

INCIDENT MANAGEMENT SITUATION REPORT
 FRIDAY, SEPTEMBER 17, 1999 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

Initial attack activity increased in the Southern Area and was minimal elsewhere. New large fire activity was reported in the Northern Rockies, Southwest and Southern Areas. Large fire activity continued in California and Northwest Areas. The National Interagency Coordination Center mobilized helicopters, infrared aircraft, airtanker, lead plane, telecommunications equipment, a shower unit, engines, crews, and miscellaneous overhead. Very high to extreme fire indices were reported in Oregon, Washington, California, Idaho, Montana, Utah, Nevada, South Dakota, Wyoming, Illinois, Indiana, Alabama, Georgia, Kentucky, Mississippi, Tennessee, and Texas.

NORTHERN CALIFORNIA LARGE FIRES:

BIG BAR COMPLEX, Shasta-Trinity National Forest. A Type I Incident Management Team (Dubois) is assigned. The complex is 28 miles northwest of Weaverville, CA. The complex consists of the Fawn, Soldier, Megram, and Onion fires. The Fawn fire continues to burn downslope in a southerly direction. The primary fireline to the west on Quinby Creek is holding the fire. Fire spread on the northwest perimeter continues to spread west of Jeep Ridge, while remaining south of Soldier Creek. The Megram fire has burned to the south into the Fawn fire and has crossed Virgin Creek to the west. The fire is also burning on the north and east flanks, with some spots located by infrared to the east, ahead of the main fire.

STEIN, Klamath National Forest. This fire is in the Marble Mountain Wilderness Area, twelve miles northeast of Forks of the Salmon, CA. The fire is now in a monitor and patrol status. All resources have been pulled off of the fireline. This will be the last report unless significant activity occurs.

BIG BAR COMPLEX	CA	SHF	38557	55	UNK	920	28	38	9	0	NR	13.7M
STEIN	CA	KNF	876	95	UNK	6	0	0	1	0	NR	2.2M

SOUTHERN CALIFORNIA LARGE FIRES:

KIRK COMPLEX, Los Padres National Forest. A Type I Incident Management Team (Greenhoe) is assigned to the Kirk Complex North, which includes the Tassajara, Five, and Mountain fires. A Type II Incident Management Team (Smith) is assigned to the Kirk Complex South, which includes the Hare and Kirk fires. This complex is in the Ventana Wilderness, approximately twenty miles southeast of Carmel, CA. The Mountain, Five and Tassajara fires both burned actively last night. Indirect fireline construction

continues in anticipation of a large burnout projected to begin later this week. The precautionary evacuation of Tassajara Hot Springs continues. The Hare fire experienced moderate to significant runs during the night. Indirect fireline has been completed on the East and West flanks of the fire and is nearly complete on the North Flank along Come Peak Road and Trail. Burnout operations are currently underway in the most critical portion of the fire.

SOUTHERN AREA LARGE INCIDENTS:

HURRICANE FLOYD. A Type I Incident Management Team (Melton) has set up a receiving and distribution center at Shaw Air Force Base. A Type II Incident Management Team (Ferguson) has set up a receiving and distribution center at Dobbins Air Force Base near Atlanta. No other information was reported.

BEAVER CREEK, Texas State. This fire is near Lampasa, TX. Two structures are threatened.

OUTLOOK:

*** A RED FLAG WARNING IS POSTED FOR NORTHERN ALABAMA FOR DRY CONDITIONS, LOW RELATIVE HUMIDITY AND GUSTY WINDS. ***

*** A FIRE WEATHER WATCH IS POSTED FOR THE FLORIDA PANHANDLE THIS AFTERNOON FOR LOW RELATIVE HUMIDITY. ***

*** A FIRE WEATHER WATCH IS POSTED FOR EASTERN MONTANA AND WESTERN NORTH DAKOTA FOR GUSTY WINDS. ***

High pressure aloft continues over the western states with a thermal low pressure at the surface across California. Monsoon moisture circulating around the Four Corners area will bring scattered afternoon and evening showers and thunderstorms to southern Utah, western and southern Colorado, Arizona and New Mexico, with isolated thunderstorms across Nevada, northern Utah and southern California.

Temperatures will remain warm. Relative humidities will fall below 20 percent in parts of western Arizona, western Colorado, eastern Oregon, and Montana.

Texas will have scattered showers and thunderstorms in the panhandle. High temperatures will continue in the 90's. Relative humidities will fall below 20 percent at some central and inland south locations.

Alabama will maintain warm, dry conditions with high temperatures in the 80's and 90's. Minimum relative humidity will be 25 to 30 percent.

Indiana will be cool. High temperatures will be in the 70's, with minimum relative humidity in the 25 to 30 percent.

Western Florida will continue to be warm with high temperatures in the upper 80's. Minimum relative humidity will be 20 to 30 percent.
