

INCIDENT MANAGEMENT SITUATION REPORT  
TUESDAY, AUGUST 5, 1997 - 0530 MDT  
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION: Initial attack and large fire activity increased in the Northwest, California, and Western Great Basin Areas. Southern California mobilized a Type II Incident Management Team to the Los Padres NF. A State Type II Incident Management Team was mobilized in Northern California. NICC processed resource orders for helicopters, air tankers, showers, and a caterer in support of new fires in the Nevada and California. Very high and extreme fire dangers were reported on units in California, Nevada, Arizona and New Jersey.

ALASKA LARGE FIRES:

INOWAK, Southwest Area Forestry, Alaska State. A Type II Incident Management Team (Dube) is assigned. Air operations were grounded due to poor weather conditions. Crews continue to provide structure protection to native allotments.

SIMELS, Galena District, BLM. This fire is on the east side of the Innoko Flats, between Galena and McGrath. Poor weather conditions restricted air operations.

Crews continue line construction on the eastern slope. Structure protection continues at Bear Creek Landing and Graham Mine.

MAGITCHLIE CREEK, Galena District, BLM. This fire is located in the Innoko Flats, 35 miles south of Kaltag. High fuel moisture content made burnout operations difficult. Firefighters continue to make good progress.

CHINIKLIK MOUNTAIN, Galena District, BLM. A Type II Incident Management Team (Wehking) is assigned. The fire received some precipitation. The crews continued securing the perimeter and mopping-up hot spots.

PAIMIUT, Galena District, BLM. This fire is being managed by the Type II Incident Management Team on the Chiniklik fire. It is located in the lower Yukon, between Holy Cross and Russian Mission, Alaska. The fire received light precipitation yesterday. Firefighters made good progress on the eastern slope. The southern slope displayed very active burning conditions and doubled in size.

BUTTE CREEK, Fairbanks Area Forestry, Alaska State. All resources have been demobilized and the fire is now in monitor status.

GARFIELD CREEK, Galena District, BLM. All resources have been demobilized and the fire is now in monitor status.

Alaska has 54 other large fires burning for a total of 1,679,592 acres.

#### SOUTHERN CALIFORNIA LARGE FIRES:

LOGAN, Los Padres NF. A Type II Incident Management Team (Smith) has been ordered. The fire is located approximately 20 miles northeast of Santa Maria, CA. Steep, rugged and inaccessible terrain coupled with hot and dry weather are hampering suppression efforts. Current threats are to Branch Mountain Lookout.

INCIDENT	UNIT	ST	SIZE	%	EST	TOTAL	CRW	ENG	HELI	STRC	EST	\$\$\$
				CTN	CTN	PERS				LOST	LOSS	C-T-D
LOGAN	LPF	CA	1,200	0	UNK	300	9	8	3	0	NR	NR

#### NORTHERN CALIFORNIA LARGE FIRES:

GOOCH, Lassen-Modoc Ranger Unit, California State. A State Type II Incident Management Team (Hawkins) has been ordered. This fire is located near Eagle Lake, northwest of Susanville, Ca. A watershed and timber sale are currently threatened.

INCIDENT	UNIT	ST	SIZE	%	EST	TOTAL	CRW	ENG	HELI	STRC	EST	\$\$\$
				CTN	CTN	PERS				LOST	LOSS	C-T-D
GOOCH	LMU	CA	500	0	UNK	350	10	16	4	0	NR	NR

#### WESTERN GREAT BASIN LARGE FIRES:

SUMMIT, Winnemucca District, BLM. This fire is located 70 miles northwest of Winnemucca, NV. Active fire behavior was observed as the fire moved swiftly through light, flashy fuels. Two residences were destroyed by the blaze. Current threats include 12 residences, 2 businesses, and a Lahontan Cutthroat Trout hatchery and spawning area.

The Western Great Basin has 1 other large fire burning for a total of 600 acres.

NORTHWEST LARGE FIRES:

PWO WAH KEE, Washington State. This grass fire is located 8 miles west of Clarkston, Washington. Current concerns are for wheat fields in the proximity of the fire. No other information available.

OUTLOOK:

Alaska will have drier and warmer weather over the eastern two-thirds of the state. A chance of showers exists in the far west and along the southeast coast. Temperatures will range from the 60's along the coast to the 80's in the interior.

California will be warm and dry with isolated afternoon thunderstorms along the central and southern Sierras. Temperatures will be in the mid 60's to the 80's along the coast. Mountain temperatures will be in the 80's and 90's, with valley and desert highs reaching 114.

Nevada will be hot and dry. A few thunderstorms are possible over the central mountains. Northern temperatures will range from the 80's to the 100's, with highs of 105 to 112 in the south.

Washington and Oregon will be very warm and dry with isolated thunderstorms from the Cascades to the eastern borders. Temperatures west of the Cascades will be in the 70's and 80's, with highs climbing to the 90's and 100's in the east.

Utah will be partly cloudy with scattered showers and thunderstorms. Temperatures will range from 85 to 100 across the state.

New Jersey will be partly cloudy and breezy with a chance of showers in the north. Temperatures will be in the 70's.
