```
INCIDENT MANAGEMENT SITUATION REPORT
    FRIDAY JULY 11, 1997 - 0530 MDT
        NATIONAL PREPAREDNESS LEVEL II
```

CURRENT SITUATION: Fire activity has moderated in the Southwest, Southern California, Alaska and Great Basin. Resource mobilization through NICC has decreased. Fire dangers remain high to extreme throughout the southern portion of the western United States.

## ALASKA LARGE FIRES:

INOWAK, Southwest Area Forestry, Alaska State. A Type II Incident Management Team (Kechter) is assigned. The advance toward Stony river, Sleetmute and Red Devil has stalled over the past 24 hours due to cool, damp weather. Crews have completed 60\% of the structure protection. A new spot fire was found between the main fire and Stony River. Emergency evacuation plans for the three villages are completed.

CAMP LAKE, Tok Area Forestry, Alaska State. This fire is between Tok and North way. Crews continue to work the east flank with helicopter assistance. Ground forces continued to mop-up the south and west sides of the fire.

BUTTE CREEK, Fairbanks Area Forestry. No significant fire activity was observed. The fire laid down after three and a half hours of rain yesterday morning. Crews continue structure protection for the cabins along the southern perimeter.

Alaska has 45 other large fires burning for a total of 856,410 acres.

## SOUTHWEST LARGE FIRES:

Mt. GRAHAM COMPLEX, Coronado NF. A Type II Incident Management Team (Moore) is assigned. This complex consists of the GIBSON, CRAZY HORSE, BABCOCK, CLARK, COLDER, GRAND and GRAND VIEW fires. The Babcock, Clark, Grand View and Grand fires are contained. Only a slight increase in acreage occurred since yesterday. Steep, rocky terrain is hindering fireline construction, but steady progress is being made. There is no threat to any structures or telescopes. The Gibson fire is burning in Spotted Owl and Mt. Graham Red Squirrel habitat.

## EASTERN BASIN LARGE FIRES:

BLACK MOUNTAIN 2, Richfield District, BLM. This fire is 24 miles east of Nephi, UT. Crews made good progress on mop-up and line construction yesterday. Full containment was expected last night.

WESTERN BASIN LARGE FIRES:
TABLE, Ely District, BLM. This fire is burning in the Parsnip Wilderness Study Area. Acreage increase is due to a cold front that passed through the area. This will be the last report.

OUTLOOK:
*** A FIRE WEATHER WATCH IS POSTED FOR THE NORTHERN THIRD OF ARIZONA FOR GUSTY WINDS, LOW HUMIDITIES AND LOW FUEL MOISTURE ***

Arizona will be mostly sunny, hot and breezy. Isolated thunderstorms are forecast for the eastern mountains in the afternoon. The northern part of the state will have southwesterly winds at 15-30 MPH. New Mexico will be partly cloudy with afternoon thunderstorms in the mountains and in the east. High temperatures will be in the 70's and 80's in the mountains and up to 110 in the southern deserts.

Colorado will be partly sunny and breezy with widely scattered afternoon thunderstorms. High temperatures will be in the 60's and 70's in the mountains and 80's and 90's in the valleys.

Nevada will be mostly sunny in the south and west. The east will be partly cloudy with isolated afternoon thunderstorms. High temperatures will be in the 70's to mid 80's, except for 90's to 106 in the southern deserts.

California will be sunny with the normal patchy morning fog along the coast where the temperatures will range from the 60's to 70 's. Temperatures in the mountains will be in the 70's and 80's with 90's to 100 in the valleys and deserts.

Alaska will receive a moist southerly flow of air over most of the state from an upper level trough. It will be mostly cloudy with areas of rain along the coast and scattered showers and thunderstorms in the interior. High temperatures will be in the $50^{\prime}$ 's along the coast and 65 to 75 in the
