

INCIDENT MANAGEMENT SITUATION REPORT
 WEDNESDAY, NOVEMBER 24, 1999 - 0800 MST
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Moderate initial attack activity and new large fires were reported in the Southern Area. Containment objectives on large fires were met in the Southern Area and demobilization of resources continues.

SOUTHERN AREA LARGE FIRES:

EAST DISTRICT COMPLEX, Kentucky Division of Forestry. A Type I Incident Management Team (Humphrey) is assigned and is operating under Unified Command with Kentucky Division of Forestry (Dalton). The team is managing 17 wildfires and providing initial attack resources for six counties. Steep terrain, urban interface and limited radio communications are hampering containment objectives.

MARSH, West Texas Counties. This fire is seven miles northwest of Amarillo, Texas. Rough terrain, low humidities, and high winds are hindering containment.

CITICO, Cherokee National Forest. A Type II Incident Management Team (Kearney) is assigned. Good progress was made on fireline construction and burn out operations.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	EST LOSS	\$\$\$ C-T-D

STANTON COMPLEX	KY	DBF	2078	100	---	255	10	2	1	0	NR	199K
AVEY COMPLEX	NC	NCF	5273	100	---	207	7	0	0	0	NR	1.2M

DBF = Daniel Boone National Forest
 NCF = National Forests in North Carolina

OUTLOOK:

A slow-moving cold front will move through the central and east central United States over the Appalachian Mountains. Dry seasonal temperatures will follow the front and humidities are forecasted to be moderate.

Oklahoma and Missouri will be partly cloudy with high temperatures 45 to 55 degrees.

There will be scattered light showers across the eastern portions of Kentucky and Tennessee, and the western part of Virginia and North Carolina. It will be partly cloudy through the rest of the region. High

temperatures will range from 55 to 60 in western Kentucky and Tennessee, and 65 to 75 in Virginia and North Carolina.
