## INCIDENT MANAGEMENT SITUATION REPORT SUNDAY OCTOBER 22, 1995 - 0900 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: Minor fire activity occurred across the U.S. Large fire activity continued in California.

North Zone California Large Fires:

CONKLIN, Humboldt-Del Norte Ranger Unit, California State. No additional information received.

INCIDENT	UNIT ST	SIZE  %	EST	TOTAL	CRW	ENG	HELI	STRUC	EST	EST	
NAME		CTN	CTN	PERS				LOST	LOSS	COST	
CONKLIN	HUU   CA	150 0	UNK	124	3	9	0	0	UNK	UNK	

South Zone California Large Fires:

MESA, California Desert District, BLM. Loss of tortise habitat and steep terrain is the current threat and problem to suppressing this fire.

SPRING, San Diego Ranger Unit, California State. Thick continuous brush and steep terrain will keep all equipment and crews busy for the next couple of days.

SPRING	MVU CA	375   35	10/21	664	27	25	4	0	UNK	UNK	

OUTLOOK: \*\*\* A RED FLAG WARNING IS POSTED FOR THE SACRAMENTO VALLEY OF CALIFORNIA AND SURROUNDING FOOTHILLS DUE TO LOW HUMIDITY AND NORTH TO EAST WINDS GUSTING TO 35 MPH \*\*\*

\*\*\* A FIRE WEATHER WATCH IS POSTED IN ARIZONA FOR NORTH TO WEST WINDS GUSTING UP TO 35 MPH. \*\*\*

A deep trough of low pressure over northern Colorado will dump heavy snow over the central Rockies and bring cooler temperatures to the West. High pressure will build across the Pacific Northwest. This will result in a strong pressure gradient with northwest to northeast winds locally gusting to 40 mph from Wyoming to California and Arizona. Heavy snows are expected for Wyoming and Colorado with scattered rain and snow showers for Idaho and Montana. Dry weather is expected elsewhere. High temperatures will be in the 30's to mid 40's in the northern and central Rockies with 40's and 50's for the Great Basin. Temperatures from the 50's to the mid 70's should occur along the Pacific Coast. The southern California valleys and the desert Southwest will have highs in the 80's to lower 90's. Increased fire activity may occur in California and the desert Southwest. Other Areas should experience decreased activity.
