```
INCIDENT MANAGEMENT SITUATION REPORT
    SATURDAY, MAY 30, 1998 - 0900 MDT
        NATIONAL PREPAREDNESS LEVEL II
```

## CURRENT SITUATION:

The National Interagency Coordination Center continues to support international efforts by mobilizing supplies to Mexico, Honduras, El Salvador, Nicaragua and Costa Rica. A partial Type I Incident Management Team (Bennett) and a T-1 helicopter has been assigned to the Tin Cup Dam Incident near Hamilton, Montana. The plan calls for stabilizing the earthen structure with heavy equipment. A Type I Incident Management Team (Stamm) has been ordered to the Carla Lake Incident and will transition with the Type II team today. Very high and extreme fire indices were reported in Alaska, Texas, New Mexico, Arizona, Utah, Minnesota, Michigan, New York and New Hampshire.

## ALASKA LARGE FIRE FIRES:

CARLA LAKE, Fort Greely Army Base. This fire is 15 miles southwest of Delta Junction, AK. A Type II Incident Management Team (McKnight) is assigned. The fire burned onto state lands and is within one mile of a functional trapping cabin. Cabin protection measures are in progress. One structure has been lost. Strong winds created extreme fire behavior, resulting in a gain of 2,200 acres in one hour. The Alaska Type I Team (Stamm) will assume command today.

## NORTHERN ROCKIES LARGE FIRES:

The Northern Rockies reported a 3,800 acre fire outside of Billings, Montana. The fire is burning on county land. No additional information is available.

## SOUTHERN AREA LARGE FIRES:

HOLIDAY, Apalachicola NF. A Type II Incident Management Team (Kearney) is assigned. This fire is 18 miles southwest of Tallahassee. Burn-outs and hose lays are being utilized to direct fire into the wetter areas around Bradwell Bay Wilderness area. Control problems continue due to high temperatures, low humidities and intense fire behavior. Current threats are to wilderness values and pockets of commercial timber.

The Southern Area reported three new fires, totaling 314 acres on National Forest Lands in southern and eastern Texas. No additional information is available.

## OUTLOOK:

FIRE WEATHER WATCH FOR WINDY CONDITIONS ALONG THE ALASKA RANGE AND NEAR THE CARLA LAKE FIRE AREA. Alaska will be partly cloudy with a few thunderstorms in the Northeast. A chance of showers will exist elsewhere, with winds 15-30 mph. High temperatures will be in the 50's in the north and along the coast with 60's and 70's throughout the interior. The long range forecast indicates cloudy, cooler conditions for the eastern interior.

Arizona, New Mexico and Texas will be hot, dry and breezy. Winds will be from the southwest at 15-30 MPH. High temperatures will be in the upper 80's to 110, except for $70^{\prime}$ 's to mid $80^{\prime} \mathrm{s}$ in the mountains. The hottest temperatures will be experienced along the Rio Grande river.

The Great Lakes States will be mostly cloudy with scattered showers and thunderstorms. Winds will be from the Southeast at 10-20 mph. High temperatures will be in the 60's in the north. High's in the south will be in the mid $80^{\prime} \mathrm{s}$.

Florida will experience numerous showers and thunderstorms. High temperatures will be in the upper $80^{\prime} \mathrm{s}$ and mid 90's.
