INCIDENT MANAGEMENT SITUATION REPORT FRIDAY, FEBRUARY 16, 1996 - 1000 MST NATIONAL PREPAREDNESS LEVEL I

CURRENT SITUATION: Fire activity continued in the Southern and Eastern Areas. High to very high fire dangers are being reported on numerous units in the Southern Area. Minor resource mobilization occurred to the Southern Area through NICC. Two airtankers are available at Fort Smith, AR. Good progress continues on large fires in the Southern and Eastern Areas. Flood recovery and damage assessment efforts are continuing in Oregon, Washington, Idaho and Montana.

Southern Area Fire Information:

McFaddin NWR has a new 2,500 acre fire. No other information available.

Texas National Forests has a new 150 acre fire burning in a remote area. No other information available.

River Birch, Texas State. Containment was expected on 2/14. No new information received.

OUTLOOK: *** FIRE WEATHER WATCH IS IN EFFECT FOR NORTHERN FLORIDA TODAY DUE TO WINDS AND LOW HUMIDITY *** The southern plains states and the southeast United States will be fair and cooler with 15-30 MPH winds as high pressure builds over the area today. The weekend will be fair, warmer and have decreased winds. The next cold front

will move into Texas Monday with increasing winds and a chance of thundershowers. High temperatures today will range from the 30's and 40's north, 50's and 60's south and 70's southern Florida. Highs over the weekend and early next week will be warmer with highs in the upper 50's to mid 70's. The Southwest Area will be sunny and warm, except cloudy and windy (10-20 MPH) in eastern New Mexico. Saturday will be fair and warm. Sunday through Tuesday will have increasing winds. Highs will range from the 40's and 50's in the mountains to the 70's and 80's in the deserts. Moderate fire activity is expected to continue.
