Current Situation: Fire activity continued in the Southwest, southern California and Alaska. Resource mobilization through NICC increased yesterday with the mobilization of 5 type I crews, a type III helicopter, a caterer, a radio system and miscellaneous overhead and supplies to the Southwest Area. Large fire activity continued in Canada with 224,466 additional acres burned.

## Southwest Area Large Fires:

WATER, New Mexico State. A Type II Incident Management Team (Blackwell) has been assigned. The fire is burning in logging slash on private land. The wind was driving the fire and causing spotting up to $1 / 2$ mile ahead. Private structures and timber are threatened.

TURKEY, Cibola National Forest. Airtankers were used yesterday to try and stop the spread. Erratic fire behavior prevented crews from going on the line.

CINCO, Santa Fe National Forest. The fire has been placed in a confinement strategy.

Outlook: A FIRE WEATHER WATCH is in effect for central and eastern New Mexico for strong winds and scattered thunderstorms. New Mexico will be partly cloudy and windy with scattered thunderstorms, especially in the mountains and north. Highs will be in the 60's and 70's in the mountains and mostly $80^{\prime}$ s in the lower elevations of the east and south. Arizona will have a few morning showers and thunderstorms possible in the northeast, becoming partly cloudy in the afternoon. The south will be mostly sunny. Highs will range from the 60's in the mountains to the mid 90's in the southwest deserts. Southern California will be partly cloudy and locally windy with widely scattered showers and a few thunderstorms. Highs will be in the 50's to mid 60's in the mountains, 60's to lower 70's along the coast, 70's in the valleys and $80^{\prime}$ s to mid $90^{\prime}$ s in the deserts. The interior of Alaska will be partly cloudy with a chance of rain showers. Highs will be in the 50's and 60's. Fire activity is expected to continue in the Southwest Area as adverse weather conditions prevail.
