```
*** ALL FIREFIGHTERS HAVE THE RIGHT TO A SAFE ASSIGNMENT ***
```

Current Situation: Initial attack and escaped fire activity continued in several areas of the West. Very high to extreme fire indices persist in the Southwest, Rocky Mountain, Great Basin and South Zone areas. Resource mobilization through NICC remained constant.

Southwest Area Large Fires:
SHOVEL, Coronado NF. The fire experienced extreme behavior yesterday when the fire spread into areas which had not burned in 75 years. The fire moved into a canyon creating the potential to burn to the top of Mt. Lemon.

GREEN, Coronado NF. A Type II Incident Management Team (Moore) is committed. The fire continues to threaten a campground and summer homes. The fire is burning in decadent manzanita and oak-chaparral.

HB, Gila NF. A Type II Incident Management Team (Lee) is committed.
Significant progress was made along the southeast end of the fire. Pinyon-Juniper stands ahead of the fire front are expected to slow the fire. Heavy timber fuels are hindering line construction and mop-up.

BEAR JAW, Coconino NF. A Type II Incident Management Team (Bedlion) is committed. The fire is burning in a critical Mexican Owl habitat and is moving toward the city of Flagstaffs' municipal watershed. Increased humidities in the afternoon moderated fire activity and allowed firefighters to make good progress on line construction.

Northwest Area Large Fires:
SWITCHBACK, Winema NF. A Type II Incident Management Team (Duke) is committed. Fire line was completed around the incident. An abandoned trailer was destroyed in the fire.

NEWBERRY, Deschutes NF. A Type II Incident Management Team (Lohrey) is
committed. There are many snags falling within the perimeter of the fire causing safety concerns. The north end of Paulina Lake will be closed to boats as a safety precaution for dipping operations.

BATTLE CREEK, Vale District BLM. Concerns are for wildlife winter range. Containment was expected yesterday.

Eastern Great Basin Large Fires:
TWIN BUTTE, Boise District BLM. A Type II Incident Management Team (Burdick) is committed. Tremendous rates of spread were observed on this fire; 10,000 acres were consumed in 30 minutes. Miscellaneous outbuildings and improvements have been destroyed with some primary residences threatened. Predicted cooler temperatures are expected to aid suppression efforts.

HOPPER GULCH, Shoshone District BLM. Erratic winds were causing control problems yesterday. The current threat is to a USFS campground.

STANSBURY ISLAND, Salt Lake District BLM. The fire continues to burn in interior islands where crews are mopping up.

Western Great Basin Large Fires:
GEIGER, Carson City District BLM. The fire is burning in grass, sage and Pinyon-Juniper. Four primary residences are currently threatened. The fire forced the closure of the Geiger Grade and Toll roads, the primary access between Virginia City and Reno/Carson City.

McGILL, Ely District BLM. A Type II Incident Management Team (Butler) is committed. Severe winds caused the fire to spread rapidly in sparse fuels, causing air support to be ineffective.

BUFFALO, Battle Mountain District BLM. Strong winds and low humidities caused this fire to spread rapidly. One abandoned ranch is currently threatened along with grazing allotments, wildlife habitat and power lines. The fire is burning into some green fuels and snow in the higher elevations.

PILOT, Elko District, BLM. The fire is burning in heavy pinyon-juniper.

Northern Rockies Large Fires:
WEST PRYOR, Crow Agency BIA. This lightning caused fire is burning in mixed sagebrush, grass and timber west of the Agency boundary on private and BLM land. Current threats are to livestock and private pasture lands.

BAKER, Miles City District, BLM. No new information received.

A FIRE WEATHER WATCH IS POSTED FOR MOST OF ARIZONA FOR DRY LIGHTNING. A

FIRE WEATHER WATCH IS POSTED FOR NORTHWEST COLORADO FOR DRY THUNDERSTORMS AND GUSTY WINDS ASSOCIATED WITH THUNDERSTORMS. NEAR RED FLAG CONDITIONS ARE POSSIBLE IN SOUTHEAST WYOMING AND WESTERN NEBRASKA DUE TO VERY WARM TEMPERATURES AND GUSTY WINDS.

An upper level trough will move east across Montana and Wyoming, while high pressure centers over the Four Corners area. Scattered thunderstorms with limited moisture are forecast for most of Arizona and northwest Colorado. Scattered thunderstorms are forecast over Wyoming with isolated to widely scattered thunderstorms expected in southern California, eastern Nevada, northern Utah and the mountains and northeast portion of New Mexico. Cooler temperatures will move into Idaho, Montana and Wyoming. Very hot and dry conditions will continue from southern Oregon to the desert Southwest. High temperatures will be in the 70's across the Northern Rockies and 100 to 120 from the northern valleys of California to the desert Southwest. The remainder of the West will have highs in the 80's and 90's. Initial attack and large fire activity is expected to continue with forecasted thunderstorms. FIRES: Yesterday
