## INCIDENT MANAGEMENT SITUATION REPORT

FRIDAY, JULY 12, 1996 - 0530 MDT NATIONAL PREPAREDNESS LEVEL III

*** SAFETY COMES FIRST ON EVERY FIRE, EVERY TIME ***

CURRENT SITUATION: Initial attack activity continued in most Areas of the West. Large fire activity increased in Southern California, the Great Basin and Rocky Mountain Areas. Resource mobilization through NICC remained steady with caterers, showers, crews, helicopters and airtankers mobilized to the Areas mentioned above. The Federal Emergency Management Agency (FEMA) has tasked the USDA Forest Service to establish, manage and operate a Receiving and Distribution Center at Fort Bragg, NC in support of Hurricane Bertha.

Eastern Great Basin Area Large Fires:
GILSON MOUNTAIN COMPLEX, Richfield District, BLM. A Type II Incident Management Team (Sisk) is assigned. The Complex consists of 4 fires burning in the Gilson Mountains 25 miles southwest of Nephi, UT. The fire is burning in pinyon pine, juniper, sagebrush and grass. Retardant dropped on the fire proved to be effective in assisting handcrews.

ROCK CORRAL, Cedar City District, BLM. The fire is 75 miles north of Cedar City, UT. Helicopters aided firefighters in suppression efforts.

One fire is in a confinement suppression strategy totalling 303 acres.

Northwest Large Fires:
JEFFERSON, Deschutes NF. A Type II Incident Management Team (Lohrey) is assigned. The fire is in the Jefferson Wilderness approximately 35 miles northwest of Redmond, OR. The fire burned actively on the west flank. Crews will use coyote tactics in an effort to reduce travel time. Falling snags remain a major safety concern. Wilderness resources, wildlife habitat and commercial timber on the Warm Springs Reservation are at risk.

OLD LYLE, Washington State. This fire is located near the town of Lyle, WA. Two homes have been damaged and twenty homes are threatened.

Rocky Mountain Large Fires:
ZANOBIA, Dinosaur NP. A Type II Incident Management Team (Krugman) was ordered and will assume management of this fire today. This lightning caused fire was originally burning in a prescription. Fire intensity increased and the fire made several runs last night. The Team, 8 crews and a type II helicopter were ordered last night.

Western Great Basin Area Large Fires:
GARDEN, Ely District, BLM. This lightning fire is burning in manzanita, black brush, pinyon and juniper. Steep and rocky terrain has helped curb the spread of the fire. Current threats are to a Wilderness Study Area and watershed.

REBEL CREEK, Winnemucca District, BLM. The fire is burning is sage and grass and 3 miles from Orovada, NV. Current threats are to a ranch, mule deer, big horn sheep habitat and a commercial communications site. Erratic winds, steep, inaccessible terrain and thunder cells are causing control problems.

Southern California Incidents \& Large Fires:
ROCKSLIDE, Yosemite NP. A major rock slide in Yosemite NP Wednesday night has claimed one life and at least 10 minor injuries. The slide occurred in the Happy Isles area of the park. Excessive amounts of dust remains in the area, which is hampering the search efforts. Continued rockslides are posing a major threat to personnel. The energy released by the slide blew down approximately 10 acres of mature timber in the valley floor. Search personnel will continue efforts to locate possible victims at first light.

GORGE, Angeles NF. The fire is burning in a remote roadless area in Piru Creek drainage. All crew transport will be by helicopter, due to poor access.

Alaska Large Fires:
Thirty-two fires are in a limited suppression strategy totalling 384,770 acres.

## OUTLOOK:

An upper ridge of high pressure remains from the desert Southwest to the Pacific Northwest. A surface thermal trough along the Washington and Oregon coasts will result in an offshore flow. Monsoon moisture will continue to push northward along the Sierra Nevada Mountains to near the southern Oregon border. Washington and Oregon will be warmer and drier with east winds in the Cascades and coastal ranges. South-central Oregon will have isolated dry thunderstorms. Idaho and Montana will be sunny, warm and dry. Southeast Wyoming, Colorado, Utah and the Sierra Nevada Mountains in California will have isolated to widely scattered thunderstorms. Arizona, New Mexico and Nevada will have scattered thunderstorms with locally heavy rain. High temperatures will be warmer over most of the West, with highs ranging from the 80's to near 100 as far north as Washington and Oregon. The desert Southwest will be hot with highs from 100 to 112. An upper level low pressure system continues to dominate the weather in Alaska. The interior will be mostly cloudy with scattered showers and thunderstorms. The coast will be cloudy with areas of rain. High temperatures will range from near 70 in the interior to the 50's and 60's along the coasts. Northern Minnesota will be mostly cloudy with scattered showers and thunderstorms. High temperatures will be in the 70's. Fire activity is expected to continue with forecasted hot and dry conditions for several areas of the West and continued thunderstorms.
