INCIDENT MANAGEMENT SITUATION REPORT WEDNESDAY SEPTEMBER 1, 1999 - 0530 MDT NATIONAL PREPAREDNESS LEVEL IV

CURRENT SITUATION:

Initial attack activity was moderate in the Southern Area and minimal in most other areas. New large fire activity was reported in the Eastern Great Basin, Northern Rockies and Southern Areas. Large fire activity continued in the Northern California, Southern California, Eastern Great Basin and Southern Areas. Competition exists for Type I crews. The National Interagency Coordination Center mobilized airtankers, helicopters, infrared aircraft, telecommunications equipment, commissary, engines, caterer, shower unit, smokejumpers, crews, and miscellaneous overhead. Very high to extreme fire indices were reported in Oregon, Washington, California, Montana, Idaho, Utah, Nevada, Nebraska, South Dakota, Wyoming, Kentucky, Mississippi and Tennessee.

SOUTHERN CALIFORNIA LARGE FIRES:

WILLOW, San Bernardino National Forest. A Type I Incident Management Team (Stutler) is assigned. This fire is located near Willow Creek, northeast of Lake Arrowhead, CA. The fire has jumped State Highway 173 and is now threatening the communities of Apple valley, Lucerne Valley, Lake Arrowhead and Big Bear. Rare and endangered species are threatened. Firefighters performed a backfire operation North of Lake Arrowhead. Extreme winds and steep terrain are causing control problems. The fire has destroyed 30 structures.

MIXING, San Bernardino National Forest. A Type II Incident Management Team (Conrad) is assigned. This fire is located on State Highway 243 near Mountain Center, CA. Herkey Creek Campground has been evacuated. Mt. Baldy Trailer Park is under a voluntary evacuation. State Highway 74 between Mountain Center and Lake Hemet is open to residents by escort only.

BRIDGE, Angeles National Forest. A Type I Incident Management Team (Carvelho) is assigned. This fire is located on Highway 39 north of the city of Azusa, CA. The fire is burning in pine, oak, and brush in rugged terrain. Three recreational cabins have been lost. The fire is heading toward the town of Pine Mountain. State Highway 39 is closed. Crystal Lake, Falling Springs, Coldbrook and Deer Flat recreational areas have been evacuated.

NORTHERN CALIFORNIA LARGE FIRES

MHRD COMPLEX, Plumas National Forest. A Type I Incident Management Team (Giachino) is assigned. The complex consists of nine fires of which four are contained. Current threats are to structures in the State Highway 70 corridor.

FRRD COMPLEX, Plumas National Forest. A Type I Incident Management Team (Hutchinson) is assigned. This complex consists of six lightning fires north and west of Lake Oroville. Crews have begun constructing fireline on the Stag Point fire. Demobilization of some resources has begun.

HIGH COMPLEX, Shasta-Trinity National Forest. A Type I Incident Management Team (Foster) is assigned. Unified Command with California Department of Forestry (Young) is in effect. This complex consists of 19 lightning fires 22 miles north of Redding. Burnout operations continues near structures.

BIG BAR COMPLEX, Shasta-Trinity National Forest. A Type II Incident Management Team (Bacon) is assigned. This complex is 28 miles northwest of Weaverville. The complex consists of five lightning fires, the Onion (3,020 acres), Fawn (1,920 acres), Soldier/Megram (295 acres) and Dee's (1 acre). Crews are constructing fireline along the north and south flanks of the Fawn fire.

EASTERN GREAT BASIN FIRES:

PARKER, Salt Lake Field Office, BLM. This fire is located southwest of Dugway Proving Grounds. The fire started on Dugway Proving Grounds and spread to public lands. Strong winds and dry fuels are causing control problems.

EAST SLICK, Lower Snake River District, BLM. A Type II Incident Management Team (Vorce) is assigned. This fire is five miles south of Glenns Ferry, ID. The fire was started by a downed power line. The fire growth is a result of strong winds associated with a cold front. A potato cellar was destroyed.

NORTHERN ROCKIES LARGE FIRES

ASH CREEK, Crow Agency, BIA. This fire is located near Wyola, MT. No new information was received.

ANACONDA, Glacier National Park, NPS. This fire is located near West Glacier, MT. This lightning ignited wildland fire is being managed to accomplish resource objectives. This will be the last report unless significant activity occurs.

BRINEY, Southern Land Office, Montana State. This fire is located near the town of Briney, MT. Concerns include predicted winds of 50 MPH.

WESSEL, Southern Land Office, Montana State. This fire is burning in timber and grass. High winds are a concern.

OUTLOOK:

*** A FIRE WEATHER WATCH IS POSTED FOR SOUTHERN NEVADA FOR STRONG WINDS AND LOW RELATIVE HUMIDITY. ***

An upper level trough will dominate the northern tier states with cool temperatures in the 60's and 70's. Partly cloudy skies are expected with mostly dry conditions. There will be a chance of showers and wet thunderstorms over Montana and Wyoming. West to southwest winds of 15 to 25 MPH will blow east of the Rockies over Montana and Wyoming. A surface low pressure will form over Wyoming, Utah and into southeastern Nevada. A cold front will lie along this axis. South to southwest winds of 15 to 30 MPH will blow ahead of this front over southern Utah, southern Nevada and northwest Arizona.

The monsoonal axis will bring scattered wet thunderstorms to central and eastern Arizona, New Mexico and into Colorado. A few isolated thunderstorms are expected over southeast Utah with a chance of thunderstorms over the mountains of southern California. Northern California will lie in the cool air mass of the trough with partly cloudy skies and a slight chance of showers.

Southern and central California will lay south of the front with partly cloudy skies, a chance of showers and thunderstorms over the Sierra Nevada. There will be breezy southwest winds of 15 to 25 mph in the afternoon. Lowest relative humidity readings will occur over southern Nevada valleys with minimums of 8 to 13 percent. Surrounding this, will be an area with relative humidity minimums of 15 to 25 percent over southern Utah, northwest Arizona, southern California and central Nevada.

Texas, Oklahoma and Arkansas will be partly cloudy, with a slight chance of wet thunderstorms over Texas. Thunderstorms will be widely scattered over southern Arkansas. Temperatures will be in the 90's with a few 100 degree readings in south Texas. South winds of 15 to 20 MPH will blow over northeast Texas and Oklahoma.
