```
*** THE TEN STANDARD FIRE ORDERS ARE FIRM. ***
*** WE DON'T BREAK THEM, WE DON'T BEND THEM. ***
```

Current Situation: Initial attack and escaped fire activity increased significantly in the Northwest, Southwest and Eastern Great Basin. The Southwest, Rocky Mountain, Great Basin and South Zone continue to report very high and extreme fire indices. The Southwest, Northwest and Eastern Great Basin mobilized Type II Incident Management Teams yesterday. Resource mobilization through NICC increased significantly. Two Kuna Rural Fire Department firefighters were fatally injured on the Point fire, Boise District BLM, when their water tender was engulfed in an unexpected blowup. The wildland fire community extends their sympathy to family, friends and co-workers of these firefighters.

Southwest Area Large Fires:
GREEN, Coronado NF. A Type II Incident Management Team (Moore) is committed. The fire is currently threatening a campground and summer homes. The fire burned to the Mt. Lemon highway, which was closed for several hours.

BEAR JAW, Coconino NF. A Type II Incident Management Team (Bedlion) is committed. This fire is burning in heavy fuels and steep terrain in the Kachina Peaks Wilderness about 9 miles north of Flagstaff.

HB, Gila NF. A Type II Incident Management Team (Lee) is committed. The fire is burning in ponderosa pine and is threatening timber and threatened and endangered species.

Outlook: A RED FLAG WARNING IS POSTED IN NORTHERN UTAH FOR STRONG WINDS, LOW HUMIDITIES, AND POSSIBLE DRY LIGHTNING. A FIRE WEATHER WATCH IS POSTED IN CENTRAL AND SOUTHWEST WYOMING AND NORTHEAST NEVADA FOR GUSTY WINDS, LOW HUMIDITIES AND POSSIBLE DRY LIGHTNING. A RED FLAG WATCH IS POSTED IN CENTRAL AND SOUTHEAST ARIZONA FOR DRY LIGHTNING. A vigorous but rather dry trough of low pressure will move into the Pacific Northwest, Northern Rockies and the Northern Great Basin states. Strong high pressure aloft will continue over
the desert Southwest and Southern Rockies. Strong gusty winds and isolated dry thunderstorms will extend from the Sierras in California across Nevada and Utah into Wyoming. Scattered thunderstorms with limited moisture are forecast for Idaho and Montana. Central and Southeast Arizona and New Mexico will have isolated dry lightning. An onshore flow in western Washington and Oregon will result in clouds and morning drizzle. Cooler temperatures will begin to move into Washington, Oregon, Idaho and Montana. Very, hot and dry conditions will continue over the remainder of the West. High temperatures will be in the $80^{\prime}$ s and $90^{\prime}$ s, except mid 60's and 70's near the coast, and 100 to 120 in the desert southwest. Initial attack and large fire activity is expected to continue as a result of recent lightning activity along with forecasted warnings and watches.
