INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, JUNE 7, 1996 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

```
*** THE TEN STANDARD FIRE ORDERS ARE FIRM ***
*** WE DON'T BREAK THEM; WE DON'T BEND THEM ***
```

CURRENT SITUATION: Initial attack fire activity occurred in several areas of the West and Alaska yesterday. Alaska has committed another Type II Incident Management Team to a new fire on the Kenai Penninsula that started late last night. The Southwest Area also experienced increased large fire activity. Resource mobilization through NICC continued to Alaska and the Southwest Area, mainly overhead positions.

## Alaska Area Large Fires:

MILLERS REACH \#2, Alaska State. A Type I Incident Management Team (Liebersbach) is assigned. Decreased winds, higher humidities and additional resources aided suppression efforts yesterday. Significant progress was made on the north end where spotting and runs occurred on the evening of 6/5. Major threats still exist to many subdivisions to the east and north, including the towns of Wasilla, Houston and Willow. The Nancy Lake Recreational Area is also threatened. Unburned areas within the perimeter of the fire continued to smolder and flare-up. Engine strike teams continue to provide structure protection to homes and other structures within the perimeter of the fire. The total number of residences burned is still undetermined, disaster assessment teams will start surveying the damage losses today.

GRAVEYARD CREEK, Alaska State. A Type II Incident Management Team (Dube) is assigned. Crew continued securing and mopping up the perimeter along the north and east flanks. Burnout operations continued along the southeast flank and were planned for last night along the Steese Highway and Bedrock Creek. The fire continued to spread to the west, along the north flank. Areas inside the perimeter continued to burn due to increased winds.
INCIDENT
NAME

## Southwest Area Large Fires

WHEELER, New Mexico State. This fire is located near the town of Las Vegas and is threatening the Municipal Airport. The major interstate (I-25) was closed due to the smoke from the fire.

ONAVA, New Mexico State. This fire was also causing heavy smoke on I-25.

OUTLOOK: Southern California and the Southwest Area will be mostly sunny, unseasonably hot and locally breezy. New Mexico will be a little cooler with widely scattered dry thunderstorms in the western and southern portions of the state. High temperatures will be in the 70's and 80's in the mountains and in the $90^{\prime}$ s up to 118 in the hottest Arizona deserts. Alaska will be mostly cloudy and cooler with some light rain. High temperatures will be in the 50's and 60's and winds will be light. Increased initial attack activity is expected in the Southwest Area as hot dry weather prevails coupled with forecasted dry lightning.
