

INCIDENT MANAGEMENT SITUATION REPORT
 THURSDAY, JUNE 22, 2000 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

One new large fire was reported in the Northwest Area. Containment efforts were successful on large fires in the Southwest, Northwest, Western Great Basin, and Southern Areas. Alaska is monitoring 21 unstaffed fires for 20,685 acres. Forecast dry lightning today in southern Colorado, Utah and Nevada may cause fire activity to increase. The National Interagency Coordination Center mobilized airtankers, radio equipment and miscellaneous overhead. Very high to extreme fire indices were reported in Arizona, New Mexico, Nevada, Utah, California, Colorado, Kansas, Florida, and Mississippi.

SOUTHWEST AREA LARGE FIRES:

An Area Command Team (Edrington) is assigned to manage the Cerro Grande and Viveash fires. A National Park Service All-Risk Management Team (Ziemann) is transitioning with Edrington's team today.

CERRO GRANDE, Bandelier National Park. Two Type II Incident Management Teams (Furlong and Ostman) are assigned. The fire is near Los Alamos, NM. Rehabilitation projects being implemented by crews include wattle installation, mulching, contour falling and debris removal from drainages.

VIVEASH, Santa Fe National Forest. A Type II Incident Management Team (Rios) is assigned. This fire is burning in ponderosa pine and mixed conifer five miles northwest of Pecos, NM. Crews continue to make progress on projects identified by the Burned Area Emergency Rehabilitation Team.

TAD = Taos Field Office, BLM

NORTHWEST AREA LARGE FIRES:

TOOTHACKER, Southeast Washington State. This fire is 15 miles southeast of Kennewick, WA. Containment difficulties include large unburned areas within the fire perimeter. Several structures are threatened.

OUTLOOK:

*** A FIRE WEATHER WATCH IS POSTED FOR SOUTHERN UTAH FOR WIDELY SCATTERED DRY LIGHTNING THIS AFTERNOON AND EVENING ***

Arizona and New Mexico will have scattered wet thunderstorms. Thunderstorm activity will spread northward into southern Nevada, southern Utah, and southern Colorado. Some dry lightning is expected on the northern fringe of this moisture. Temperatures will range from the 70's in the northern mountains up to 105 in desert areas. Winds will be south to southwest at 10 to 20 mph. Minimum relative humidities will be 8 to 18 percent.

Florida will be partly cloudy with scattered afternoon showers and thunderstorms. High temperatures will be from the mid 80's to the mid 90's. Winds will be southeast to southwest at 5 to 15 mph. Minimum relative humidities will be 45 to 55 percent.

California will be sunny, except there is a chance of thunderstorms in the mountains of southern California. High temperatures will range from near 70 along the coast to 110 in the deserts. Winds will be south to west at 10 to 20 mph. Minimum relative humidities will be 10 to 20 percent.
