    INCIDENT MANAGEMENT SITUATION REPORT
    SATURDAY, OCTOBER 12, 1996 - 0900 MDT
                NATIONAL PREPAREDNESS LEVEL II
    *** THE TEN STANDARD FIRE ORDERS ARE FIRM ***
*** WE DON'T BREAK THEM, WE DON'T BEND THEM ***
```

CURRENT SITUATION: Fire activity continued in California. The Eastern Great Basin experienced increased large fire activity yesterday. Resource mobilization through NICC has moderated.

## Southern California Large Fires:

WILD, Los Padres NF. A Type I Incident Management Team (Dague) is assigned. This fire is burning 25 miles south of Big Sur, CA. Crews continue firing out operations to secure containment in the rugged terrain. Structure protection for 43 private homes and a historical cabin is in place.

OAK FLAT, Sequoia NF. This fire is located at the entrance to the Tule Indian Reservation. No new information was received.

LNU = Lake-Napa Ranger Unit, California State.

Eastern Great Basin Large Fires:
DWAYNE, South-Central Utah State. This fire is burning 7 miles northwest of Nephi, UT. Dry fuels, high winds and poor access hampered control efforts.

KNOX CANYON, Idaho Falls District, BLM. This fire is burning in juniper 25 miles south of Pocatello, ID. High winds pushed this fire through dry fuels in an area with poor access.

Northwest Large Fires:
One fire is in a confine or contain suppression strategy totaling 16,005 acres.

Northern Rockies Large Fires:
Thirty-four fires are in a confine and contain suppression strategy totaling 54,800 acres.

OUTLOOK:
The strong upper level ridge that was over the western U.S. for the last few days has weakened. A series of weather fronts will move into the Pacific Northwest and help push the ridge to the east. The center of the ridge is over eastern Montana and Wyoming. The Pacific Northwest will be cloudy with a chance of showers over western portions of Oregon and Washington. The Great Basin will have increasing clouds. The Southwest will be mostly sunny and a few degrees cooler. High temperatures will range from the 60's to the lower 70's in the Rockies, 80's and lower 90's in the reat Basin. The southern California valleys and the southwest deserts will have temperatures in the upper 90's to 100.
