

INCIDENT MANAGEMENT SITUATION REPORT
 THURSDAY, JUNE 1, 2000 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

New large fires were reported in the Southern Area. Crews made good progress on several of the large fires in the Four Corners area. Initial attack activity was moderate in Florida and light throughout the rest of the country. The National Interagency Coordination Center mobilized helicopters, an air attack plane, infrared aircraft, a caterer, a commissary unit, radios, RAWS equipment, crews, and miscellaneous overhead. Very high to extreme fire indices were reported in New Mexico, Arizona, Utah, Colorado, California, Texas, Oklahoma, Kansas, and Minnesota.

SOUTHWEST AREA LARGE FIRES:

An Area Command Team (Harbour) is assigned to manage the large fires in northern Arizona.

VIVEASH, Santa Fe National Forest. A Type I Incident Management Team (Bateman) is assigned. This fire is burning in ponderosa pine and mixed conifer five miles northwest of Pecos, NM. The fire spread on the north and east perimeters and spotted into the head of Gallinas Canyon. Crews and dozers made significant progress on the south and west flanks of the fire. One barn and three ranch outbuildings have been confirmed destroyed.

PUMPKIN, Kaibab National Forest. A Type II Incident Management Team (Anderson) is assigned. The fire is 25 miles northwest of Flagstaff, AZ. The fire made a easterly run within the wilderness fanned by strong, shifting winds. Fire activity is also increasing around Kendrick Lookout and cabin. Burnout operations have successfully buffered private lands and structures from the fire. Crews are preparing for more firing operations.

CERRO GRANDE COMPLEX, Bandelier National Park. An Area Command Team (Edrington) and two Type II Incident Management Teams (Praytor and Carr) are assigned. The fire is near Los Alamos, NM. Fire activity increased with afternoon heating, but very little torching or spread is occurring. Isolated smokes still persist in some unburned islands within the fire perimeter. Construction of fireline and aggressive mop up continues between Santa Clara Canyon and Cerro Grande.

SOUTHERN AREA LARGE FIRES:

RETENTION POND, Florida State Division of Forestry. The fire is burning in swampland in Orange County, FL. The current threat is that a shift in wind direction could push the fire toward a subdivision.

BASS HIGHWAY, Florida State Division of Forestry. The fire is in Osceola county, south of Orlando. Voluntary evacuation of three subdivisions occurred yesterday, but residents have now returned home. The fire was caused by a vehicle.

TOWER, Everglades National Park. This fire is in Dade County, FL. Favorable winds assisted crews in completing a burnout operation. The fire received light rain. Containment was expected last night.

CARLTON RESERVE, Florida State Division of Forestry. The fire is ten miles northwest of Port Charlotte, FL. No new information was reported.

SWILLEY COMMAND, Florida State Division of Forestry. The fire is in Hillsborough County, east of Tampa, FL. No new information was reported.

HOLEYLAND, Florida State Division of Forestry. This fire is burning in grass and swampland at the Holeyland Wildlife Management Area, 40 miles northwest of Ft. Lauderdale, FL. No new information was reported.

GREEN SWAMP COMPLEX, Florida State Division of Forestry. This complex includes all the state fires in Citrus, Sumter, Hernando, Pasco, and Lake counties. Fires over 100 acres (with acreage in parenthesis) include: CHAIN LINK (2,507), GREEN SWAMP GROVE (550), USDA (131), DM (700), DW (100), CROOKED PINES (100), and SLOANS RIDGE (112). No new information was reported.

ROCKY MOUNTAIN AREA LARGE FIRES:

HALEY, Grand Mesa-Uncompahgre-Gunnison NF. The fire is 20 miles north of Nucla, CO on the Uncompahgre National Forest. The fire is burning in ponderosa pine, sage and oakbrush. Strong winds continue to push the fire to the northwest and northeast.

TAYLOR/YANKS, Craig District BLM. These two fires are now being managed together. The fires are burning in cheatgrass and pinyon-juniper six miles east of Rangely, CO. Crews are making good progress building fireline.

BOSQUE, Las Animas County. A Type II Incident Management Team (Hartman) is assigned. This fire is 24 miles west of Trinidad, CO. Observed fire behavior includes torching, small runs and backing. Significant progress has been made toward containment.

EASTERN GREAT BASIN LARGE FIRES:

SWEETWATER, Vernal Field Office, BLM. A Type II Incident Management Team (Shell) is assigned. The fire is located about 50 miles southeast of Vernal, UT. Strong winds and low relative humidities caused major fire activity. One spot fire has crossed Bitter Creek. Limited access, heavy fuels and difficult terrain are challenging containment efforts.

FISHER, Moab Field Office, BLM. This fire is burning in brush and pinyon-juniper fuels 20 miles southeast of Moab, UT. Burnout operations yesterday were successful. This will be the last report unless significant activity occurs.

OUTLOOK:

*** A RED FLAG WARNING IS POSTED IN THE SACRAMENTO VALLEY OF NORTHERN CALIFORNIA FOR LOW RELATIVE HUMIDITIES AND STRONG WINDS ***

*** A FIRE WEATHER WATCH IS POSTED IN CENTRAL FLORIDA AND IN CENTRAL AND EASTERN SOUTH CAROLINA FOR LOW RELATIVE HUMIDITIES ***

Arizona, New Mexico, southern Utah, and southern Colorado will be partly cloudy and not as windy. Isolated afternoon thunderstorms will occur over the mountains in the Four Corners area. High temperatures will range from the 70's in the northern mountains up to 110 in the deserts. Winds will be southwest at 10 to 20 mph west of the Rockies, and east at 10 to 15 mph east of the Rockies. Minimum relative humidities will be from 5 to 15 percent in desert areas, and from 15 to 30 percent in higher elevations.

California will be sunny except for morning clouds and fog along the coast. Temperatures will be from the mid 60's in coastal areas up to 110 in the deserts. Winds in the Sacramento Valley will be north to east at 15 to 25 mph. Southern California will have southwest to west winds at 10 to 15 mph. Minimum relative humidities along the coast will be 40 to 50 percent. Inland, humidities will be from 10 to 25 percent.

Florida will be partly cloudy with a chance of showers and thunderstorms in the panhandle and in the extreme southern part of the state. High temperatures will range from the mid 80's to the mid 90's. Winds will be east at 5 to 10 mph. Minimum relative humidities will be 35 percent in Central Florida and up to 50 percent elsewhere.

Central and eastern South Carolina will be sunny with high temperatures of 85 to 95. Minimum relative humidities will be 30 percent.
