## *** SAFETY COMES FIRST ON EVERY FIRE EVERY TIME ***

CURRENT SITUATION: Initial attack and large fire activity increased in most are as. Extreme fire behavior occurred on many existing and new large fires throughout the west. Th e Task Force Vanguard, 3rd Brigade, 4th Infantry Division is committed to the Park Meadows fire in Ore gon. An Area Command, seven Type I and five Type II Incident Management Teams were mobilized yesterday. Resource mobilization through NICC remained high.

Northwest Large Fires:
An Area command Team (Edrington) has been ordered to manage all incidents on the Umatilla National Forest.

BULL COMPLEX, Umatilla NF. A Type I Incident Management Team (Porter) is assig ned. This incident is being managed under a Unified Command with the Oregon Department of Forestry.

The BULL, SUMMIT, ROCKY, and \#104 fires comprise this complex. The Summit Fire made major runs on Sunda y evening, which threatened the small towns of Galena and Susanville. Air operations were limit ed by an inversion layer yesterday. The Base Camp was relocated to Howard Meadows. Threats remain to $t$ he towns of Galena and Susanville, three agency structures, historic resources, threatened and endange red species habitat, and private lands.

TOWER, Umatilla NF. A Type I Incident Management Team (Richer) is assigned. S unday evening, the fire made a major run in a plume-dominated event which threatened the Pearson Guard Station, destroyed three summer residences and one outbuilding, and initiated an orderly move of the Bul l/Summit Base Camp, which was in the fire's path. The Guard Station and nearby Pearson Summer Home Tract were saved. Many Forest roads and trails were temporarily closed. Threats remain to a lookout tower, campgrounds, private lands, a cabin, and an electronic site.

TIMBERLINE COMPLEX, Colville Agency, BIA. A Type II Incident Management Team ( Furlong) is assigned. The fire is located 8 miles east of Omak, WA. The TIMBERLINE and the WANNACUT fires make up this complex. There is no current threat to structures. Control problems include logging slash.

SPRING, Umpqua NF. A Type I Incident Management Team (Wands) is assigned. The fire is burning in the Boulder Creek Wilderness, near Toketee Falls, OR. Eleven fires have been ident ified in this area. It is highly probable that they will burn together. Control problems include stee p inaccessible terrain and severe burning conditions. Current threats are to private property, reside nces, and a power transmission line.
Exceptionally heavy fuels and steep inaccessible terrain co ntinue to present control problems.

SOUTH ZONE COMPLEX, Willamette NF. A Type II Incident Management Team
(Gardner ) is assigned. The complex is 11 miles southeast of Oakridge, OR. Suppression forces provided initial attack support for more than 30 new fires after intense lightning activity. Control problems include heavy fuels, steep slopes and expected dry lightning. The Wolf Mountain communication and electronics site, private land, and high value timber remain vulnerable.

PARK MEADOWS, Deschutes NF. A Type I Incident Management Team (Payne) is assig ned. The advance team for Task Force Vanguard, 3rd Brigade, 4th Infantry Division (Lt. Col. Bayles, Commander) arrived at camp yesterday. Battalion personnel are expected to be working on the fire line today. There were some rain showers on the fire yesterday, which slowed fire activity. Threats include the municipal watershed for the town of Sisters and private lands.

MOOLACK COMPLEX, Willamette NF. A Type II Incident Management Team (Bright) is assigned. The complex consists of the MOOLACK and CHARLETON fires. Wet thunderstorms Sunday night sl owed fire activity yesterday. Crews made good progress on line construction. Trail and road clos ures have been initiated. Campgrounds are still threatened.

SKELETON/EVANS WEST, Deschutes NF. A Type II Incident Management Team (Lohrey) is assigned. This fire is being managed under a Unified Command with the Oregon Department of Forestry and the Bend Rural Fire Department. The Skeleton fire is located 6 miles southeast of Bend, OR. Both fires were completely lined yesterday. Numerous hot spots exist near the Conestoga Subdivision.

NORTH UMPQUA COMPLEX, Umpqua NF. A Type II Incident Management Team (Weltch) i s assigned. Suppression priorities include the BLACK GORGE and BEAR BONES fires. The Black Gorge fire is active near an important steelhead fishery.

WILDCAT COMPLEX, Malheur NF. A Type I Incident Management Team (Dubois) is ass igned. The fire is 10 miles southeast of John Day, OR. The fire is being suppressed under Unified Co mmand with Oregon State. The complex includes the WILDCAT and GRAHAM fires. Demobilization is progressi ng. Fire activity was light yesterday. Lightning strikes resulted in new starts south of Wildcat, ou tside of the fire perimeter. Some rain was associated with the lightning and the new starts do not appear to pose a problem.

SALT COMPLEX, Wallowa-Whitman NF. A Type I Incident Management Team (Bailey) i s assigned. Transition to a Type II Incident Management Team (Bullis) is scheduled for $8 / 28$. The complex includes the SALT CREEK, DAM, SHEEP CREEK, and HEAVEN'S GATE fires. The fires are burning on the Oregon/Idaho border of the Hells Canyon Recreation Area. Fire activity continued on the Dam and Sheep Creek fires. Historic structures and electronic sites remain threatened.

Four fires are in a confinement suppression strategy totalling 125,579 acres.

Eastern Great Basin Large Fires:
EIGHTH STREET, Boise District, BLM. A Type I Incident Management Team (Monahan ) has been ordered. The fire is located near Boise, ID. Extreme fire behavior and high winds hindered suppression efforts. Mandatory evacuations of 500-600 homes on the Boise NF are in progress. One home was confirmed as destroyed. The Butte Antennae Site is also threatened.

BRUNO COMPLEX, Boise District, BLM. A Type I Incident Management Team (O'Banno n) has been ordered. Multiple fires are located 10-15 miles south of Mountain Home, ID. The complex consists of the CANYON CREEK, BLACK SANDS, COVE, CJ and GRANDVIEW fires. High winds and dry fuels created extreme burning conditions.

ELBA, Sawtooth NF. A Type II Incident Management Team (Sisk) has been ordered. The fire is located 20 miles southwest of Burley, ID. Fire fuels include grass, sage and timber. Structures, cabins, a ski area, a lookout and mining establishments are threatened.

FALL CREEK, Payette NF. The fire is 7 miles northwest of McCall, ID. Rugged t errain and limited access are creating control problems.

IRON BOG, Salmon-Challis NF. The fire is burning in heavy brush and timber, 40 miles east of Ketchum, ID. No other information available.

Four fires are in confinement suppression strategy totalling 6,104 acres.

Southern California Large Fires:
MARPLE, Los Angeles County, California State. A Type I Incident Management Tea m (Frye) has been ordered. The fire is located near Lake Castatic. The fire was extremely activ e yesterday, consuming 4,000 acres in four hours. Interstate 5 was closed due to visibility problems.

LADDER, San Bernardino NF. A Type I Incident Management Team (Hutchinson) has been ordered. No other information available.

RESERVOIR, Angeles NF. A Type II Team (Conrad) is assigned. The fire is burni ng on both sides of Highway 39 in the San Gabriel Canyon. Strong winds from a passing thunderstorm caused control problems.

ACKERSON COMPLEX, Yosemite NP. Type I (Dague) and Type II (Byrd) Incident Mana gement Teams are assigned. The fires included in this complex are the ACKERSON, POOP/NAUT, BIG CREEK, POINT, and MIGUEL. The fire continued to make runs in the Cherry Creek area toward Hetch Hetchy. Crews made progress on line construction. Burnout operations conducted yesterday were successful.

Western Great Basin Large Fires:
WINNEMUCCA COMPLEX, Winnemucca District, BLM. A Type II Incident Management Te am (Shive) has been ordered. Three fires burned together to form this complex, located on the edge of Winnemucca, NV. Current threats include 2 subdivisions and 31 other residences, a gas compressor/pumping station, and an 14 buildings at an oil plant. Highway 95 is closed due to smoky conditions.

SMILEY, Nevada State. The fire is located 40 miles east of Elko, NV. Current threats include ranches and 8 structures. Structure protection equipment is in place.

ROAD CANYON, Humboldt NF. A Type I Incident Management Team (Birch) has been o rdered. The fire is located 45 miles southeast of Elko, NV. Rapid rates of spread through pinyon-juniper fuels was observed. Abandoned mining structures are threatened.

KING'S RIVER COMPLEX, Winnemucca District, BLM. The fire is near the Nevada/Or egon border. Current threats include 3 ranches, a communications site, a historic cabin and high value Big Horn sheep habitat.

QUINN/ODELL, Winnemucca District, BLM. The fire is threatening seasonal cabins and permanent residences at Fort McDermitt and Lahontan Cutthroat Trout habitat. FIRE CANYON, Battle Mountain District, BLM. Firefighters are working to contai $n$ the blaze between two roads. Private grazing land, outbuildings and wildlife habitat are at risk.

TWO FORKS, Winnemucca District BLM. Two ranches and permanent residences are threatened. No other information available.

GREELEY COMPLEX, Winnemucca District, BLM. The four fires in the complex are threatening a gas pipeline and ranch improvements.

SLAVEN 2, Battle Mountain District, BLM. Extreme winds and rugged terrain are impeding containment efforts. The fire is threatening private grazing land, livestock and wildlife habitat.

SHOEMAKE, Ely District, BLM. This fire is located 35 miles southeast of Caliente, Nevada. No new information available.

Northern Rockies Large Fires:
TELEPHONE BUTTE 2, Montana State. A Type II Incident Management Team (Spradlin) is assigned. The fire is located 21 miles west of Missoula, MT. Air support aided firefighters in su ppression efforts. Control problems include steep terrain, rolling material, high temperatures and low relative humidities.

COYOTE GULCH, Montana State. A Type II Incident Management Team (Stires) has been ordered. The fire is located 15 miles north of Reedpoint, MT. Extreme fire behavior was observed as the fire moved through grass, brush and timber. Current threats include ranches, residences and grazing areas.

SUNDAY POET, Nez Perce NF. A Type II Incident Management Team has been ordered. This fire is located 39 miles southeast of Grangeville, ID. Heavy timber and inaccessibility are ha mpering containment objectives.

SWET/WARRIOR, Nez Perce NF \& Bitterroot NF. A Type II Incident Management

Team (Hodge) is assigned. Fire activity was reduced by higher relative humidities and lower temperatures. A structure protection plan for the Gatlin Ranch continues to be implemented.

Southwest Large Fires: Five fires are in confinement suppression strategy totalling 2,449 acres.

Alaska Large Fires: Fourteen fires are in a non-suppression status totalling 413,573 acres.

OUTLOOK:
*** A RED FLAG WARNING IS POSTED FOR SOUTHEAST OREGON AND THE CENTRAL ***
*** MOUNTAINS OF IDAHO FOR DRY THUNDERSTORMS AND GUSTY THUNDERSTORM WINDS ***
*** A FIRE WEATHER WATCH IS POSTED FOR THUNDERSTORMS WITH LITTLE RAIN ***
*** AND GUSTY THUNDERSTORM WINDS IN NORTHEASTERN WASHINGTON, ***
*** IDAHO, WYOMING, AND PARTS OF MONTANA ***
An upper level disturbance moving through the Northwest will produce scattered thunderstorms with little rain in eastern Oregon, Idaho, northeast Washington, Wyoming, and parts of western Montana. Cooler and more humid weather is forecast for western Washington and Oregon. There is as light chance of thunderstorms in southern California. Scattered wet thunderstorms are forecast in Colorado, Utah, New Mexice, and Arizona. Temperatures will range from the 80s' in the Rockies to 112 in the Desert Southwest. Highs will be in the 60s' and 70s' along the Coast.
