Three fires are in a confine and contain suppression strategy for 23,840 acres.

Alaska Large Fires:

Six fires are in a limited protection status totalling 84,512 acres.

## OUTLOOK:

An upper level low pressure system will be centered over the Dakotas with a northwesterly flow aloft over the rest of the West. Moisture rotating about the upper low will keep clouds and a few showers over Colorado, Wyoming and Montana. Another weak frontal system will move into Washington and Oregon with light rain west of the Cascades. California, Nevada, Utah and Arizona will be dry and a little warmer. High temperatures will be in the 60's and 70's for most areas with 80's to lower 90's in California and 90's to near 100 in the desert Southwest.
