```
INCIDENT MANAGEMENT SITUATION REPORT
    SATURDAY JULY 19, 1997 - 0900 MDT
        NATIONAL PREPAREDNESS LEVEL II
```

CURRENT SITUATION: Full containment was achieved on all the Great Basin large fires. The Southwest, Rocky Mountain and Eastern Great Basin Areas continued to experience initial attack fire activity associated with thunderstorms. Resource mobilization through NICC consisted of miscellaneous overhead, crews and helicopters.

## ALASKA LARGE FIRES:

INOWAK, Southwest Area Forestry, Alaska State. A Type II Incident Management Team (Kechter) is assigned. Favorable winds led to moderate fire behavior. The perimeter was $70 \%$ active with three foot flame lengths in the Tundra and intermittent torching of Black Spruce along a 30 mile wide front. The fire was most active along the south fork of the George River and the southeast corner, near Sinka's Landing. Crews continue native allotment and structure protection from Red Devil to Sinka's Landing. Air operations were hampered by smokey conditions, and crews had to be transported by boat. The fire consumed another fire, adding 110,000 acres to the acreage.

Alaska has 39 other large fires burning for a total of 1,094,546 acres.

SOUTHWEST LARGE FIRES:

CUMARO, Coronado NF. Six retardant drops assisted crews working in flashy fuels. Full containment was expected last night.

GREEN, San Carlos Agency, BIA. Burnout operations were planned for last night.

Full containment was expected last night.

## OUTLOOK:

Utah will be partly cloudy with scattered thunderstorms in the east and north. Temperatures will be in the 80 's to near 100.

New Mexico and Arizona will be partly cloudy with scattered afternoon and evening thunderstorms from eastern Arizona through New Mexico.
Northwestern Arizona will be breezy. High temperatures will range from the 70's and $80^{\prime}$ 's in the mountains and 90's to 113 in the valleys and Arizona deserts.

Colorado will be partly cloudy with scattered thunderstorms over the mountains and a few in the valleys. Highs will be in the upper 80's to near 100 across most of the state, with mountain temperatures only reaching the 70's and lower 80's.

Nevada will be mostly sunny and warmer. Breezy conditions are forecast for southern Nevada. Northern temperatures will be in the 80's to lower 90's, with highs reaching 112 in the south.

California will be dry, with breezy conditions in the south. Highs will range from the 60's and 70's along the coast, 70's and 80's in the mountains, and the 90's and 100's in the valleys and deserts.

Alaska will be partly cloudy with scattered showers and thunderstorms. Coastal temperatures will be in the 50 's and $60^{\prime} \mathrm{s}$, with interior highs in the 70's.
