## INCIDENT MANAGEMENT SITUATION REPORT <br> FRIDAY, SEPTEMBER 27, 1996 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

## *** ALL FIREFIGHTERS HAVE THE RIGHT TO A SAFE ASSIGNMENT ***

CURRENT SITUATION: Initial attack activity was minor. Large fire activity occurred in the Great Basin and Northern California Areas. An airtanker, lead plane, caterer and shower were mobilized through NICC for the Panther fire in Northern California.

## Northern California Large Fires:

PANTHER, Six Rivers NF. The fire is located 1.5 miles northeast of Gasquet, CA in the Smith River Scenic Corridor. The community of Gasquet was threatened at one time. Structure protection engines have been ordered, but no structures have been lost. Losses include timber, watershed and part of the Panther Creek Campground. The fire spread rapidly yesterday afternoon due to warm temperatures, high winds and low humidity.

Three fires are in a confine and contain suppression strategy for 23,840 acres.

## Western Great Basin Large Fires:

PINEY CREEK, Elko District, BLM. The fire is burning in grass and juniper 21 miles east of Jackpot, NV. Poor access and gusty winds are causing control problems. The engine personnel assigned are working as a hand crew due to lack of vehicle access. No structures are threatened.

Northwest Large Fires:
One fire is in a confine suppression strategy totaling 16,005 acres.

Northern Rockies Large Fires:
Forty-two fires are in a confine and contain suppression strategy totaling 55,026 acres.

OUTLOOK:

```
*** A RED FLAG WARNING IS POSTED FOR GUSTY WINDS AND LOW RELATIVE HUMIDITIES ***
    *** IN SOUTHWEST OREGON AND NORTHERN CALIFORNIA. ***
```

A deep upper level low pressure system extends from the Dakotas to the southern Rockies. A ridge of high pressure is off the west coast. A surface high pressure over the Great Basin is producing offshore flow west of the Sierra and Cascade mountains. Gusty northeast to southeast winds and low relative humidities are forecast for southwest Oregon and northern California. The west coast from Washington to California will be warm and dry. The Rockies will be unseasonably cool with snow or rain showers from Montana to New Mexico. The Great Basin will be cool but dry. High temperatures will range from the 40 's to the middle 60's in the Rockies, and to the 80's and 90's in California and Arizona.
