## INCIDENT MANAGEMENT SITUATION REPORT WEDNESDAY, AUGUST 9, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL III

## \*\*\* SAFETY COMES FIRST ON EVERY FIRE, EVERY TIME \*\*\*

Current Situation: The Southwest experienced increased initial attack activity, while the remainder of the West reported moderate activity. Cooler temperatures, higher humidities and decreased winds have assisted suppression efforts on large fires in the Great Basin Area.

Eastern Great Basin Large Fires:

LAKES, Boise NF. A Type I Incident Management Team (Monahan) is committed. Good progress was made toward containment due to cool temperatures and higher humidity.

PUDDLE VALLEY, Salt Lake District, BLM. The fire is burning in sage and cheatgrass approximately 40 miles west of Salt Lake City. The fire was burning up to 400 chains per hour yesterday. A major burnout operation is in progress to control the forward movement of the fire.

UTS = Utah St	tate		SHD =	= Shc	shone	Distri	Lct,	${\tt BLM}$				

Western Great Basin Large Fires:

BATTLE CREEK, Humboldt NF. A Type II Incident Management Team (Butler) is committed. The fire made runs to the north and south destroying the historic Tobar Railroad Station. Numerous ranches and the small town of Ruby Valley remain threatened. Strong winds caused extreme fire behavior to develop as the day progressed.

SOUTH FORK COMPLEX, Nevada State. A Type I Incident Management Team (Richer) is committed. The complex consists of the SOUTH FORK (623 acres) and CISSILLINE (480 acres) fires. Four historic structures have been confirmed lost in the Cissilline fires initial run. Cooler temperatures, higher humidities and decreased winds have allowed crews to make significant progress toward containment.

INCIDENT	UNIT ST	SIZE  %	EST	TOTAL	CRW	ENG	HELI	STRUC	EST	EST

CCD = Carson City District, BLM

South Zone California Large Fires:

VERBENIA, Riverside Ranger Unit, California State. A State Incident Management Team (Benson) is committed. Demobilization is in progress and rehabilitation will begin today.

INCIDENT	UNIT ST	SIZE	용	EST	TOTAL	CRW	ENG	HELI	STRUC	EST	EST

VERBENIA	RRUCA	23,455	75	UNK	1,248	43	26	10	0	150K	2.9M	ĺ

North Zone California Large Fires:

PONY, Klamath NF. A Type II Incident Management Team (Gilpin) is committed. Gusty winds caused spotting to occur on the southern line, causing a delay in the projected containment.

PONY	KNF   CA	1,673 90	8/10	859	26	18	7	0	929K	3.6M	

Southwest Area Large Fires:

BLACK HILL, Arizona State. A passing thunderstorm pushed the fire within 1/4 mile from a residence, necessitating its' evacuation. The fire is also threatening 2 other ranches and an microwave repeater site.

OUTLOOK: A high pressure system aloft will cover most of the West, while an upper trough edges closer to the Pacific Northwest coast. Monsoon moisture will bring scattered wet thunderstorms to Arizona and New Mexico. Widely scattered afternoon and evening thunderstorms are forecast for Colorado and portions of southern and eastern Oregon. Isolated thunderstorms are possible in southeast Wyoming and the mountains and eastern deserts of southern California. The Great Basin and Northern Rockies will be sunny and warmer. High temperatures will range from the 70's and 80's in the northern tier of the West, to the 90's and 100's in the south. Highs of 105 to 115 are likely in the desert Southwest. Initial attack activity is expected to decrease in the Southwest with the onset of the monsoons. The remainder of the West should experience moderate fire activity.
