

INCIDENT MANAGEMENT SITUATION REPORT  
TUESDAY, JUNE 27, 2000 - 0530 MDT  
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

New large fires were reported in the Southern California, Northern California and Western Great Basin Areas. Initial attack was moderate in California, Nevada, Alaska, and Florida, and minimal elsewhere. Containment goals were reached on large fires in the Northwest and Western Great Basin Areas. The National Interagency Coordination Center mobilized an airtanker, an air attack plane, engines, radio equipment, crews, and miscellaneous overhead. Very high to extreme fire indices were reported in Alaska, Oregon, Washington, California, Idaho, Nevada, Arizona, New Mexico, Colorado, Wyoming, Florida, and Mississippi.

ALASKA AREA LARGE FIRES:

CLEAR, Fairbanks Area, Alaska State Division of Forestry. A Type II Incident Management Team (McKnight) is assigned. This fire is burning in black spruce and mixed hardwoods 20 miles southwest of Nenana. High winds and low relative humidities are causing challenges to containment. Several structures are threatened and structure protection operations are underway.
