## INCIDENT MANAGEMENT SITUATION REPORT FRIDAY, JANUARY 24, 1997 - 1000 MST NATIONAL PREPAREDNESS LEVEL I

CURRENT SITUATION: Minor initial attack activity continued in the Southern Area. NICC continued to process overhead requests for flood recovery efforts in Yosemite National Park.

OUTLOOK: A cold front over the Midwest this morning will sweep across the southeast United States bringing showers and thunderstorms. High pressure behind the front will bring colder and drier air over the weekend, mainly in the northern half of the area. Breezy south winds 10-25 MPH ahead of the front will shift to northwest behind it then gradually diminish. High pressure will move off of the Atlantic coast next week, bringing a moderation in temperatires. High temperatures will range from the 50's in Kentucky to the mid 80's in southern Florida today, then cooling over the weekend and warming up again next week.
