INCIDENT MANAGEMENT SITUATION REPORT MONDAY, NOVEMBER 1, 1999 - 0530 MST NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Initial attack activity was minimal in most Geographic Areas. Very high to extreme fire indices were reported in California and Colorado.

NORTHERN CALIFORNIA LARGE FIRES:

BIG BAR COMPLEX, Shasta-Trinity National Forest. An Area Command Team (Edrington) is assigned. A Unified Command with two Type I Incident Management Teams (Hutchinson and Stutler) and the Hoopa Tribe is assigned. The complex is 28 miles northwest of Weaverville, CA and consists of the Megram and Onion fires. Fire suppression and coordination with the Burned Area Emergency Rehabilitation Team (BAER) continues. Equipment previously left on the fireline is being retrieved and refurbished. Containment was expected last night.

INCIDENT		 SIZE %								
NAME		CTN	CTN	PERS				LOSS	LOSS	C-T-D
BIG BAR COMPLEX	CA SHF	138960 95	10/31	1082 	23	31	6	0	7.6М	69.1M

SOUTHERN CALIFORNIA LARGE FIRES:

KIRK COMPLEX, Los Padres National Forest. A Type II Incident Management Team (Roach) is assigned. This complex includes the Hare, Kirk, Tassajara, Five, and Mountain fires. The Incident Management Team will transfer command of the fire to the forest today. Due to the inaccessibility and extremely steep terrain, construction of fireline is not feasible and will not be accomplished. Containment will remain at 95 percent until the complex receives a substantial amount of rain. This will be the last report unless significant activity occurs.

INCIDENT NAME	ST UNIT 	SIZE % CTN	EST CTN	TOTAL	CRW	ENG	 HELI 	STRC LOSS	EST LOSS	\$\$\$ C-T-D
KIRK COMPLEX	CA LPF	86700 95 	UNK	233	6	 2		0	3.0M	72.2M

ROCKY MOUNTAIN LARGE FIRES:

CLARK ALLEN, Casper Dispatch Center Area Counties. This fire is located 13 miles north of Wright, WY. Strong winds and low relative humidities have contributed to the fire growth. Firing operations have been successful in protecting structures near the fire.

INCIDENT NAME	ST UNIT 	SIZE % CTN		TOTAL PERS						\$\$\$ C-T-D
CLARK ALLEN	WY CPX	60000 UNK	11/1	90	0	21	0	0	0	NR

EASTERN AREA LARGE FIRES:

WAGNER LAKE, Huron-Manistee National Forest. This fire seven miles south of Mio, MI and is burning in Jack Pine. No new information was received.

CAMP ATTERBURY/CORDRY LAKE, Indiana State Forestry. This fire is at Camp Atterbury, IN. and is burning in an old field and hardwoods. No new information was received.

INCIDENT NAME	ST UNIT 			TOTAL						
CHANNING	TX TXS	15200	100	 2	0	0	0	0	NR	NR

TXS = Texas State Forestry

OUTLOOK:

A high pressure ridge aloft over the western states will keep the area generally dry. A surface thermal pressure trough over California will bring warm conditions to the state. There will be some mountain snow showers over Colorado in the afternoon. A surface high pressure over the eastern slopes of the Rocky Mountains will bring cool temperatures to Colorado. A moderate surface pressure gradient will bring windy conditions to the plains in Colorado and locally breezy conditions in Oregon and through the passes in California.

High temperatures in the mountains will be in the 30's in Colorado, to the 40's in Oregon, southern Idaho and northern Utah, and to the 50's and 60's over California and southern Nevada.

The valley high temperatures will range from the 40's over Colorado, with 50's in Oregon and southern Idaho, with 50's and 60's in northern Nevada

and Utah and 60's and 70's over northern California and southern Nevada with the mid 80's to mid 90's southern California.
