# INCIDENT MANAGEMENT SITUATION REPORT MONDAY OCTOBER 23, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: Fire activity over the weekend was concentrated in California. Minor activity was reported elsewhere.

North Zone California Large Fires:

PRIEST, Lake Napa Ranger Unit, California State. A State Type I Incident Management Team was committed last night. This fire is located near the city of Vallejo. High winds are causing control problems.

ORESTIMBA, Santa Clara Ranger Unit, California State. High winds caused this prescribed fire to escape the prescription boundaries.

CONKLIN, Humboldt-Del Norte Ranger Unit, California State. This fire is located near the city of Petrolia. High winds and steep terrain are hampering control efforts.

OUTLOOK: \*\*\* A FIRE WEATHER WATCH IS POSTED ALONG THE COLORADO RIVER IN ARIZONA FOR LOW HUMIDITY AND NORTH WINDS GUSTING TO 35 MPH \*\*\*

High pressure will build across the Northern Rockies and upper Great Basin bringing dry weather to southern Oregon, California and Arizona. This high pressure system will also bring local north to northeast wind gusts up to 35 MPH from central California to Arizona. High temperatures will be in the 50's to mid 60's from southern Oregon through the Great Basin to northern Arizona. High temperatures will be in the 70's through most of California and in the lower to mid 80's from the southern California valleys to the Arizona desert. Increased fire activity is possible in Arizona and California with continued
