BLM. A Type II Incident Management Team (Stone) has been ordered. The fire is burning onto private land.

YAAK RED DRAGON COMPLEX, Kootenai NF. Two Type II Incident Management Teams (Bullis and Hancock) are assigned. The major fires in the complex are: THUNDER HILL, 17 MILE, ZIMMERMAN, PULPIT, STUDEBAKER, FISH FRY, FOWLER, GUNSIGHT, BURNT SHEEP, and PINK MTN. Progress continues in strengthening firelines and mop-up activities. Air patrol and IR monitoring of the fires continues.

LIBBY COMPLEX, Kootenai NF. The Type I Incident Management Team (Porter) turned the fires over to the forest last night. The major fires in the complex are: SCENERY, LEIGH CREEK, PARMENTER, CHINA BASIN, MCKAY MTN, QUARTZ and HANGING FLOWER. Most of the fires are controlled and all are at least
confined. Rehab is nearing completion on all but the primary lines.
CABINET COMPLEX, Kootenai NF. This complex consists of the GRAUMBAUER, SPRUCE, SURVEY, DRIFT, WILLARD, and WILL DO fires. No new information was received.

KOOCANUSA COMPLEX, Kootenai NF. The $3-11 t h$ Field Artillery, I Corps (Lt. Col. Patterson) is committed. The complex is contained.

POWELL COMPLEX, Clearwater NF. A Type II Incident Management Team (Hodge) is assigned. This complex includes the FREEZEOUT, FERN CREEK, SPONGE, EAST BEAVER, BIG SAND, HIDDEN CREEK, HESLIP RIDGE and GOLD MEADOWS fires. Containment of fires within the complex is estimated at $33 \%$. Containment activity is continuing on the north side of the Freezeout fire.

TROUT CREEK COMPLEX, Kootenai NF. The major fires in this complex are: PILLICK RIDGE, LOST GIRL, GOAT ROCKS and DEVIL'S DAD. No new information was received. Resources are being reported on the Cabinet Complex.

DRY HEAD, Crow Agency, BIA. No new information was received.
NORTH FORK COMPLEX, Glacier NP. The major fires in the complex are: STARVATION, HOWLING and ADAIR II. Burnout operations on the south side of Sullivan Meadow are complete on the Howling fire. Two new ignitions were detected yesterday and suppression actions are underway.

Northwest Area Large Fires:
The Unified Command on the Wallowa-Whitman National Forest has disbanded.
TWIN LAKES, Wallowa-Whitman NF. A Type I Incident Management Team (Liebersbach) and a Type II Incident Management Team (Duke) are assigned. The fire was not as active as it was on Wednesday, with the exception of one division. Spotting continued and some line was lost, reducing the percent contained.

Outlook: *** A RED FLAG WARNING is posted in central and southwest Montana, southern Idaho, Utah and western Wyoming for low humidity and strong, gusty winds. A RED FLAG WATCH is posted for central Wyoming and Nevada for low humidity and increasing winds. *** The high pressure over the Southwest is moving into eastern New Mexico and the Texas panhandle as a major cool level trough moves onto the Pacific coast. The cool level trough extends from northern British Columbia to the southern California coast. Strong gusty winds in front of the trough will mainly affect the Intermountain West. A mostly dry cold front will move inland today bringing more rain to the Washington and Oregon coasts, and widely scattered showers and thunderstorms over northern and central Idaho. Winds will increase in Idaho, Montana, western Wyoming and Utah as the front moves inland. This will bring cooler temperatures and higher humidities over the weekend. Fire activity on large fires is expected to continue to be active today and then moderate over the weekend with the cooler temperatures and higher humidities.
