INCIDENT MANAGEMENT SITUATION REPORT TUESDAY, JUNE 1, 1999 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Moderate initial attack fire activity was reported in the Southwest and Southern California Areas with minor activity reported elsewhere. Large fire activity continued in the Great Basin, Southwest, Southern and Eastern Areas. Mobilization of resources through the National Interagency Coordination Center included small cargo transport, type 1 crews, radio equipment and miscellaneous overhead. The NIFC large transport jet begins it's contract today. No very high or extreme fire indices were reported nationally.

SOUTHERN AREA LARGE FIRES:

FRIENDLY, Osceola National Forest. A Type I Incident Management Team (Melton) is assigned. Containment lines have been established around the area of the fire south of Florida Highway 2. Highway 2 and Highway 94 remain closed due to heavy smoke and safety concerns. Burnout operations to improve and secure lines are continuing. The fire is seven to 8 miles from the communities of Benton, FL and Council, GA.

| FRIENDLY | FL FNF 53,000 | 20 6 | 5/15 387 | 3 34 | 11 0 | NR 2.7M |

WESTERN GREAT BASIN LARGE FIRES:

BLUE GARDEN, Ely Field Office, BLM. A Type II Incident Management Team (Vorce) is assigned. This fire is burning in black brush, pinyon and juniper on the edge of the Clover Mountains Wilderness Study Area, 35 miles south of Caliente, NV. The fire spread actively upslope, torching and crowning in the pinyon and juniper. Progress was made along a good portion of the southern most fireline.

RAINBOW RANCH, Ely Field Office, BLM. Good progress was reported on the fire. Crews concentrated on cold trailing, hot-spotting and constructing line on the south end with helicopter support.

OUTLOOK:

Arizona will be mostly sunny becoming partly cloudy with locally windy conditions in the afternoon. Winds will be south to southwest at 15-25 MPH, gusting to 30 MPH. High temperatures will be in the 80's and 90's except 60's in the mountains and 100-105 in the southern deserts.

New Mexico will be partly cloudy with southwest to west winds at 10-20 MPH in the afternoon. High temperatures will be in the upper 60's to near 80 in the mountains, while the lowland central and southern part of the state will see highs in the mid 80's to the mid 90's.

West Texas will be partly cloudy with southwest to northwest winds at 10-20 MPH. High temperatures will be in the upper 80's to 90's with the Rio Grande region reaching 108.

Nevada will see increasing high clouds in the north and central portions of the state. The north will have isolated afternoon showers and thunderstorms. The south will be partly cloudy. High temperatures will be in the mid 60's to 70's in the mountains, 90's to 105 in the south and mid 70's to lower 80's elsewhere. Winds will be south to southwest at 15-30 MPH with local gusts to 35 MPH.

California will be partly cloudy in the morning with fog along the coast. Clouds will increase in the afternoon bringing a slight chance of afternoon showers or thunderstorms. Central California will be sunny, except in the Sierras where it will become partly cloudy in the afternoon with a slight chance of showers and thunderstorms. Winds will be southwest to northwest, at 5-15 MPH. High temperatures will be in the mid 50's through the high 60's on the coast, 60's to mid 70's in the mountains and coastal valleys, and the upper 70's through the 80's in the inland valleys. The Mojave desert temperatures will be 95 to 100.

Florida will be partly cloudy with scattered afternoon thunderstorms in the Keys, along the west coast and in the interior of the state. Winds will be east to southeast at 10-15 MPH. High temperatures will be in the high 80's to 90.

Minnesota will be mostly cloudy with a chance of rain showers. Winds will be northeast to southeast at 10-20 MPH. High temperatures will be in the 60's in most of the state, except for the Lake Superior area which will experience highs in the lower 50's.
