INCIDENT MANAGEMENT SITUATION REPORT WEDNESDAY, OCTOBER 21, 1998 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Large fire activity continued in Southern California and the Southwest Areas. The National Interagency Coordination Center processed orders for a lead plane, helicopters, equipment, food and shower services and miscellaneous overhead. High to extreme fire indices were reported in California.

SOUTHERN CALIFORNIA LARGE FIRES:

OGILVY, Los Padres NF. A Type II Incident Management Team (McClain) is assigned. This fire is 13 miles northeast of Santa Barbara in the Dick Smith Wilderness. Favorable weather allowed crews to make good progress on line construction. Suppression efforts are being hampered as the fire moves north into increasingly steep, remote terrain.

PIRU, Ventura County, California. A Type II Incident Management Team (Festerling) is assigned. This fire is burning in heavy brush west of Castaic near Lake Piru. Steep terrain and strong winds contributed to rapid rates of spread. The California Condor Sanctuary is 5 miles to the north. Extensive backfiring operations last night attempted to tie into the 1997 Hopper fire. The city of Fillmore has declared a local disaster due to watershed damage and potential downstream flooding this winter. Three California National Guard helicopters were assigned yesterday.

ROUGH, Sierra N.F. A Type II Incident Management Team (Sherwood) is assigned. This fire is 18 miles east of Pine Flat Dam, which is east of Fresno. The fire started in the river bottom and is headed to the top of the canyon. It is in a very remote location with limited access.

AEU = Amador-El Dorado Ranger Unit, California Department of Forestry

SOUTHWEST AREA LARGE FIRES:

BS, Gila NF. A Type I Incident Management Team (Bateman) is assigned. This fire is 18 miles south of Reserve. Acreage increase is due to global positioning system mapping. The fire received light precipitation and high relative humidity, prompting significant demobilization of resources. The Type I Incident Management Team will transition the control of the

OUTLOOK:

A RED FLAG WARNING IS POSTED IN NORTHERN CALIFORNIA FOR THE LASSEN, PLUMAS AND BUTTE FRONT COUNTRY FOR GUSTY NORTHEAST WINDS AND LOW RELATIVE HUMIDITY.

Strong high pressure remains over the Pacific Northwest and northern Great Basin continuing to bring warm and dry weather to Washington, Oregon and Idaho with gusty east winds over the Oregon Cascades and coastal range. An upper level low will be over southern California and western Arizona bringing partly cloudy skies to southern and central California and Nevada. Northern California will have gusty east to northeast winds and low humidities. Moisture will continue to move northward from Mexico into the Southwest Area. New Mexico will have mostly cloudy skies with scattered showers and high mountain snow possible. Arizona will be partly cloudy and cooler with a chance of showers and thunderstorms. High temperatures will range from the 40's and 50's in the Rockies, 60's and 70's in the Pacific Northwest and Great Basin to the 70's and 80's in the Southwest, California and southern Nevada.

Texas and the Oklahoma panhandle will be cloudy with scattered rain with decreasing clouds late in the day. High temperatures will be in the upper 50's and 60's.
