## INCIDENT MANAGEMENT SITUATION REPORT

 THURSDAY, AUGUST 22, 1996 - 0530 MDT NATIONAL PREPAREDNESS LEVEL V*** ALL FIREFIGHTERS HAVE THE RIGHT TO A SAFE ASSIGNMENT ***

CURRENT SITUATION: Initial attack activity remained steady throughout the western states. Fire intensity on several large fires decreased, allowing firefighters to make good progress toward containment objectives. Four firefighters were injured by a falling snag while working on the Spring fire, Umpqua NF yesterday. All were treated at a local hospital and released. Resource mobilization through NICC moderated.

## Southern California Large Fires:

ROGGE, Stanislaus NF. A Type I Incident Management Team (Greenhoe) is assigned. The fire is burning in the Tuolumne River drainage south of Highway 108. Crews made excellent progress on the northeast flank. Line construction and burnout operations in the Clavey River drainage continues.

ACKERSON COMPLEX, Yosemite NP. Type I (Dague) and Type II (Byrd) Incident Management Teams are assigned. The fires include in this complex are the ACKERSON, POOP/NAUT, BIG CREEK, and MIGUEL. All fires continued to burn actively along the Yosemite NP/Stanislaus NF border. The current threat is to Aspen Valley which is one quarter mile from the fire. Structure protection for 22 historic cabins in the area is in place.

HWY. FIFTY-EIGHT, San Luis Obispo Ranger Unit, California State. A State Type I Incident Management Team (Bates) and a Type II Incident Management Team (Smith) are assigned. This fire is 5 miles east of Santa Margarita, CA. Firing operations conducted yesterday were successful. Firefighters made good progress on line construction.

KAWEAH, Tulare Ranger Unit, California State and Sequoia Kings NP. A Type I Incident Management Team (Monahan) is assigned. Crews continued to mop-up hotspots. Helicopter bucket drops assisted in the containment of inaccessible areas.

CHOLOLLO, Sequoia NF. The fire is burning on the Tule Indian Reservation, east of Springville, CA. Two divisions of this fire burned actively. Immediate threats include a Giant Sequoia grove and a stand of commercial timber within a mile of the fire. Burnout operations were conducted yesterday.

Northwest Large Fires:

BULL COMPLEX, Umatilla NF. A Type II Incident Management Team (Kearney) is assigned. The BULL, SUMMIT, ROCKY, and \#104 fires comprise this complex. The Bull and Summit fires experienced growth yesterday due to warmer, drier weather. Suppression forces directly attacked the north and south flanks of the fires. Current threats are to the Donaldson Mine structure, a wooden pipeline, Desolation Lookout, recreation structures, and residences.

TOWER, Umatilla NF. A Type II Incident Management Team (Lukens) is assigned. The Tower fire is 17 miles south of Ukiah, OR. A team transition is planned for Friday or Saturday. Private land, cabins, and an electronic site are still concerns.

SOUTH ZONE COMPLEX, Willamette NF. A Type II Incident Management Team (Gardner) is assigned. The complex is 11 miles southeast of Oakridge, OR. Type I crews and helicopters have been instrumental in containment efforts.

SPRING, Umpqua NF. A Type II Incident Management Team (Murphy) is committed. The fire is burning in the Boulder Creek Wilderness, near Toketee Falls, OR. Good progress was made on the upper portions of both the north and south flanks. The two bottom corners are still posing containment problems due to steep slopes. Private property, powerlines, and the Wilderness remain threatened.

NORTH UMPQUA COMPLEX, Umpqua NF. Suppression forces continue to meet containment goals. No new information was received.

WILDCAT COMPLEX, Malheur NF. A Type I Incident Management Team (Dubois) is assigned. The fire is 10 miles southeast of John Day, OR. The fire is being suppressed under Unified Command with Oregon State. The complex includes the WILDCAT and GRAHAM fires. Burnout operations on the Graham Fire successfully reinforced handlines. Some torching was observed in the interior of the fire, along with some new smokes. Private and industrial lands, structures, and the Wilderness remain threatened.

SALT COMPLEX, Wallowa-Whitman NF. A Type I Incident Management Team (Bailey) is assigned. The complex includes the SALT CREEK, DAM, SHEEP CREEK, and HEAVEN'S GATE fires. The fires are burning on the Oregon/Idaho border of the Hells Canyon Recreation Area. The Sheep Creek Fire made a run at McCatron Ridge yesterday. Air support and helicopter water drops kept the ridge from burning. Line was constructed along the wilderness boundary in preparation for burnout operations.

Two fires are in a confinement suppression strategy totalling 5,148 acres.

Northern California Large Fires:
FORK, Mendocino NF. An Area Command Team (Mann) is assigned. Two Type I Incident Management Teams (Kohut \& Loving) are assigned. The 3rd Brigade, 4th Infantry Division (Lt. Col. Bayles, Commander), continues field training today. The Battalion's first line assignment is scheduled for Friday, August 22. The fire is located north of the town of Upper Lake, CA. Direct line construction continued yesterday with good progress reported in several areas. Burnout operations continued, but were restricted by mid-afternoon wind shifts. Fifteen strike teams of structure protection engines along with dozers and miscellaneous overhead were demobilized from the fire. MORRIS, Shasta-Trinity NF. The fire is located in an inaccessible area about 12 miles northwest of Weaverville, Ca. No new information was received.

EAST FORK, Shasta-Trinity NF. The fire is located about 25 miles north of Weaverville, Ca. No new information was received.

## Rocky Mountain Large Fires:

CHAPIN \#5, Mesa Verde NP. A Type II Incident Management Team (Hart) is assigned. This fire is burning 8 miles southeast of Cortez, CO. Burnout operations on the fire's northwest corner resulted in containment of the entire west half of the incident. Portions of the fire received beneficial rain early yesterday afternoon. Air operations were temporarily halted because of heavy rain and lightning. The threat to park headquarters is now diminished.

DANO, Shoshone NF. A Type II Incident Management Team (Gauger) will take charge of the fire today at 0600. The fire was relatively quiet yesterday due to low temperatures and high humidity levels. It made some late day runs in steep chutes on the west flank. Suppression forces were attempting to stop the fire from spreading into adjacent timberland.

LOGAN CREEK, Casper District, BLM. This fire is located north of Weston, Wy. It is burning in Ponderosa pine, pinyon-juniper, grass, and sage. Excellent progress was made in containment. Difficult terrain is the main control problem.

Northern Rockies Large Fires:
SWET/WARRIOR, Nez Perce NF \& Bitterroot NF. A Type II Incident Management Team (Hodge) is assigned. Suppression action continued on portions of the fire outside of the two wilderness areas. The MacGruder Road still remains closed to the public.

One fire is in confinement suppression strategy totalling 226 acres.

Western Great Basin Large Fires:
HORSETHIEF, Ely District, BLM. The fire is located about 20 miles northeast of Pioche, Nv. Fire behavior was moderate yesterday. Current threats are to a wilderness study area and deer winter range. Better mapping of the fire area resulted in a 50 acre decrease in size.

SHOEMAKE, Ely District, BLM. This fire is located 35 miles southeast of Caliente, Nevada. There was a 1,500 acre increase in fire size due to interior burns. Current threats include high value timber and deer winter range. Control problems include road access and resource availability.

Eastern Great Basin Large Fires:
CUNNINGHAM, Cedar City District, BLM. A Type II Incident Management Team (Casey) is assigned. The fire is located 10 miles northwest of Beaver, UT. The fire was very active yesterday afternoon, with multiple cloud forming columns. A residence, major transmission lines, a sulfate factory, Interstate Highway 15, and 500 to 600 head of cattle are threatened. Control problems include shifting winds, low humidity levels, dry fuels, poor access in some areas, and lack of adequate water.

3 CREEK WELL, Boise District, BLM. This fire is located about 20 miles south of Glenns Ferry, Id. No new information was received.

STODDARD, Salmon/Challis NF. The fire is burning in a remote area of the Frank Church River-of-No-Return Wilderness above the Middle Fork of the Salmon River. It is surrounded on three sides by old burns. The fire burned an additional 50 acres. No other new information was received.

Three fires are in confinement suppression strategy totalling 6,104 acres.

Alaska Large Fires: Sixteen fires are in a non-suppression status totalling 419,109 acres.

## OUTLOOK:

Upper level high pressure near the Four Corners will strengthen and build northward bringing warmer weather. Monsoon moisture will begin spreading out of Arizona and New Mexico bringing widely scattered thunderstorms from southeast Utah to northeast Nevada and isolated storms along the Sierras. Some of these storms will be dry. Wet thunderstorms will continue in Arizona, New Mexico, and Colorado. High temperatures will range from the 80's in the Northern Rockies to 113 in the desert Southwest.
