## *** All Firefighters Have the Right to a Safe Assignment ***

Current Situation: Initial attack and large fire activity continued in the Southwest and Northwest Areas. An airtanker, two helicopters and miscellaneous overhead were sent to the Southwest. A smokejumper booster crew was mobilized to the Northwest Area. Airtankers were mobilized to Eastern and Western Great Basin. Eight five person Sustained Action Teams will be mobilized to Quebec, Canada today. Large fire activity continued in Canada with 39,703 additional acres burned.

## Southwest Area Large Fires:

TOWER II, Phoenix District, BLM. A Type II Incident Management Team (Whitney) is committed. Contained. Commercial air operations over Grand Canyon National Park have complicated air operations.

NEVERSHINE COMPLEX, Arizona Strip District, BLM. A Type II Incident Management Team (Price) is committed. The fires in this complex are: Nevershine, Airstrip, Tank, Savanic, Pigeon, Olaf and Tasteful. Difficult access, flashy fuels, low humidity and high temperatures are hindering control efforts.

Eastern Area Large Fires:
GUNFLINT FIRES, Superior NF. A Type II Incident Management Team (Sterr) is assigned. The Gunflint fires consists of the Winchell, Swede, Topaz, Squat and Fishhook fires.

Outlook: Arizona will be breezy and mostly sunny, with isolated afternoon and evening thunderstorms in the north and east. Temperatures will range from the upper 70's in the mountains to 110 in the southern deserts. New Mexico will be partly cloudy, with scattered afternoon and evening thundershowers in the central and eastern mountains. Highs will range in the 70's and 80's in the north, to the 90's in the south. Southern California will be mostly sunny, with a chance of isolated afternoon thunderstorms in the northern deserts. Highs will be in the 70's to the mid 80's on the coast and mountains, 80's and 90's in the valleys, and mid 90 's to 107 in the eastern deserts. The Great Lakes States will be partly sunny with a chance of afternoon and evening thundershowers in northern and western Minnesota. Highs will be in the $70^{\prime}$ s and lower $80^{\prime}$ s. Initial attack fire activity is expected to continue in the western states. The potential for large fire activity continues in the Southwest Area.
