

INCIDENT MANAGEMENT SITUATION REPORT
 FRIDAY, AUGUST 20, 1999 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Moderate initial attack activity was reported the Southern Area and the western states. New large fires were reported in the Southern, Northwest and Western Great Basin Areas. Good progress was achieved on a large fire in the Western Great Basin and Northern California. The National Interagency Coordination Center mobilized shower units, caterers, engines, telecommunications equipment, helicopters, airtankers, a lead plane, air attack, crews and miscellaneous overhead. Very high to extreme fire indices were reported in Oregon, California, Idaho, Utah, Nevada, South Dakota, Wyoming and Texas.

EASTERN GREAT BASIN LARGE FIRES:

LIME HILLS, Arizona Strip Field Office, BLM. This fire is fifteen miles southwest of St. George, UT. The fire burned actively in all fuel types during the evening hours. A State of Arizona public safety radio site was burned over last night, but continued to operate normally.

MEADOW CREEK, Lower Snake River District, BLM. This fire is 35 miles south of Nampa, ID. The fire is in a limited suppression area, but is being suppressed because of threats to cattle and structures in the area. No other information was reported.

SINKS, South Central Utah State. This fire is two miles south of Lynndyl, UT. Extreme fire behavior with multiple wind changes was observed. Control problems include difficult terrain.

SID = Upper Snake River District, South-Central Idaho Area, BLM.
 SLD = Salt Lake Field Office, BLM

WESTERN GREAT BASIN LARGE FIRES:

DIDO COMPLEX, Winnemucca Field Office, BLM. A Type II Incident Management Team (Burdick) will assume command this morning. This fire is six miles northwest of Jiggs, NV. Torching and active runs, along with 20-40 foot flame lengths were observed. A burnout operation to protect private land and the Lucky Nugget subdivision was conducted last night.

MITCHELL CREEK, Nevada Division of Forestry, Northern Region. This fire is 60 miles south of Elko, NV. and is burning in grass and pinyon pine fuels. Active fire behavior was observed late into the night. Crews were able to hold the line, despite one 70 acre slopover. Current threats are to livestock and forage in the area.

MOSES COMPLEX, Battle Mountain Field Office, BLM. A Type II Incident Management Team (Hefner) is assigned. This complex is 50 miles southwest of Battle Mountain. The complex consists of Moses, Blitz and three other fires. The complex is burning actively in sage and juniper fuels.

WELCHES CREEK, Northern Region, Nevada Division of Forestry. This wind driven fire is twenty miles north of Carlin, NV, burning in grass and sage. Current threats are to wildlife habitat and grazing lands.

WID = Winnemucca Field Office, BLM.

SOUTHERN CALIFORNIA LARGE FIRES:

LECONTE, Yosemite National Park. This lightning ignited wildland fire is being managed to accomplish resource objectives. This fire is burning on the north shore of Hetch Hetchy Reservoir. The fire is burning in manzanita and forest litter and is being monitored by aerial observation.

CARMOKE, Stanislaus National Forest. A Fire Use Management Team (Zimmerman) is assigned. This lightning ignited wildland fire is being managed to accomplish resource objectives. The fires are in the Mokelumne and Carson- Iceberg Wilderness Area. The fires include: Deer (212 acres), Hiram (50 acres) and Douglas (.25 acres). Increased fire activity has been observed with short term spotting and minor torching.

LMU = Lassen-Modoc Ranger Unit, California Department of Forestry

OUTLOOK:

High pressure over the central part of the United States will bring a south to southwest flow to the west. Monsoon moisture will move over Arizona, New Mexico, Utah, Colorado, Wyoming and eastern Montana bring mainly wet thunderstorms. The rest of the west will remain dry, with increasing high clouds along the Oregon and Washington coast.

High temperatures will be generally in the 70's and 80's in the mountains, mid 80's through the 90's inland with 60's, 70's along the coast. 100 to 108 degrees are expected for the desert locations.

A weak area of low pressure will move over Virginia bring rain with a chance of thunderstorms. High temperatures will range from the mid 70's to the lower 80's.
