## INCIDENT MANAGEMENT SITUATION REPORT SATURDAY, JUNE 15, 1996 - 0900 MDT NATIONAL PREPAREDNESS LEVEL III <br> *** SAFETY COMES FIRST ON EVERY FIRE, EVERY TIME ***

CURRENT SITUATION: Good progress was reported on most large fires. New large fire activity occurred the Eastern, Eastern Great Basin and Southern California Areas. Very high to extreme fire indices continue to be reported in the Southwest, Rocky Mountain, Great Basin and Southern California Areas. Canada continued to experience initial attack and large fire activity, in Saskatchewan, Quebec, Ontario, Manitoba and New Brunswick.

Rocky Mountain Area Large Fires:
DIPPING VAT COMPLEX, Southern Ute Agency, BIA. A Type I Incident Management Team (Birch) is assigned. The fires are burning approximately 15 miles southeast of the community of Chimney Rock, CO. The complex is comprised of the Archuleta and Dipping Vat fires. Light rain allowed crews to make good progress on the fire. Limited growth of the fire perimeter was reported.

Southwest Area Large Fires:
LL COMPLEX, Gila NF. A Type I Incident Management Team (Lente) is assigned. The complex is burning in the Gila Wilderness approximately 40 miles northwest of Silver City, NM. Base camp was established 3 miles south of the Negrito Work Center. Contingency plans for Willow Creek structure protection and evacuation are proceeding. Alternatives for suppression were analyzed due to rain and higher humidities. Direct attack with hot spotting and cold trailing will begin today.

The Gila NF has 1 fire under confinement strategy for 2,200 acres.

Alaska Large Fires:
100 MILE CREEK, Alaska State. A Type II Incident Management Team (Stires) is assigned. The fire is located on military land near the community of Delta Junction approximately 100 miles southeast of Fairbanks. An estimated containment date is not applicable as a portion of the fire is burning on the military arms range, which is a limited suppression area. Rehabilitation of dozer line is complete. Crews continued to mop-up hot-spots. Major demobilization is planned for today.

TETLIN, Alaska State. A Type II Incident Management Team (Harper) is assigned.

This fire is burning approximately 22 miles southeast of Tok. Crews continued mop-up and line construction. Drier weather conditions moving in should aid in locating remaining smokes.

Eastern Great Basin Large Fires:
LONG RIDGE, Richfield District, BLM. A Type II Incident Management Team (Casey) is assigned. This fire is located 10 miles northwest of Nephi, UT. Powerlines, electrical substations and structures within a mile of the fire are currently threatened. Changing winds, poor access and low relative humidities are hampering control efforts.

ROUND TOP, Salt Lake District, BLM. This fire is burning 27 miles southwest of Tooele, UT. The fire spread rapidly at 20-60 chains per hour with 5-10 foot flame lengths. Good progress was made yesterday with local engine crews; no major problems are anticipated.

Southern California Large Fires:
CLEGHORN, San Bernardino NF. This fire is burning approximately 35 miles east of Wrightwood, CA. The current threat is to watershed. No additional information received.

MORMON, San Bernardino NF. This fire is burning approximately 20 miles east of Wrightwood, CA. Rough terrain is the current control problem.

The cause of the fire is under investigation.

OUTLOOK: A broad upper level ridge is centered over the plains states. Scattered thunderstorms are forecast for eastern Arizona, New Mexico, eastern Utah, Colorado and Wyoming. Widely scattered thunderstorms are forecast for northern Nevada to southeast Idaho. Some of these thunderstorms will be dry and others will produce locally heavy rain, especially in Colorado. High temperatures will range from the 70's and 80's in the mountains to the 90's up to 110 in the desert southwest. Alaska will be warmer and drier with widely scattered thunderstorms. Some of the thunderstorms will be dry in the northern interior sections. High temperatures will be in the mid 50's along the coasts to the mid 70's in the interior. Initial attack and large fire activity is expected to continue as dry lighting remains in the forecast.
