```
INCIDENT MANAGEMENT SITUATION REPORT
    SATURDAY JULY 12, 1997 - 0900 MDT
        NATIONAL PREPAREDNESS LEVEL II
```

CURRENT SITUATION: Moderate fire activity continues in the western states. Most large fires are meeting containment objectives and are beginning to demobilize resources. Fire dangers remain high to extreme throughout the southern portion of the western United States.

## ALASKA LARGE FIRES:

INOWAK, Southwest Area Forestry, Alaska State. A Type II Incident Management Team (Kechter) is assigned. Low to moderate fire behavior was observed in the past 24 hours resulting in a modest increase in acreage. The perimeter is most active on the ridge tops. Preparation of defensible space around the villages of Stony River, Sleetmute, and Red devil is 80\% complete.

CAMP LAKE, Tok Area Forestry, Alaska State. This fire is between Tok and Northway. 10\% active, creeping with occasional tree torching. Activity increased with afternoon warming. Crews mopped up the south and west flank, and continue to work the east flank. Total containment date has not yet been determined.

BLACK HILLS FIRE, Tok Area Forestry, Alaska State. This fire is located near Northway on the Tetlin Wildlife Refuge. The fire was torching, running and spotting. Retardant was effective, and cool temperatures in the late evening slowed fire activity. Fire is staffed with Smoke jumpers, Helitack and Type II Crews.

BUTTE CREEK, Fairbanks Area Forestry. The perimeter remains active 2 miles from cabins. Crews continue to monitor fire activity and are staged for structure protection upriver on 12 additional cabins.

Alaska has 46 other large fires burning for a total of 867,182 acres.

## SOUTHWEST LARGE FIRES:

Mt. GRAHAM COMPLEX, Coronado NF. A Type II Incident Management Team (Moore) is assigned. This complex consists of the GIBSON, CRAZY HORSE, BABCOCK, CLARK, COLDER, GRAND and GRAND VIEW fires. The Babcock, Clark, Grand View and Grand fires are contained. Acreage decrease due to better mapping. This will be the last report.

EASTERN BASIN LARGE FIRES:
BLACK MOUNTAIN 2, Richfield District, BLM. This fire is 24 miles east of Nephi, UT. Containment objectives were met yesterday at 1300.

ROCKY MOUNTAIN LARGE FIRES:

WESTON, Casper District, BLM. This fire is 40 miles north of Gillette, WY. Good progress continues despite heavy fuels.

BESSEMER MOUNTAIN, Casper District, BLM. This fire is located just south and west of Casper, wY. The fire is smoldering, with occasional torching and minor runs in Juniper and Ponderosa Pine during the heat of the day.

OUTLOOK:

Arizona will be mostly sunny and hot with breezy southwest 15 to 25 MPH winds in the north. High temperatures form the mid 70's in the mountains to near 109 in the southern deserts. New Mexico will be mostly sunny, warmer and drier with isolated afterno on thunderstorms in the southeast. High temperatures will range from the mid 70's to near 90 in the mountains and 80's to upper 90's in the lower elevations.

Colorado will be partly cloudy with widely scattered afternoon thunderstorms, mainly in the mountains and northwest. Look for highs in the mid 60's and 70's in the mountains and 80's to upper 90's in the lower elevations.

Nevada will be mostly sunny in the south and west. Partly cloudy conditions in the central and eastern portions with isolated afternoon thunderstorms. High temperatures will be in the 70's to upper 80's, except for 90's to 110 in the southern deserts.

California will be sunny with the normal patchy morning fog along the coast where the temperatures will range from the 60's to 70's. Temperatures in the mountains will be in the $70^{\prime} \mathrm{s}$ and $80^{\prime} \mathrm{s}$, with $90^{\prime}$ s to 105 in the valleys and deserts.

An upper level trough over western Alaska will bring cool, wet weather to much of the state. Mostly cloudy with areas of rain along the coast. Scattered showers and thunderstorms in the interior. High temperatures will be in the 50's along the coast and 60's to lower 70's in the interior.
