# INCIDENT MANAGEMENT SITUATION REPORT 

WEDNESDAY, JULY 29, 1998-0530 MDT

NATIONAL PREPAREDNESS LEVEL II

## CURRENT SITUATION:

Heavy initial attack fire activity continued in the Northwest and Southern Areas. The Northern Rockies and California experienced increased initial attack activity while the rest of the nation reported moderate activity. The National Interagency Coordination Center processed orders for a caterer, shower, airtankers, helicopters, equipment, engines, crews, overhead and smokejumpers. Very high and extreme fire indices were reported in Georgia, Texas, Oklahoma, Michigan, Arizona, Nevada, Utah, Idaho, California and Washington.

## NORTHWEST LARGE FIRES:

OMAK LAKE COMPLEX, Coville Agency BIA. A Type II Incident Management Team (Solarz) is assigned. The fires in this complex are threatening structures, watershed and timber near Electric City. Several small fires and a few large fires make up this complex. Rural structures are interspersed within the perimeter.

HOLLYWOOD, Burns District, BLM. This wind driven fire is threatening major power transition lines, a wildhorse management area and some structures. Burn-out operations were in progress last night.

CLEVELAND, Washington State. This fire is located twenty miles northeast of Goldendale in Klickitat County. Very aggressive line construction and burn-out operations are being implemented. Water for the fire is in short supply. Structures have been destroyed, however number and type are unknown at this time.

EASTERN GREAT BASIN LARGE FIRE:

SAM, Cedar City District BLM. This fire is burning in pinyon-juniper, sagebrush, black brush, bitter brush and grass fifteen miles west of St. George. The fire started from a lighting storm late Monday afternoon and was pushed by strong gusty winds. Concern last night was for a radio tower complex. The fire made significant runs Monday night and yesterday morning. Crews are securing the line on the west flank.

## SOUTHERN AREA LARGE FIRES:

SRB\#1, Merritt Island NWR - Brevard County. This fire is burning near the Solid Rocket Booster facility a the Kennedy Space Center. A change in wind direction could endanger the facility and the smoke could pose a threat to visablity on the Parkway. Double dozer lines are being constructed.

## OUTLOOK:

The Western U.S. will be partly cloudy and hot. There will be scattered wet thunderstorms in the central and southern Rocky Mountains and interior Southwest. The Great Basin, Northwest and Northern Rockies will have isolated thunderstorm activity. High temperatures will be 75 to 85 west of the Cascades, 80 's to 95 in the mountains and from 95 to 115 in the valleys and deserts.

Texas will be mostly sunny and hot with a slight chance of thunderstorms in the extreme south. High temperatures will be in the 90's to 110 .

Oklahoma and Arkansas will be partly cloudy, hot and humid with scattered thunderstorms. High temperatures will range from the upper 80's to 110 .

Michigan will be mostly sunny and hot. High temperatures will be in the 70's to 80's.
NR = NOT REPORTED UNK = UNKNOWN
