INCIDENT MANAGEMENT SITUATION REPORT THURSDAY, AUGUST 31, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

*** THE TEN STANDARD FIRE ORDERS ARE FIRM *** *** WE DON'T BREAK THEM; WE DON'T BEND THEM ***

Current Situation: The South Zone large fires continued to experience active fire behavior. The Northern Rockies experienced increased large fires, however, no problems were reported and containment was met on most of them. Resource mobilization through NICC continued to the Eastern Area and southern California.

South Zone Large Fires:

EL MONTE, Cleveland NF. A Type I Incident Management Team (Giachino) is assigned. The fire made another run to the east yesterday afternoon consuming another 600 acres. Structures to the south and east of the fire along with endangered species habitat are threatened. The fire is burning in extremely steep, rugged and inaccessible terrain that has not burned in 40 years.

SYCAMORE, San Diego Ranger Unit, California State. A State Type I Incident Management Team (Gregory) will assume command of the fire at 0600 this morning. The fire burned actively in heavy fuels and is threatening the community of Dulzura. A smoke inversion over the fire limited air support.
