INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, MAY 29, 1998 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL II

## CURRENT SITUATION:

Initial attack fire activity remained minimal. The National Interagency Coordination Center was tasked by the Office of Foreign Disaster Assistance to send supplies and equipment to Honduras, El Salvador, Nicaragua and Costa Rica. Very high and extreme fire indices were reported in Texas, New Mexico, Arizona, Utah, Minnesota, Michigan, New York and New Hampshire.

SOUTHERN AREA LARGE FIRES:
HOLIDAY, Apalachicola NF. A Type II Incident Management Team (Kearney) is assigned. This fire is 18 miles southwest of Tallahassee. Burn-out operations continued with operations directed into the wetter portions of Bradwell Bay. Utilization of the wet area is expected to increase control along the west flank. Low relative humidities, winds and intense fire behavior continue to cause control problems. Current threats are to wilderness values and some pockets of commercial timber.
