```
INCIDENT MANAGEMENT SITUATION REPORT
    FRIDAY, OCTOBER 4, 1996 - 0530 MDT
        NATIONAL PREPAREDNESS LEVEL II
```

*** ALL FIREFIGHTERS HAVE THE RIGHT TO A SAFE ASSIGNMENT ***

CURRENT SITUATION: Fire activity decreased in the Northern Rockies and Great Basin Areas. Minimal initial attack activity was reported yesterday.

Northern Rockies Large Fires:

ROGERS MOUNTAIN, Northwest Montana State. A Type II Incident Management Team (Gauger) is assigned. Good progress was made on the fire yesterday due to cooler temperatures and less winds. Efforts were concentrated on completing handlines and building direct line. About 40 acres are burning in 5 isolated spots outside of the main fire perimeter. Steep slopes and heavy fuels are contributing to control problems.

Forty fires are in a confine and contain suppression strategy totaling 53,686 acres.

Northwest Large Fires:
MYRTLE, Wenatchee NF. A Type II Incident Management Team (Furlong) is assigned. The fire size increased to 150 acres due to remapping using GPS. The extremely steep terrain is the main obstacle in achieving containment. Light rain on the fire yesterday aided suppression efforts.

Two fires are in a confine or contain suppression strategy totaling 20,005 acres.

Eastern Great Basin Large Fires:
CAMPGROUND, Dixie NF. This fire is burning in dense oakbrush nine miles northwest of Hurricane, UT. Good progress was made on the fire and some demobilization is in progress. Hot spots remain a concern. Acreage decrease is due to remapping.

## OUTLOOK:

An upper level low will move into the Pacific Northwest bringing cooler and breezy conditions. Western Oregon, Washington and northern Idaho will have rain and showers today. The remainder of the West will be warm and dry. A weak upper level disturbance will bring scattered thunderstorms to Colorado. A few thunderstorms are forecast in eastern Arizona. High temperatures will range from the 50's in portions of the central Rockies, 60's to near 80 in the Northern Rockies, 70's and 80's in the Great Basin and 90's to near 100 in xhe desert Southwest.
