INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, JULY 28, 1997 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION: New large fires were reported in Alaska and the Northwest Areas. Favorable weather conditions allowed firefighters to make good progress on most other fires in Alaska. Initial attack activity increased in the Western Great Basin, Northwest and Northern California Areas. Fire indices remain high to extreme for units from Texas through Montana.

## ALASKA LARGE FIRES:

SIMELS, Galena District, BLM. This fire is south of Galena, AK. The eastern perimeter of the fire has crossed the Innoko River in two places. Crews are working on the southern slopover which has potential to threaten mines and cabins near the fire. Smoke and low clouds have made accurate mapping of the fire difficult.

CHINIKLIK MOUNTAIN, Galena District, BLM. A Type II Incident Management Team (Wehking) is assigned. This fire is in the lower Yukon near Russian Mission, AK. Cooler temperatures and light precipitation have moderated fire behavior. Firefighters made good progress on the southern perimeter.

PAIMIUT, Galena District, BLM. This fire is being managed by the Type II Incident Management Team assigned to the Chiniklik fire. The fire is in the Lower Yukon area, between Russian Mission and Holy Cross, AK. Fire activity has decreased due to lower temperatures and light rain.
Firefighters have reached containment objectives along the south and east perimeters.

INOWAK, Southwest Area Forestry, Alaska State. A Type II Incident Management Team (Dube) is assigned. Minimal fire activity was observed along the southern perimeter. Air operations were hampered by fog and low clouds. Crews continued mop-up operations.

Alaska has 48 other large fires burning for a total of 1,400,289 acres.

NORTHWEST LARGE FIRES:
BULL, Wallowa-Whitman NF. This fire is located 6 miles south of Memaloose, OR. The fire began at the bottom of the Oregon side of Hells Canyon and is burning to the top of steep canyon walls in grass. Access
is by boat and helicopter only. Airtankers and helitack are trying to keep the fire out of Granite Creek drainage.

LOGY COW CAMP, Yakima Agency, BIA. This fire is burning in grass 20 miles north of Goldendale, WA. Four airtankers and four crews had stopped the spread of the fire by 1800 last night.

OUTLOOK:
Most of the Alaska interior will have increasing showers and wet thunderstorms during the afternoon. The Bettles and interior McGrath areas will be mostly sunny. Temperatures will be in the 60's and 70's throughout the state.

Washington and Oregon will be mostly sunny. Southern and eastern Oregon will have scattered afternoon and evening thunderstorms. Isolated afternoon thunderstorms are possible in eastern Washington. Temperatures will be in the 70's and 80's west of the Cascades. Highs for the southwest Oregon valleys and east of the Cascades will be in the 80 's and 90's.

California will be mostly sunny. Scattered afternoon and evening thunderstorms are predicted for the northern mountains and Sierra Nevada range. Temperatures will range from the 70 's in the mountains to 107 in the southern deserts.

Partly cloudy skies will dominate Nevada and Utah, with scattered afternoon and evening thunderstorms. Colorado and New Mexico will be mostly cloudy with numerous showers and thunderstorms. Mountain temperatures will be in the 70's and 80's, with valley highs in the 90's. Nevada desert temperatures will reach 105.

Arizona will be partly cloudy with scattered afternoon thunderstorms in the central and eastern mountains. Isolated thunderstorms are forecast for the western portion of the state. High temperatures will range from the 70's in the mountains to 112 in the deserts.
