

INCIDENT MANAGEMENT SITUATION REPORT  
 THURSDAY, JUNE 24, 1999 - 0530 MDT  
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Moderate initial attack activity and large fire activity continued in California, the Southwest and the Eastern Great Basin Areas. The National Interagency Coordination Center mobilized radio equipment, two air tankers, one lead plane, one type I helicopter, a caterer, and miscellaneous overhead to large fires in California and the Southwest. The NIFC jet will demobilize two Type I crews and 40 smokejumpers from Alaska today. Very high to extreme fire indices were reported in California, Arizona, Nevada, Utah, and Idaho.

SOUTHWEST AREA LARGE FIRES:

EL TIGRE, Coronado National Forest. This fire is burning in brush and timber in the Chiricahua Mountains in southeast Arizona. High fuel loading is contributing to control problems.

BOX CANYON, Saguaro National Monument. A Fire Use Management Team (Johnson) is assigned. This lightning ignited wildland fire is being managed to accomplish resource objectives. This fire is 10 miles east of Tucson, AZ. The fire is being contained on the south and west along the maximum manageable area boundary.

REAMER, Prescott National Forest. This fire is burning in grasslands 20 miles southeast of Prescott, AZ. The fire spread was to the northeast yesterday. The fire has been placed in a confine status. This will be the last report unless significant activity occurs.

TURKEY, Coconino National Forest. This is a confine fire 45 miles southeast of Flagstaff, AZ. Rock bluffs are holding the fire as it spreads to the east. This will be the last report unless significant activity occurs.

EASTERN GREAT BASIN LARGE FIRE:

PONY ROAD, Salt Lake Field Office, BLM. This fire is burning in grass and brush 60 miles southwest of Salt Lake City. This fire started on the Dugway Proving Grounds and burned onto the BLM lands. Winds are causing control problems on the south flank. No suppression action is being taken on the military lands due to unexploded munitions.
