OUTLOOK: Strong high pressure will bring sunny and warmer weather to most of the West today. Enough moisture and instability remain in Colorado, New Mexico and eastern Arizona to cause widely scattered afternoon and evening mountain thundershowers. High temperatures will range from the 70's and 80's in the northern portion of the West to the 80's and 90's in the south. High pressure will move off the Atlantic coast resulting in warmer and a little more moist air over the northeastern U.S. Increasing clouds are forecast for Pennsylvania and most of New York, with a chance of showers or thundershowers tonight. Skies will remain mostly sunny from northern New York to Maine. High temperatures will be mainly in the 70's. Moderate fire activity is expected to continue. FIRES: Yesterday
