

INCIDENT MANAGEMENT SITUATION REPORT
 SUNDAY, JUNE 4, 2000 - 0900 MDT
 NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

New large fires were reported in the Southwest and Western Great Basin Areas. Initial attack activity was moderate in the Southwest Area and light elsewhere. The National Interagency Coordination Center mobilized airtankers, an air attack aircraft, a lead plane, small transport aircraft, smokejumper aircraft, helicopters, infrared aircraft, a caterer, a shower unit, radio equipment, engines, and miscellaneous overhead. Very high to extreme fire indices were reported in Arizona, California, Colorado, Kansas, Maryland, New Mexico, Oklahoma, Texas and Utah.

SOUTHWEST AREA LARGE FIRES:

An Area Command Team (Harbour) is assigned to manage the large fires in northern Arizona.

VIVEASH, Santa Fe National Forest. A Type I Incident Management Team (Bateman) is assigned. This fire is burning in ponderosa pine and mixed conifer five miles northwest of Pecos, NM. Crews continued direct attack on the east perimeter of the fire. Demobilization of resources started yesterday.

PUMPKIN, Kaibab National Forest. A Type II Incident Management Team (Anderson) is assigned. The fire is 25 miles northwest of Flagstaff, AZ. A few areas within the fire showed activity with the warming temperatures. Crews continue to burn out along the fireline.

CERRO GRANDE COMPLEX, Bandelier National Park. An Area Command Team (Edrington) and two Type II Incident Management Teams (Praytor and Carr) are assigned. The fire is near Los Alamos, NM. Crews continue to mop-up, patrol containment lines, and assist with rehabilitation work. More than 400 volunteers from the community assisted in spreading straw, grass seeding and raking to reduce future flood damage.

SOUTHERN AREA LARGE FIRES:

BUNDY LAKE, Florida State Division of Forestry. The fire is burning in heavy fuels 15 miles northeast of Gainesville, FL. The fire acreage decrease is due to more accurate mapping. Voluntary evacuations did occur in a nearby subdivision. One vehicle and one outbuilding were destroyed by the fire. The fire is burning underground in a lake bed, which is causing containment problems.

GREEN SWAMP COMPLEX, Florida State Division of Forestry. This complex includes all the state fires in Citrus, Sumter, Hernando, Pasco, and Lake counties. Fires over 100 acres (with acreage in parenthesis) include: CHAIN LINK (2,507), GREEN SWAMP GROVE (550), USDA (131), DM (700), DW (100), CROOKED PINES (100), and SLOANS RIDGE (112). No new information was reported. This will be the last report unless new information is received.

MICROWAVE, Florida State Division of Forestry. This fire is in Osceola County, FL. No new information was reported. This will be the last report unless new information is received.

SUNSET, Florida State Division of Forestry. This fire is in Osceola County, FL. No new information was reported. This will be the last report unless new information is received.

RETENTION POND, Florida State Division of Forestry. The fire is burning in swampland near Orlando, FL. No new information was reported. This will be the last report unless new information is received.

BASS HIGHWAY, Florida State Division of Forestry. The fire is in Osceola County, southeast of Orlando, FL. No new information was reported. This will be the last report unless new information is received.

CARLTON RESERVE, Florida State Division of Forestry. The fire is ten miles northwest of Port Charlotte, FL. No new information was reported. This will be the last report unless new information is received.

SWILLEY COMMAND, Florida State Division of Forestry. The fire is in Hillsborough County, east of Tampa, FL. No new information was reported. This will be the last report unless new information is received.

OUTLOOK:

*** A FIRE WEATHER WATCH IS POSTED IN NORTHERN FLORIDA FOR LOW AFTERNOON HUMIDITIES ***

Florida will be partly cloudy with scattered afternoon showers and thunderstorms, more numerous to the south. High temperatures will be in the mid 80's to the mid 90's. Winds will be southwest to west at 5 to 10 mph. Minimum relative humidities will range from 30 to 45 percent in the north and 45 to 55 percent in the south.

Arizona and southern Utah will be mostly sunny. High temperatures will be 70 to 80 degrees in the mountains and 100 to 110 degrees in the deserts. Minimum afternoon relative humidities will range from 15 to 25 percent,

except in the desert which will range from 5 to 10 percent.

New Mexico and southern Colorado will be partly cloudy with widely scattered thunderstorms. High temperatures will range from the mid 70's to around 90 degrees. Winds will be west to southwest at 10 to 20 mph, except will be easterly on the east side of the Rockies. Minimum relative humidities will be 10 to 20 percent west of the Rockies and 35 to 45 percent to the east.

California will be sunny with high temperatures in the 70's along the coast, 70 to around 90 in the interior, and around 100 degrees in the southern interior valleys. Winds will be west at 5 to 15 mph. Minimum relative humidities will be 40 to 50 percent on the coast, 15 to 25 percent in the northern interior, and 5 to 15 percent in the interior deserts.
