```
*** ALL FIREFIGHTERS HAVE THE RIGHT TO A SAFE ASSIGNMENT ***
```

CURRENT SITUATION: Increased fire activity continued in many areas of the West. Type II Incident Management Teams were committed to fires in the Northern Rockies, Northern California, Southwest and Great Basin Areas. Resource mobilization through NICC has increased.

Rocky Mountain Large Fires:
TWIN BUTTES INCIDENT, Craig District, BLM. A Type II Incident Management Team (Hart) is assigned. The TWIN BUTTES and HATCHET fires are being managed together as the Twin Buttes Incident. The Twin Buttes fire is $100 \%$ contained. The Hatchet fire continues to be a threat to oil and gas improvements and private land. Significant activity occurred on the fire yesterday. The outlook for today is for continued extreme fire behavior based on low humidities and dry, dense continuous fuels.

TELEPHONE, Grand Mesa-Uncompahgre-Gunnison NF. A Type II Incident Management Team (Stone) is assigned. This fire is burning in Ponderosa Pine, Pinyon-Juniper and oak 35 miles southwest of Montrose, Co. Threats are to private land and a proposed timber sale. Control problems include low humidites, strong erratic winds (up to 40 MPH ), steep terrain and low fuel moistures. Extreme fire behavior is expected again today.

Eastern Great Basin Large Fires:
EAST CARBON, Moab District, BLM. A Type II Incident Management Team (Sisk) was ordered this morning. This fire is burning near the community of Carbon, UT. No further information was available.

WILDCAT, Zion NP. A Type II Incident Management Team (Martin) is assigned. The fire is 8 miles north of Park Headquarters, 27 miles south of Cedar City, UT. The fire escaped containment lines yesterday. The north flank completed mop-up and accomplished rehabilitation of the fire lines. Burnout operations are continuing in heavy fuels and isolated pockets.

DAVIS MOUNTAIN, Shoshone District, BLM. This fire is burning in steep, rugged, inaccessible terrain 43 miles east of Mountain Home, ID. Plans are to use airtankers first thing this morning to support crews and engines. The current threat is to wildlife habitat and a Wilderness Study

Area.

CURTIS CREEK, Boise NF. This fire is 16 miles northeast of Cascade, ID. Torching, spotting and access are causing control problems. The current threat is to anadromous fisheries. Two fires are in a confinement suppression strategy totalling 1,620 acres.

Western Great Basin Large Fires:
FLAT CREEK, Winnemucca District, BLM. A Type II Incident Management Team (Burdick) has been ordered. This fire is located 2 miles south of McDermitt, NV. Current threats are to fish and Bighorn Sheep habitat. Control problems include steep terrain, poor access and erratic fire behavior.

DRY, Battle Mountain District, BLM. The fire is threatening livestock 45 miles south of Battle Mountain, NV. Steep terrain, poor access and winds are hampering control efforts.

Northern California Large Fires:
MADALANNA, Plumas NF. A Type II Incident Management Team (Woods) is assigned. The fire is burning in grass, juniper and scattered timber 5 miles east of Beckwourth, CA. The fire started at 1530 yesterday afternoon and spread very rapidly. Numerous resources were on order at the time of the report. Current threat is to a farm house and outbuildings.

CRATER BUTTE, Lassen Volcanic NP. A Type II Incident Management Team (Madden) is assigned. Torching has caused spotting problems in two divisions.

Alaska Large Fires: Thirty fires are in a non-suppression status totalling 435,355 acres.

Southwest Large Fires: Two fires are in a confinement suppression strategy totalling 19,736 acres.

OUTLOOK:

```
*** A FIRE WEATHER WATCH IS POSTED FOR DRY LIGHTNING IN CENTRAL OREGON ***
```

Strong high pressure aloft will continue to bring hot and dry weather over the western U.S. The combination of unstable air and mid-level moisture will produce isolated to widely scattered afternoon thunderstorms from the Oregon Cascades and California Sierras eastward through the Great Basin and into the Rockies. Some of these thunderstorms will be dry, especially in central Oregon where a fire weather watch is posted. Thunderstorms in the desert Southwest and the Rockies will generally be accompanied with rain. The Pacific Northwest will continue to be unusually hot. High temperatures in the West will range from the 70's along the coasts, with most areas in the $90^{\prime}$ s and 100 's up to 115 in the Southwest deserts. Fire activity is expected to continue with forecasted dry lightning and holdover fires from the past few days.
