INCIDENT MANAGEMENT SITUATION REPORT THURSDAY JUNE 1, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: Initial attack activity continued in the Southwest and Eastern Areas. Large fire activity continued in the Provinces of Alberta, British Columbia, Manitoba and Saskatchewan, Canada. A Fire Team was mobilized to a fire near Lynn Lake in Manitoba. Canada reported over 331,000 acres burned yesterday.

Southwest Area Large Fires:

| INCIDENT | UNIT ST | SIZE % EST | TOTAL CRW | ENG | HELI | STRUC | EST | EST |
|-------------|---------|---------------|-------------|-----|------|-------|------|------|
| NAME | 1 1 1 | CTN CTN | PERS | ŀ | | LOST | LOSS | COST |
| EAST OLBERG | PMA AZ | 300 100 | i oi o | 0 | 0 | 0 | UNK | 1K |

Northern Rockies Large Fires:

SOUTH FORK BULL RIVER, Kootenai NF. A Type II Incident Management Team (Spradlin) is committed. The fire is burning on steep slopes through logging slash. Steep terrain, cedar snags and the potential for strong winds with the current weather pattern could cause some control problems.

| INCIDENT | UNIT | ST | SIZE | 8 | EST | TOTAL | CRW | ENG | HELI | STRU | EST | EST |

INCIDENT MANAGEMENT SITUATION REPORT SATURDAY, JUNE 3, 1995 - 0900 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: Increased fire activity occurred in the Northwest, Southwest and Northern Rockies. CIFC has requested pump kits and hose through NICC to support fire activity in Saskatchewan.

Northern Rockies Large Fires:

SOUTH FORK BULL RIVER, Kootenai NF. A Type II Incident Management Team (Spradlin) is committed. Mop-up operations continues. The team will turn the fire over to the District today.

SHEEP, Lolo NF. This incident is an escape from a prescribed fire. There is a threat to private property, but no structures are involved.

Outlook: Arizona will be mostly sunny and breezy. Scattered afternoon and evening thunderstorms in the central mountains and northeast. Highs will be in the mid 60's in the mountains to the upper 90's in the southern deserts. New Mexico will be partly cloudy with widely scattered afternoon showers and thunderstorms in the north and east. Highs will range from 60's and 70's in the mountains to 80's in the south. Southern California will have low morning clouds along the coast, otherwise mostly sunny. Highs will be near 70 on the coast and mountains to the 80's in the valleys and 90's to 105 in the eastern deserts. The Great Lakes States will be partly cloudy with a chance of thundershowers in northwest Minnesota and southern Wisconsin. Highs will be in the upper 60's to the mid 80's. The Alaska interior will have widely scattered showers and thunderstorms. Highs will be in the mid 50's to mid 60's. Initial attack fire activity is expected to continue in the Southwest Area.

INCIDENT MANAGEMENT SITUATION REPORT SUNDAY, JUNE 4, 1995 - 0900 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: Initial attack fire activity continued in the Southwest and South Zone. The Canadian Interagency Forest Fire Center has requested overhead, communications equipment and batteries through NICC to support fire activity in Saskatchewan.

Northern Rockies Large Fires:

SOUTH FORK BULL RIVER, Kootenai NF. A Type II Incident Management Team (Spradlin) is committed. Mop-up operations continues. The team will turn the fire over to the District today.

SHEEP, Lolo NF. This incident is an escape from a prescribed fire. There is a threat to private property, but no structures are involved.

Southwest Area Large Fires:

75TH AVENUE, Pima Agency BIA. One engine remains on the incident to monitor the few remaining smokes. Expect full control this morning.

SABINO, Coronado NF. All resources released. Fire will be monitored, with full control expected 6/4 at 1400.

MUD, Arizona Strip District BLM. The fire is located in a remote section of the District north of the Pakoon Basin. Good progress toward containment was made last night as temperatures decreased and humidity increased with a passing cold front. Expect control 6/5.

Canada Large Fires:

Alberta and Saskatchewan have numerous fires totaling 246,500 hectares (609,101 acres). No estimate of containment has been reported for these fires.

Outlook: Arizona will be mostly sunny and warmer. Highs will be in the 70's in the mountains to near 100 in the southern deserts. New Mexico will be partly cloudy with widely scattered afternoon thunderstorms. Mostly sunny in the south. Highs will range from 60's and 70's in the north to 80's and mid 90's in the south. Southern California will have morning fog and low clouds along the coast, otherwise mostly sunny. Highs will be in the 70's along the coast and mountains, 80's in the valleys and 90 to 105 in the eastern deserts. The Great Lakes States will be mostly sunny with a chance of thunderstorms in southwest Minnesota. Highs will be in the 70's to the 80's. The Alaska interior will have widely scattered afternoon showers and thundershowers. Highs will be in the upper 50's to 60's. Initial attack fire activity is expected to continue in the Southwest Area and South Zone. Large fire activity will continue in the central provinces of Canada.

NEW FIRE WEATHER DEFINITIONS

To avoid the overuse of RED FLAG terminology, the National Weather Service has replaced Red Flag Watch with FIRE WEATHER WATCH.

FIRE WEATHER WATCH: A POSSIBLE critical fire weather pattern.

RED FLAG WARNING: An <u>ONGOING or IMMINENT</u> critical fire weather pattern.

INCIDENT MANAGEMENT SITUATION REPORT MONDAY, JUNE 5, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: Initial attack fire activity continued in the Southwest Area. Large fire activity continued in Canada. Communications equipment, batteries, pumps, hose and three Communications Unit Leaders were mobilized to Canada through NICC over the weekend. Hurricane Allison will make landfall this morning along the Florida panhandle. Predictions are for Allison to weaken after landfall, and may be downgraded to a tropical storm.

Northern Rockies Large Fires:

SHEEP, Lolo NF. This incident is an escape from a prescribed fire. Full containment expected 6/5 1830.

Canada Large Fires:

Alberta and Saskatchewan have numerous fires totaling 246,500 hectares (609,101 acres). No estimate of containment has been reported for these fires, although scattered precipitation associated with a passing cold front may provide some relief from severe burning conditions.

Outlook: Warm and sunny weather will continue in the Southwest Area. Widely scattered afternoon thunderstorms are predicted in the northern mountains of New Mexico. Temperatures will range from the 60's and 80's in the mountains, to near 108 degrees in the Arizona deserts. Southern California will be mostly sunny with moderate temperatures along the coast, up to 102 degrees in the deserts. The Great Lakes States will be mostly sunny with a chance of thunderstorms in Minnesota and Wisconsin. Highs will be in the 70's to the mid 80's. Alaska will continue to be cool with a chance of showers in the south. Moderate initial attack fire activity is expected to continue in the Southwest Area and South Zone.

Large fire activity will continue in the central provinces of Canada.

NEW FIRE WEATHER DEFINITIONS

To avoid the overuse of RED FLAG terminology, the National Weather Service has replaced Red Flag Watch with FIRE WEATHER WATCH.

FIRE WEATHER WATCH: A POSSIBLE critical fire weather pattern.

RED FLAG WARNING: An <u>ONGOING or IMMINENT</u> critical fire weather pattern.

INCIDENT MANAGEMENT SITUATION REPORT TUESDAY, JUNE 6, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: Initial attack fire activity continued in the Southwest Area. Large fire activity continued in Canada, however cooler temperatures and precipitation brought relief to Saskatchewan and Manitoba. Additional radio equipment was mobilized to Canada. A short Type II Incident Management Team (Black) was mobilized in the Western Great Basin to assist the Humboldt NF with flood control.

Northern Rockies Large Fires:

SHEEP, Lolo NF. No new information was received.

| INCIDENT | UNIT ST | SIZE % | EST | TOTAL CRW | ENG HELI | STRU EST | EST |
|----------|---------|----------|-----|-------------|------------|----------|------|
| NAME | ST | CTN | CTN | PERS | LL | LOSTLOSS | COST |
| SHEEP | LNF MT | 190 65 | 6/5 | 11 | i | İ İ | i Ti |

Southwest Area Large Fires:

ROBBINS BUTTE, Arizona State. The fire is burning in the Arizona Fish and Game Robbins Wildlife Area. The town of Buckeye, Arizona was threatened.

| INCIDENT | UNIT | ST | SIZE | ક | EST | TOTAL | CRW | ENG | HELI | STRU | EST | EST |
|---------------|------|----|------|-----|-----|-------|-----|-----|------|------|------|------|
| NAME | 1 | | | CTN | CTN | PERS | | | | LOST | LOSS | COST |
| Robbins Butte | AZS | ΑZ | 750 | 50 | 6/6 | 100 | 2 | 13 | 1 | | | 80 |
| Loma Alta | AZS | AZ | 150 | 0 | 6/6 | 65 | | 4 | l | | | |

Outlook: The Southwest Area will be mostly sunny with increasing winds. Arizona may have local gusts over 35 MPH in the afternoon. Highs will range from the 70's to 80's in the mountains and north to 100 in the southern deserts. Southern California will have low clouds and fog along the coast otherwise mostly sunny. The Santa Barbara coast will be breezy in the afternoon. Highs will range from the 60's along the coast to the lower 80's inland. The Great Lakes States will be partly to mostly cloudy with a chance of showers and/or thunderstorms. Highs will be in the 70's to the 80's. Moderate initial attack fire activity is expected to continue in the Southwest Area and South Zone. Large fire activity should moderate in the central provinces of Canada.

NEW FIRE WEATHER DEFINITIONS

To avoid the overuse of RED FLAG terminology, the National Weather Service has replaced Red Flag Watch with FIRE WEATHER WATCH.

FIRE WEATHER WATCH: A POSSIBLE critical fire weather pattern.

RED FLAG WARNING: An <u>ONGOING or IMMINENT</u> critical fire weather pattern.

INCIDENT MANAGEMENT SITUATION REPORT WEDNESDAY, JUNE 7, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: The Southwest Area continued to experience initial attack activity. 139,977 acres burned yesterday in Canada. Good progress was reported on fires in Saskatchewan and Manitoba.

Northern Rockies Large Fires:

| INCIDENT | UNIT ST | SIZE % ES | T TOTAL | CRW ENG | HELI | STRU | EST | EST |

| NAME | l stl | CTN CT | N PERS | j | | LOST | LOSS | COST |
| SHEEP | LNF MT | 190 100 | i | i | | | | İ |

LNF = Lolo NF

Western Great Basin Incidents:

Flooding, Humboldt NF. A Type II Incident Management Team (Black) is assisting with flood damage assessment.

Outlook: A RED FLAG WARNING has been posted in Arizona for strong gusty winds, low humidity and low fuel moisture. Eastern Arizona will be especially windy. Highs will range from the 60's in the mountains to the mid 90's in the southern deserts. A FIRE WEATHER WATCH has been posted for New Mexico for strong winds; otherwise New Mexico will be mostly sunny. Highs will be in the upper 60's to lower 80's in the mountains and north with upper 80's and 90's elsewhere. Southern California will have patchy low clouds and fog in the morning turning sunny and windy in the afternoon. Highs will be in the mid to upper 60's on the coast, lower 80's inland and mid 80's to mid 90's in the deserts. The potential for increased activity exists in the Southwest Area with the Red Flag Warning and Fire Weather Watch conditions. Fire activity is expected to continue in the Provinces of Alberta and the Northwest Territory, while fire activity in Saskatchewan, Manitoba and Ontario should moderate.

NEW FIRE WEATHER DEFINITIONS

To avoid the overuse of RED FLAG terminology, the National Weather Service has replaced Red Flag Watch with FIRE WEATHER WATCH.

FIRE WEATHER WATCH: A POSSIBLE critical fire weather pattern.

RED FLAG WARNING: An <u>ONGOING or IMMINENT</u> critical fire weather pattern.

INCIDENT MANAGEMENT SITUATION REPORT THURSDAY, JUNE 8, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: The Southwest Area continued to experience minor initial attack activity. Large acreage increases continue to be reported in Canada. Yesterday 381,915 additional acres were reported.

Western Great Basin Incidents:

Flooding, Humboldt NF. A Type II Incident Management Team (Black) is assisting with flood damage assessment.

Outlook: A RED FLAG WARNING continues in Arizona for strong winds, low humidity and low fuel moisture. The east central and southeast sections of the state will be very windy. The northern portion will be mostly cloudy with a few showers and thunderstorms and snow above 8,000 feet. The southern portion will be partly cloudy and unseasonably cool. Highs will range in the lower 50's in the mountains to the 80's in the deserts. New Mexico will be partly sunny, windy and cooler. The northern portion will have a few more clouds with a slight chance of showers and thunderstorms. Highs will range from the upper 50's to the mid 70's in the mountains and northwest, with upper 80's to mid 90's elsewhere. Southern California will have patchy low clouds and fog along the coast, otherwise partly sunny and breezy. Highs will be in the upper 60's and 70's on the coast and valleys to the mid 80's and lower 90's in the deserts. Initial attack activity is expected to continue in Arizona.

NEW FIRE WEATHER DEFINITIONS

To avoid the overuse of RED FLAG terminology, the National Weather Service has replaced Red Flag Watch with FIRE WEATHER WATCH.

FIRE WEATHER WATCH: A POSSIBLE critical fire weather pattern.

RED FLAG WARNING: An ONGOING or IMMINENT critical fire weather pattern.

ASD = Arizona Strip District, BLM

Western Great Basin Incidents:

Flooding, Humboldt NF. A Type II Incident Management Team (Black) is assisting with flood damage assessment.

Outlook: Arizona and New Mexico will be partly cloudy in the north and mostly sunny in the south. The entire area will be breezy. Highs will be in the mid 60's in the mountains to the lower and mid 90's in the deserts. Southern California will have patchy low clouds and fog along the coast in the morning, otherwise it will be mostly sunny. Highs will be in the mid 60's to lower 70's along the coast and in the mountains, 70's to lower 80's in the valleys and upper 80's and mid 90's in the deserts. Moderate initial attack activity is anticipated.

NEW FIRE WEATHER DEFINITIONS

To avoid the overuse of RED FLAG terminology, the National Weather Service has replaced Red Flag Watch with FIRE WEATHER WATCH.

FIRE WEATHER WATCH: A POSSIBLE critical fire weather pattern.

RED FLAG WARNING: An ONGOING or IMMINENT critical fire weather pattern.

INCIDENT MANAGEMENT SITUATION REPORT SATURDAY, JUNE 10, 1995 - 0900 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: Minimal fire activity continued throughout the United States. Large fire activity continued in Canada. The Type II Team assisting the Humboldt NF with flood control was demobilized yesterday.

Outlook: Arizona will be sunny and much warmer. Highs will be in the mid 70's in the mountains to 103 in the deserts. New Mexico will be mostly fair and warmer in the west. The central mountains and northeast will be partly cloudy with a chance of afternoon thunderstorms. Highs will range from the mid 60's to near 80 in the mountains and north, with 80's to lower 90's in the south. Southern California will have areas of morning low clouds and fog along the coast, otherwise mostly sunny. Highs will be in the upper 60's to mid 70's along the coast and 80's and 90's inland. Moderate fire activity is expected to continue.

NEW FIRE WEATHER DEFINITIONS

To avoid the overuse of RED FLAG terminology, the National Weather Service has replaced Red Flag Watch with FIRE WEATHER WATCH.

FIRE WEATHER WATCH: A POSSIBLE critical fire weather pattern.

RED FLAG WARNING: An ONGOING or IMMINENT critical fire weather pattern.

INCIDENT MANAGEMENT SITUATION REPORT SUNDAY, JUNE 11, 1995 - 0900 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: Minimal fire activity continued throughout the United States. Large fire activity continued in Canada.

SOUTHWEST AREA LARGE FIRES

GERONIMO, ARIZONA STATE. A Type II Team (Whitney) is assigned. The fire is located in an urban interface area of the community of Apache Junction and a portion of the Superstition Wilderness. Many structures were threatened but none were lost. Abundant fine fuels and temperatures in excess of 100 degrees are hindering control efforts.

Outlook: Arizona will be sunny and hot. Highs will be in the lower to mid 80's in the mountains to around 114 degrees in the deserts. New Mexico will return to normal sesonal weather. The central mountains and eastern New Mexico will be partly cloudy with a chance of afternoon and evening thunderstorms. Highs will range from the 70's to the mid 80's in the mountains and north, with 80's to mid 90's in the south. Southern California will have areas of morning low clouds and fog along the coast, otherwise sunny. Highs will be in the 70's along the coast and upper 90's inland. Initial attack fire activity is expected to increase in the Southwest Area as normal weather returns.

INCIDENT MANAGEMENT SITUATION REPORT TUESDAY, JUNE 13, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: 5 Type I crews and a helitorch with module will be mobilized to Canada today to assist with large fire suppression in Saskatchewan. Minor fire activity occurred in the U.S. yesterday.

Outlook: A FIRE WEATHER WATCH will continue for the White Mountains and southeast Arizona for dry lightning. Arizona will be sunny and hot today with highs ranging from the 80's in the mountains to around 112 in the southern deserts. New Mexico will be mostly sunny and very warm with isolated dry thunderstorms in the southwest. Highs will be in the 70's and 80's in the mountains and north and in the 90's to near 100 in the south. Southern California will be sunny. Highs will be in the 70's along the coast, 75-85 degrees in the mountains and 90 to 112 degrees in the inland valleys and eastern deserts. The interior of Alaska will be partly cloudy with thunderstorms. The Southwest Area and Alaska can expect initial attack activity to increase with forecasted thunderstorms.

INCIDENT MANAGEMENT SITUATION REPORT WEDNESDAY, JUNE 14, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL I

Current Situation: Fires continue to burn aggressively in Canada. Fourteen Interagency Hotshot Crews are assisting the suppression efforts in Canada. The Southwest, Southern California, Eastern Great Basin and Alaska experienced increased fire activity.

Southwest Area Large Fires:

STOVE, Phoenix District BLM. A Type II Incident Management Team (Whitney) has been assigned.

OWENS, Arizona State. This fire is the result of an escaped prescribed fire.

The Truxtan Canyon Agency in Arizona had a 625 acre fire yesterday. No other information available.

Outlook: A FIRE WEATHER WATCH is posted in northwest Arizona for strong winds and low relative humidity. Arizona will be partly cloudy in the east with widely scattered afternoon and evening thunderstorms. The north and west will be mostly sunny. Highs will range from the 80's in the mountains to 112 in the southern deserts. New Mexico will be partly cloudy in the west and central with isolated afternoon and evening thunderstorms. Highs will be in the mid 70's and 80's in the mountains to the lower 90's in the lower elevations. Southern California will be mostly sunny. Highs will be 65-70 along the coast, 75-85 degrees in the mountains and 90 to 105 degrees in the inland valleys and eastern deserts. The interior of Alaska will be partly cloudy with widely scattered thunderstorms. Highs will be in the 60's and 70's. The potential for increased initial attack activity continues in the Southwest and Alaska.

INCIDENT MANAGEMENT SITUATION REPORT THURSDAY, JUNE 15, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

Current Situation: Fire activity escalated in the Southwest Area due to heavy lightning activity. The Southwest Area ordered ten Type I Crews, 6 airtankers, 1 leadplane, 20 smokejumpers, a smokejumper aircraft, miscellaneous overhead and communications equipment. Increased fire activity was also experienced in southern California. Large fire activity continued in Canada with 324,610 additional acres burned. Additional communications equipment was mobilized to Canada yesterday.

Southwest Area Large Fires:

BUCK, New Mexico State. The fire has burned private land. Structures on the south end of the fire are threatened.

STOVE, Phoenix District BLM. A Type II Incident Management Team (Whitney) is assigned. An aggressive burnout planned for last night combined with cooler temperatures today are expected to assist containment.

Outlook: A RED FLAG WARNING is in effect for northwest, central and east central Arizona with a FIRE WEATHER WATCH in effect for the remainder of Arizona. Both the warning and watch are due to low fuel moisture, low humidities and strong winds. Arizona will have variable high clouds, turning cooler. Winds will be south to southwest 20-40 MPH with gusts over 50 MPH during the afternoon. Highs will range from the mid 70's in the mountains to 102 in the southern deserts. A FIRE WEATHER WATCH is in effect across western New Mexico for winds to 25 MPH and dry lightning. New Mexico will be partly cloudy and windy with scattered afternoon and evening thunderstorms. Highs will be in the mid 70's and 80's in the mountains with mostly 90's in the lower elevations. Southern California will be mostly cloudy, windy and cooler with scattered showers or thundershowers. will be in the 50's to mid 60's in the mountains, 60's to lower 70's along the coast, 70's in the valleys and 90's in the southern deserts. Winds will be southwest to west qusting to 40 MPH in the mountains and deserts. interior of Alaska will be mostly cloudy with rain showers. Highs will be in the 50's to near 70. Fire activity is expected to continue in the Southwest with the potential for additional escaped fires.

INCIDENT MANAGEMENT SITUATION REPORT FRIDAY, JUNE 16, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

Current Situation: Fire activity continued in the Southwest, southern California and Alaska. Resource mobilization through NICC was minimal yesterday. Large fire activity continued in Canada with 215,600 additional acres burned.

Southwest Area Large Fires:

NOGAL, New Mexico State. The fire is burning in grass and Pinion Juniper. Two Type I Crews have been ordered.

STOVE, Phoenix District BLM. A Type II Incident Management Team (Whitney) is assigned. Significant progress was made toward containment. A successful burnout was performed however a large unburned area remains within the planned perimeter.

DEEP WELLS, Arizona State. Current threat is to the Arizona Public Service powerline towers.

CINCO, Santa Fe National Forest. The incident is in a confined status. An existing road and meadow are being used as the control lines. The exterior lines are expected to be burned out today to contain the fire within established boundaries.

INCIDENT MANAGEMENT SITUATION REPORT SATURDAY, JUNE 17, 1995 - 0900 MDT NATIONAL PREPAREDNESS LEVEL II

Current Situation: Fire activity continued in the Southwest, southern California and Alaska. Resource mobilization through NICC increased yesterday with the mobilization of 5 type I crews, a type III helicopter, a caterer, a radio system and miscellaneous overhead and supplies to the Southwest Area. Large fire activity continued in Canada with 224,466 additional acres burned.

Southwest Area Large Fires:

WATER, New Mexico State. A Type II Incident Management Team (Blackwell) has been assigned. The fire is burning in logging slash on private land. The wind was driving the fire and causing spotting up to 1/2 mile ahead. Private structures and timber are threatened.

TURKEY, Cibola National Forest. Airtankers were used yesterday to try and stop the spread. Erratic fire behavior prevented crews from going on the line.

CINCO, Santa Fe National Forest. The fire has been placed in a confinement strategy.

INCIDENT MANAGEMENT SITUATION REPORT SUNDAY, JUNE 18, 1995 - 0900 MDT NATIONAL PREPAREDNESS LEVEL II

Current Situation: Fire activity continued in the Southwest, southern California and Alaska. Resource mobilization through NICC increased yesterday with the mobilization of 5 type I crews, a type III helicopter, a caterer, a shower unit, a radio system and miscellaneous overhead and supplies to the Southwest Area. Large fire activity continued in Canada with 17,794 additional acres burned.

Southwest Area Large Fires:

WATER, New Mexico State. A Type II Incident Management Team (Blackwell) has been assigned. The fire is burning in logging slash on private land. The wind driven fire caused spotting up to 1/2 mile ahead. Private structures, timber, and a game ranch are threatened.

TURKEY, Cibola National Forest. Retardant aircraft and higher humidities assisted in slowing the spread. Erratic fire behavior prevented crews from going on the line.

CINCO, Santa Fe National Forest. The fire has been placed in a confinement strategy.

BDU = San Bernardino R.U., California Department of Forestry and Inyo NF.

Outlook: New Mexico will be partly cloudy with few afternoon and evening thunderstorms, especially in the central and east. Highs will be in the 60's in the mountains and 80's in the lower elevations. Arizona will be mostly sunny, warmer and drier, with decreasing winds. Highs will range from the 70's in the mountains to near 100's in the southern deserts. Southern California will be mostly sunny, warmer and drier. Morning fog and low clouds along the coast. Highs will be in the upper 60's and 70's along the coast and mountains to the 80's and 90's inland. The interior of Alaska will be partly cloudy with widely scattered showers and thunderstorms. Highs will be in the 60's to mid 70's. Fire activity is expected to continue in the Southwest Area as adverse weather conditions prevail. Fire activity will decrease in the interior of Alaska due to precipitation and cooler weather. Light to moderate fire activity will continue in south-central Alaska.

INCIDENT MANAGEMENT SITUATION REPORT MONDAY, JUNE 19, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

Current Situation: Cooler temperatures, higher humidities and decreased winds have moderated fire activity in the Southwest Area. Good progress was made toward containment on several fires. An airtanker was mobilized from the Rocky Mountain Area to Minnesota yesterday. An Infrared aircraft was mobilized to Canada. Four type I crews have been released from Canada and will return to Redmond, OR. this afternoon. Large fire activity continued in Canada with 125,226 additional acres burned.

Southwest Area Large Fires:

WATER, New Mexico State. A Type II Incident Management Team (Blackwell) has been assigned. Demobilization is planned for today including the Incident Management Team.

TURKEY, Cibola National Forest. High winds prohibited helicopter water drops yesterday. Increasing humidity is allowing crews to make progress.

BDU = San Bernardino R.U., California Department of Forestry and Inyo NF.

Outlook: New Mexico will be mostly sunny in the west and partly cloudy in the central and east with a few afternoon and evening thunderstorms. Temperatures will be warmer with highs in the 70's in the mountains and 80's and lower 90's in the lower elevations. Arizona will be sunny, warmer and drier, with breezy conditions in the north. Highs will range from the 70's in the mountains to near 104 in the southern deserts. Southern California will be mostly sunny and a little warmer. Highs will be in the 70's along the coast and mountains to the 90's inland and just over 100 in the eastern deserts. The interior of Alaska will be partly cloudy with a few afternoon showers or thundershowers. Highs will be in the 60's to mid 70's. Moderate fire activity is expected to continue in the Southwest Area. Temperatures in the 90's coupled with low humidities and breezy conditions is expected to increase fire activity in Minnesota.

INCIDENT MANAGEMENT SITUATION REPORT WEDNESDAY, JUNE 21, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

Current Situation: South Zone California and the Eastern Area continued to experience increased fire activity. One type I helicopter, communication equipment and a shower were mobilized to South Zone California. One airtanker, miscellaneous overhead and communications equipment were mobilized to Minnesota. Large fire activity continued in Canada with 239,772 additional acres burned.

South Zone California Large Fires:

BUTTERFIELD, San Diego Ranger Unit, California Dept. of Forestry (CDF). A CDF State Team (Heil) and a USFS Type II Team (Cooney) are assigned. Control problems include poor access, erratic winds and a rapid rate of spread. The fire burned very hot through the night.

Outlook: A FIRE WEATHER WATCH is posted in northeast Arizona for low humidities and strong winds. Arizona will be sunny and seasonably warm. Highs will range from the mid 70's in the mountains to near 109 in the southern deserts. Winds will be gusting to 30 MPH. New Mexico will be partly cloudy with isolated afternoon and evening thunderstorms. temperatures will range from the 70's and 80's north and in the mountains to the 90's in the south. Winds will be 10-20 MPH by afternoon with higher gusts. Southern California will be mostly sunny. Highs will be in the 70's along the coast and in the mountains to near 108 in Death Valley. mountain passes, canyons and interior deserts will experience northwest winds to 25 MPH. The interior of Alaska will be mostly sunny and warm with a few afternoon showers or thundershowers. Highs will be in the mid 60's and 70's. The Great Lakes States will be mostly sunny and continued hot with a slight chance of afternoon thunderstorms in Minnesota and Michigan. Highs will be in the 80's and 90's with southwest to southeast winds 10-20 MPH. Increased fire activity is anticipated in the Southwest, southern California, Alaska and Eastern Areas.

INCIDENT MANAGEMENT SITUATION REPORT THURSDAY, JUNE 22, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

Current Situation: A mid-air collision occurred in South Zone California yesterday involving Leadplane 150Z and Airtanker 19. There were no survivors. The entire fire community extends their sympathy to family, friends and co-workers of the pilots involved in the accident.

Fire activity continued in the Southwest Area, southern California, Eastern Area and Alaska. Three airtankers, 2 leadplanes, a shower and miscellaneous overhead were mobilized to southern California. Communications equipment and miscellaneous overhead were mobilized to the Eastern Area. Canada ordered 20 Sustained Action Squads (Smoke chasers). Each squad consists of a Type IV Incident Commander and 4 firefighters. The Squads will be mobilized to Dryden, Ontario today. Large fire activity continued in Canada with 395,496 additional acres burned.

South Zone California Large Fires:

BUTTERFIELD, San Diego Ranger Unit, California Dept. of Forestry (CDF). A CDF State Team (Heil) and a USFS Type II Team (Cooney) are assigned. The fire is burning in grass and brush. The fire made strong runs during the day, but remained within the control lines.

Outlook: Arizona will be sunny and very warm. Highs will be in the 80's and 90's in the mountains, and up to 110 in the low deserts. New Mexico will be partly cloudy with isolated afternoon and evening thunderstorms in the eastern portion of the state. High temperatures will range from the 70's and 80's in the north and mountains, to the 90's in the south. Southern California will be sunny and warm with highs in the 70's and 80's. Alaska will be cloudy and cooler with a good chance of light rain in most areas. Highs will be in the 60's. Minnesota will have scattered showers, with highs in the upper 70's and 80's. Michigan and Wisconsin will remain hot and very humid with widely scattered showers and thundershowers. Highs will be in the 90's except along the lake shores. Fire activity is expected to continue in the Southwest, southern California and Eastern Areas.

INCIDENT MANAGEMENT SITUATION REPORT SATURDAY, JUNE 24, 1995 - 0900 MDT NATIONAL PREPAREDNESS LEVEL II

Safety comes First on Every Fire Every Time.

Current Situation: Fire activity continued in the Southwest, South Zone, and Eastern Areas. Four Type I crews, a Type II helicopter and miscellaneous overhead were mobilized to Eastern Area. A caterer and a starter system were mobilized to the Southwest. Large fire activity continued in Canada with 291,579 additional acres burned.

Southwest Area Large Fires:

MONTEZUMA, Pima Agency BIA. The fire has become a threat to a BLM wilderness area. Steep inaccessible terrain and erratic fire behavior are hampering containment efforts. Human caused.

MCNIGHT, New Mexico State. The fire has limited ground access requiring extensive air operations. Lightning caused.

AQUILA, Phoenix District BLM. The fire is contained. Mop up continues in heavy brush and unburned islands. Human caused.

SPRING, New Mexico State. Fire activity is decreasing.

BREEZY, Roswell District BLM. Contained.

INCIDENT MANAGEMENT SITUATION REPORT SUNDAY, JUNE 25, 1995 - 0900 MDT NATIONAL PREPAREDNESS LEVEL II

The Ten Standard Fire Orders are Firm. We Don't Break Them; We Don't Bend Them.

Current Situation: Initial attack and large fire activity continued in the Southwest, South Zone, and Eastern Areas. Five Type I crews will be remobilized today from Saskatchewan to Ontario, Canada. A shower was mobilized to the Southwest yesterday. Large fire activity continued in Canada with 434,414 additional acres burned.

Southwest Area Large Fires:

WHITE CANYON, Arizona State. The fire has five heads burning in mesquite and bosque. Poor access from the north and a high population of rattlesnakes are affecting control efforts. Current threats are to a microwave facility and railroad line. A Type II team is on order.

LOST LAKE, Colorado River Agency BIA. The fire jumped the Colorado River from California to Arizona last evening. Five residences were evacuated and ten power poles were lost on the Arizona side. Two hundred residents were evacuated from Lost Lake in California. Current threat is to cultural values.

MONTEZUMA, Pima Agency BIA. Contained. The fire is to be turned over to the Agency today.

MCNIGHT, New Mexico State. No new information received.

Eastern Area Large Fires:

GUNFLINT FIRES, Superior NF. A Type II Incident Management Team (Sterr) is assigned. The Gunflint fires consists of the Winchell, Topaz and Swede fires. These fires are burning in heavy fuels with lots of downed dead and bug killed timber. Fire behavior is extreme, with torching and running ground fire. Both Winchel and Swede incidents grew by several hundred acres yesterday. There is concern for control efforts as winds are expected to shift to the northwest today. Current threats are to the Gunflint power line, Canadian border and recreation access.

Outlook: Arizona will be sunny and hot. Highs will be in the 80's in the mountains, to near 114 degrees in the southeast deserts. New Mexico will be partly cloudy in the west, with scattered afternoon and evening thundershowers in the central and eastern portions of the state. Highs will be in the 70's and 80's in the north, to the lower 90's in the south. Southern California will be sunny and warm. Highs will be in the 70's and 80's in the mountains, 90 to 116 degrees in the southern deserts. The Great Lakes States will have a chance of thundershowers, otherwise partly cloudy to cloudy. Highs will be in the mid 70's in the north to the upper 80's south. Fire activity is expected to continue in the Southwest, southern California and Eastern Areas.

INCIDENT MANAGEMENT SITUATION REPORT MONDAY, JUNE 26, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

All firefighters have the Right to a Safe Assignment.

Current Situation: Initial attack and large fire activity continued in the Southwest, South Zone, and Eastern Areas. Resource mobilization through NICC included: miscellaneous overhead to the Eastern Area; a caterer, shower, radio system and a few miscellaneous overhead to the Southwest Area. South Zone demobilized an airtanker and leadplane to the Southwest. Canada has ordered both NIFC contract jets for crew movement within Canada today. Large fire activity continued in Canada with 389,596 additional acres burned.

Southwest Area Large Fires:

CALVARY, San Carlos Agency, BIA. Some structures were threatened in the town of San Carlos, but no loss occurred.

WHITE CANYON, Phoenix District BLM. The fire continues to burn in a sensitive riparian corridor of neo-tropical bird habitat. Extreme temperatures and low relative humidities are hampering containment and burnout operations. Significant acreage increase is expected if indirect line burnout is successful.

LOST LAKE, Colorado River Agency BIA. The fire blew out of the containment lines yesterday afternoon on two flanks. It was again confined with dozer lines and burnout operations. All evacuated residents returned to their homes.

Eastern Area Large Fires:

GUNFLINT FIRES, Superior NF. A Type II Incident Management Team (Sterr) is assigned. The Gunflint fires consists of the Winchell (1,375 acres), Swede (1,480 acres), Topaz (50 acres), Squat (15 acres) and Fishhook (2 acres) fires. Fire activity decreased on the Swede fire. Fire expanded short distances on nearly all perimeters of the Winchell Lake fire. The Topaz fire is contained and the Squat and Fishhook fires are being monitored.

Outlook: Arizona will be sunny and hot with isolated afternoon and evening thunderstorms in the eastern mountains. Highs will be in the 80's in the mountains, to near 112 in the southern deserts. New Mexico will be partly cloudy with scattered afternoon and evening thunderstorms in the central and eastern portions of the state. Highs will be in the 70's and 80's in the north, to the mid 90's in the south. Southern California will be sunny and very warm. Highs will be in the 80's and 90's, except 70's along the coast and up to 116 in the eastern deserts. The Great Lakes States will have a chance of showers or thundershowers, otherwise partly cloudy to cloudy. Highs will be in the 70's in the north to the lower 80's in the south. Fire activity is expected to continue in the Southwest, southern California and Eastern Areas.

INCIDENT MANAGEMENT SITUATION REPORT TUESDAY, JUNE 27, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

*** SAFETY COMES FIRST ON EVERY FIRE, EVERY TIME ***

Current Situation: The west experienced increased initial attack activity due to recent lightning. Resource mobilization through NICC was minimal. Large fire activity continued in Canada with 420,292 additional acres burned.

Southwest Area Large Fires:

CALVARY, San Carlos Agency, BIA. A Type II Incident Management Team (Thorne) is assigned.

CIENEGA, Arizona State. A Type II Incident Management Team (Ferdon) is assigned. Difficult access, rugged terrain and flashy fuels are hampering containment efforts.

WHITEWATER, Navajo Area Office. No additional information received.

Outlook: A FIRE WEATHER WATCH is posted for the central and eastern mountains of Arizona for dry lightning. Arizona will be partly cloudy with widely scattered afternoon and evening dry thunderstorms in the central and eastern mountains. Highs will range from the 80's in the mountains, to 113 in the southern deserts. New Mexico will be partly cloudy with scattered afternoon and evening thunderstorms. Highs will be in the 70's and 80's in the north to the mid 90's in the south. Southern California will be mostly sunny and warm with isolated afternoon and evening thunderstorms in the mountains. Highs will be in the 80's and 90's, except 70's along the coast and up to 110 in the southeast deserts. The Great Lakes States will have scattered showers and thundershowers. Highs will be in the 70's to lower 80's. The potential exists for increased fire activity in the Southwest and California.

INCIDENT MANAGEMENT SITUATION REPORT WEDNESDAY, JUNE 28, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

*** THE TEN STANDARD FIRE ORDERS ARE FIRM *** *** WE DON'T BREAK THEM; WE DON'T BEND THEM ***

Current Situation: Initial attack activity continued throughout the West. Resource mobilization through NICC remained minimal. One NIFC Boeing 737 assisted Canada in transporting crews and equipment from British Columbia to Ontario yesterday. Large fire activity continued in Canada with 155,106 additional acres burned.

Southwest Area Large Fires: No new information was received.

Outlook: A FIRE WEATHER WATCH is posted in Arizona for dry lightning. Arizona will be partly cloudy with widely scattered afternoon and evening dry thunderstorms, especially in the central and eastern mountains. Highs will range from the upper 70's in the mountains, to 111 degrees in the southern deserts. New Mexico will be partly cloudy with scattered afternoon and evening thunderstorms. Highs will be in the 70's and 80's in the north to near 100 in the south. Southern California will have variable cloudiness with widely scattered thundershowers in the mountains and eastern deserts. Highs will be in the 80's and 90's, except 70's along the coast and mid 90's to 110 in the eastern deserts. The Great Lakes States will have scattered showers and thundershowers. Highs will be in the 70's to lower 80's. The Alaska interior will be mostly sunny, warmer and drier. Highs will be in the 60's and 70's. The potential exists for increased initial attack activity in several areas of the West due to continued lightning activity.

Eastern Area Large Fires:

GUNFLINT FIRES, Superior NF. A Type II Incident Management Team (Sterr) is assigned. The Gunflint fires consists of the Winchell, Swede, Topaz, Squat and Fishhook fires. Favorable weather has allowed crews to make good progress on the north side of the Winchell fire. Mop-up on the Swede fire is difficult due to rocks and deep duff.

Outlook: A FIRE WEATHER WATCH is posted in Arizona for dry lightning. Arizona will be partly cloudy with widely scattered afternoon and evening dry thunderstorms, especially in the central and eastern mountains. Highs will range from the upper 70's in the mountains to 111 degrees in the southern deserts. New Mexico will be cooler with scattered thunderstorms in the northern half of the state, while the southern half of the state will be partly cloudy with widely scattered afternoon and evening thunderstorms. Highs will range in the upper 60's to lower 80's in the north, and upper 80's to 100 in the south. Southern California will be mostly sunny with isolated afternoon thundershowers. Highs will be in the 60's and 70's on the coast and mountains, 80's and 90's in the valleys, and 90's to 110 in the southern deserts. Alaska will be mostly sunny with warm, with isolated thundershowers along the Canadian border. Highs will be in the 60's and 70's. Lakes States will be cooler with a chance of showers and thundershowers. Highs will be from the 60's to low 80's. Initial attack fire activity is expected to continue in the Southwest Area.

INCIDENT MANAGEMENT SITUATION REPORT FRIDAY, JUNE 30, 1995 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

*** SAFETY COMES FIRST ON EVERY FIRE, EVERY TIME. ***

Current Situation: Initial attack and large fire activity continued in the Southwest Area. A caterer, shower and starter system were mobilized to the Southwest Area yesterday. A Bell 205 helicopter crashed in Canada on Wednesday. Three of the 8 passengers were fatally injured. The U.S. fire community extends condolences to the family, friends and co-workers of the firefighters. No U.S. firefighters were on the helicopter. Large fire activity continued in Canada with 314,216 additional acres burned.

Southwest Area Large Fires:

NEVERSHINE, Arizona Strip District, BLM. A Type II Incident Management Team (Price) is committed. This fire is burning in the Pakoon Basin, an inaccessible area on the North Rim of the Grand Canyon extending into Lake Mead National Recreation Area. There are three other fires in the same general area.

Outlook: A FIRE WEATHER WATCH is posted for dry lightning in central and eastern Arizona. Arizona will be partly cloudy with scattered afternoon and evening dry thunderstorms, especially in the central and eastern mountains. Highs will range from the upper 70's in the mountains to 111 in the southern deserts. New Mexico will be mostly cloudy in the northeast and partly cloudy elsewhere. Widely scattered afternoon and evening thunderstorms will occur, mainly in the central and east portions of the state. Highs will range in the upper 60's to lower 80's in the north, and upper 80's to near 100 in the south. Southern California will be mostly sunny with isolated afternoon thundershowers. Highs will be in the 60's and 70's on the coast and mountains, 80's and 90's in the valleys, and 90's to 110 in the eastern deserts. The Great Lakes States will be mostly cloudy with a chance of showers and thundershowers. Highs will be from the 60's to low 80's. Initial attack fire activity is expected to continue in the Southwest Area.
