```
INCIDENT MANAGEMENT SITUATION REPORT
    MONDAY, AUGUST 11, 1997 - 0530 MDT
        NATIONAL PREPAREDNESS LEVEL II
```

CURRENT SITUATION: Southern California continued experiencing large fire activity. The Western Basin reported one new large fire. Favorable weather has aided suppression efforts on most large fires. Resource mobilization through NICC was minor. Very high and extreme fire indices were reported in California, Nevada, Oregon, and Arizona.

## SOUTHERN CALIFORNIA LARGE FIRES:

An Area Command Team (Edrington) is assigned to the Los Padres National Forest.

LOGAN, Los Padres NF. A Type I Incident Management Team (Kohut) is assigned. This fire is located 20 miles east of Santa Maria, CA. Firefighters are making excellent progress toward containment goals. Acreage decrease is due to more accurate mapping. Demobilization of resources has begun.

HOPPER, Los Padres NF. A Type I Incident Management Team (Greenhoe) is assigned. This fire is located 5 miles north of Fillmore, CA. High relative humidities and lower temperatures allowed firefighters to make good progress toward containment objectives. Helicopters were utilized to shuttle crews to the fire. Burnout operations have been successful. Demobilization of some resources has begun.

CHOKE, Sequoia NF. A Type II Incident Management Team (Battreal) is assigned. This fire is located in the Monarch Wilderness, approximately 50 miles east of Fresno, CA. Active fire behavior was observed yesterday. Spot fires and falling snags are creating control problems. An assessment of fire damage and flood potential along Highway 180 will be conducted.

JACKS, Sequoia NF. A Type II Incident Management Team (Bacon) is assigned. This fire is located 30 miles east of Lake Isabella in the Kiahava Wilderness. Dense fuels and inaccessibility have caused containment obstacles. Structure protection has been established in the Jacks Creek area. A potential threat exists for structures in the canyon below the fire.

## WESTERN GREAT BASIN LARGE FIRES:

BUFFALO, Winnemucca District, BLM. This fire is located 30 miles north of Winnemucca, NV. Flame lengths of 30-50 feet were observed as the fire
moved rapidly through flashy fuels. Highway 95 was temporarily closed yesterday due to heavy smoke.

SNOW CREEK, Ely District BLM. This fire is located 70 miles north of Ely, NV. Light precipitation aided firefighters as they made good progress toward containment objectives.

WARRIOR, Winnemucca District, BLM. This fire is located 15 miles north of Fernley, NV. Firefighters made significant progress on line construction. Rough terrain and limited access are hampering control efforts.

## NORTHERN CALIFORNIA LARGE FIRES:

HUFFER, Lassen National Park, NPS. A Type II Incident Management Team (Wood) is assigned. This fire is located east of Viola, CA. Firefighters successfully burned out over 150 acres yesterday along the northeast head and southeast flank. Line construction on the east flank is limited by access. Small spot fires are still being discovered by field observers and infrared maps.

## ALASKA LARGE FIRES:

INOWAK, Southwest Area Forestry, Alaska State. Minimal fire activity was observed yesterday due to overcast skies and precipitation. Some hot spots were found within the perimeter, but no active flames were reported.

OUTLOOK:
California will be mostly sunny and slightly cooler. Isolated afternoon thunderstorms are possible in the mountains north of Redding. The coastal areas will have morning fog and low clouds. Temperatures will be in the $60^{\prime} \mathrm{s}$ to $80^{\prime} \mathrm{s}$ in the mountains, the $80^{\prime} \mathrm{s}$ and $90^{\prime} \mathrm{s}$ in the valleys, and the $90^{\prime}$ s to 105 in the southern deserts.

Northern and eastern Nevada will have scattered showers and thunderstorms. The southern and western portions will be mostly sunny. Temperatures will range from the 80 's in the north to near 105 in the southern deserts.

Eastern Oregon and the southern Oregon Cascades will have scattered afternoon and evening thunderstorms. The remainder of Oregon and Washington will be sunny and hot. Temperatures for both states will be between 85 and 95.

Utah will have partly cloudy skies with scattered showers and thunderstorms. High temperatures will be in the 70's and 80's.

A storm system over southwest Alaska will spread clouds and rain over most of the southern and interior portions. Temperatures will be in the 60's to low 70's throughout Alaska.

Upper Michigan will be partly sunny and cool. Scattered showers and thunderstorms are forecast for lower Michigan. Temperatures across the state will be mostly in the 60's.

Minnesota will be partly sunny in the north, with scattered rain showers in the south. Temperatures will range from 65 to 75.
