INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, AUGUST 1, 2000 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL V

## CURRENT SITUATION:

Three new large fires were reported in the Eastern Great Basin, Northern Rockies and Southwest Areas. Containment goals were reached on seven large fires. Initial attack activity was extremely heavy as dry lightning passed through western Montana, southern Utah, eastern Nevada and eastern Idaho. Dry lightning is forecast today in Wyoming, Nevada, Montana, Idaho and Utah, along with gusty winds throughout the Great Basin. As aircraft, equipment, crew and overhead resources are released, they are being reassigned to high priority incidents by the National Interagency Coordination Center. All 11 western states are reporting very high to extreme fire danger indices. The 3rd Battalion 16th Field Artillery from Ft. Hood, Texas, commanded by LTC Daryl Williams, will arrive in Boise today and will be transported to the Burgdorf Junction fire. A second battalion has been ordered from the Marines at Camp Pendleton, California. Their training will begin on Friday, August 4.

EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

HIGH POINT, Wasatch-Cache National Forest. A Type II Incident Management Team (Carr) is assigned. This fire is 1.5 miles east of Logan, UT. The southeast and east flanks of the fire have been active throughout the night, moving down into Logan Canyon. A temporary closure involving Highway 89 and the Logan Canyon Recreation Area is in effect. Aerial retardant drops are assisting crews in making significant progress with fireline construction.

EASTERN IDAHO COMPLEX, Upper Snake River District, Eastern Idaho Area, BLM. A Type I Incident Management Team (Humphrey) is assigned. This complex includes the following fires which have previously been reported separately: Coffee Point North, Flattop, Fisher Springs, Rattlesnake (ID), Moonshine, Gentile Valley, Putnam, Tin Cup, Supon and West Fork. All the fires are south of Pocatello, ID. The Moonshine fire made a major run on the southeast end. Torching and spotting have been observed on the Putnam fire.

OLDROYD COMPLEX, Fishlake National Forest. A Type I Incident Management Team (Hutchinson) is assigned. This complex includes the Oldroyd, Mona West, Broad, Mourning Dove and Yance fires near Richfield, UT. The Broad fire has been contained. The others continue to grow. Dry lightning and strong shifting winds have been observed. The community of Oak City is being threatened by the Mourning Dove fire, and a structure protection plan has been developed.

WASATCH COMPLEX, Wasatch-Cache National Forest. A Type I Incident Management Team (Dague) is assigned. This complex consists of the Oak

Hill, Iron Mine Lake, Cottonwood, East Vivian and Wallsburg fires. All are located southeast of Salt Lake City, UT. The combination of air tankers, helicopters and ground resources kept the fire away from residential areas. The fires are spotting in unpredictable patterns with numerous fingers and potential reburn areas. Downdrafts from passing thunder cells today will challenge suppression efforts.

BOULDER, Bridger-Teton National Forest. This fire is 15 miles east of Jackson, WY. It is burning in the Boulder Creek drainage, one half mile from the Gros Ventre Wilderness. Fuels are subalpine fir, lodgepole pine and douglas fir. Residences are two miles northeast, but are not threatened at this time.

CLEAR CREEK, Salmon-Challis National Forest. Two Type I Incident Management Teams (Hart and Bateman) are assigned. The fire is 12 miles west of Salmon, ID. All fuels are burning readily with some spotting. Threatened resources include the Blackbird Mine structures, residences, an inn, and wildlife habitat. Limited access due to terrain continues to cause problems.

BURGDORF JUNCTION, Payette National Forest. A Type I Incident Management Team (Vail) is assigned. The fire is 23 miles north of McCall, ID. Significant burning activity has occurred on the north and east flanks of the fire. The 3rd Battalion 16th Field Artillery will arrive on the fire today.

TWIN CREEK, Salmon-Challis National Forest. A Type I Incident Management Team (Stam) is assigned. This fire is 30 miles north of Salmon, ID near the Lost Trail Ski Area. The fire is exhibiting isolated torching and flare- ups. Remaining spot fires have been located and contained. Thunderstorms moving over the fire have resulted in numerous new starts. A lack of natural barriers, steep country, heavy fuel loading and unfavorable weather conditions are adding to containment problems.

JOHN ALLEN, Dixie National Forest. The fire is burning in ponderosa pine, fir and heavy ground fuels ten miles northwest of Escalante, UT. Cooler temperatures and increased cloud cover are helping crews to make good progress toward containment.

BISMARK, Northwest Utah State. This fire is burning in grass, sagebrush, pinyon pine and juniper 15 miles south of Fairfield, UT. Hot dry conditions are deterring containment efforts. Fireline on the north side have held, but the fire continues to advance toward Chiulos Canyon.

NORTHERN ROCKIES AREA LARGE FIRES:
Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

CANYON FERRY COMPLEX, Helena National Forest. A Type I Incident Management Team (Waterbury) and a Type II Incident Management Team (Hoff) are assigned. This complex, located 12 miles north of Helena, MT, consists of the Bucksnort Fire, which is contained, and the Cave Gulch Fire. Control lines southeast of York continue to hold, despite winds from passing thunderstorms. A repeater was destroyed during the fire's run through Magpie Creek drainage. Crews are constructing line east from Hedges Mountain.

CROOKED, Clearwater National Forest. A Type II Incident Management Team (Johnson) is assigned. The fire is burning in logging slash 50 miles southwest of Missoula, MT. The fire is being affected by an inversion. Threatened resources include wildlife habitat, private timber land, U. S. Forest Service plantations, historic trails and buildings near Lolo Pass.

COUGAR CREEK, Beaverhead-Deerlodge National Forest. A Type II Incident Management Team (Gauger) is assigned. The fire is 30 miles southwest of Philipsburg, MT. One residence has been evacuated as a precaution. The fire has advanced into the Fox Creek drainage. Livestock have also been moved out of allotments.

UPPER MONTURE COMPLEX, Lolo National Forest. A Type II Incident Management Team (Doman) will transition with a Type I Incident Management Team (Bennett) today. This complex is 34 miles northeast of Missoula. Crews are constructing indirect fireline in preparation for future burnout operations. The fire is burning actively through the night and is spotting $1 / 8$ mile ahead.

SPREAD RIDGE, Lolo National Forest. A Type II Incident Management Team (Specht) is assigned. A Type I Incident Management Team (Bennett) has been ordered to manage both this fire and the Upper Monture fire. This fire is 19 miles east of Seeley Lake, MT. In conjunction with the Upper Monture fire, crews have begun clearing indirect fireline. The fire continues to burn actively at night. Flame lengths of up to 300 feet have been observed.

FORT HOWES COMPLEX, Miles City Field Office, BLM. A Type I Incident Management Team (Frye) and a Type II Incident Management Team (Colla) are assigned. This complex consists of the Stag Butte fire, Taylor Butte fire and four others south of Ashland, MT. Additional fireline has been constructed and a burnout operation was successful. The fire has made no
major runs in the past 24 hours.
TOBIN, Miles City Field Office, BLM. A Type II Incident Management Team (Cowin) is assigned. This fire is 26 miles northwest of Broadus, MT. Crews and dozers are approaching containment.

STONEHOUSE, Beaverhead-Deerlodge National Forest. This fire is 31 miles from Dillon, MT. It was ignited by lightning on 7/29. Crews are building fireline and laying hose on the perimeter.

DAILY, Miles City Field Office, BLM. This fire is five miles northwest of Ashland, MT. Dozers have completed fireline around most of the fire. Mopup on the west side will be time consuming due to a high number of snags.

AVERAGE BAD DAY, Southern Land Office, Montana State Department of Natural Resources and Conservation. This fire is ten miles south of Roundup, MT. Two outbuildings, one garage and seven unoccupied trailers were destroyed. The fire is contained.

## ROCKY MOUNTAIN AREA LARGE FIRES:

DEAD HORSE, Casper District, BLM. A Type II Incident Management Team (Hartman) is assigned. This fire is burning in steep, rocky country 12 miles south of Casper, WY. Twenty homes are threatened and evacuations are in progress. The fire is spreading to the northeast.

MIDDLE ENOS, Worland District, BLM. A Type II Incident Management Team (Gardner) is assigned. This fire is burning in sagebrush, juniper and limber pine 15 miles south of Meeteetse, WY. The fire is running, torching and moving into timbered areas. Forecast high winds today will challenge containment efforts.

## SOUTHERN CALIFORNIA AREA LARGE FIRES:

MANTER, Sequoia National Forest. A Type I Incident Management Team (Studebaker) is assigned. This fire is 15 miles northeast of Kernville, CA. High clouds have brought a significant decrease in fire activity. Firing operations along Kennedy Meadows Road have been successfully completed. The southern perimeter is holding and minimal spotting has been reported. A radio repeater was reported to be heavily damaged by the fire.

EDISON, Sequoia National Forest. A Type II Incident Management Team (Tiede) is assigned. The fire is seven miles northeast of Springville, CA. Approximately 380 homes in the Camp Wishon, Moorehouse Springs and Camp Nelson areas are threatened. The east flank of the fire has the most potential to spread.

PECHANGA, Riverside Ranger Unit, California Department of Forestry. A Type I Incident Management Team (Heil) and a Type II Incident Management Team (Dietrich) are assigned. The fire is five miles east of Temecula, CA. It started on the Pechanga Indian Reservation and has burned into the Agua Tibia Wilderness of the Cleveland National Forest.

PLASKETT 2, Los Padres National Forest. A Type I Incident Management Team (Gage) is assigned. This fire is 25 miles north of Cambria, CA east of Highway 1. Crews are completing a burnout operation along the bottom of Willow Creek. Fuel transition and shifting winds are slowing the burnout process.

WESTERN GREAT BASIN AREA LARGE FIRES:
Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

SOUTH CRICKET, Elko Field Office, BLM. A Type II Incident Management Team (Burdick) is assigned. This fire is 15 miles northeast of Wells, NV. The
northeast section of the fire is active with some crowning and running. Crews are making good progress on line construction and mopup with the overall decrease in fire activity.

COYOTE, Ely Field Office, BLM. A Type II Incident Management Team (Kearney) is assigned. This fire is burning 40 miles northeast of Pioche, NV and continues to be very active in stands of pinyon pine and juniper, with torching and crowning as the slopes preheat. Thunderstorms in the area are causing gusty winds. Retardant drops are effectively protecting structures.

COTTONWOOD, Carson City Field Office, BLM. This fire is burning in pinyon pine and juniper 30 miles southeast of Lovelock, NV. Crews have completed a burnout operation and are reinforcing the fireline.

PHILLIPS RANCH, Humboldt-Toiyabe National Forest. This fire is burning in mixed conifer 50 miles southeast of Ely, NV. The interior of the fire continues to torch and crown. Crews are working to suppress hot spots in the bristlecone pine forest. Extremely difficult terrain is an impediment to containment efforts.

SOUTHWEST AREA LARGE FIRES:
PEAK, Tonto National Forest. A Type II Incident Management Team (Anderson) is assigned. The fire is six miles south of Globe, AZ in steep, inaccessible terrain. Electronic sites, summer homes, a lookout, a historical structure, recreational areas and endangered species habitat are threatened.

RIDGE, Fort Apache Agency. A Type II Incident Management Team (Leech) is assigned. This fire is four miles west of Carrizo, AZ. The fire received some precipitation, and fire activity has been minimal. The southeast corner of the fire is the most active.

HONEY WELL, Navajo Area Office, BIA. This fire is 25 miles northwest of Window Rock, AZ. Crews are making good progress toward containment. An alert for evacuations is still in place.

GOLF, Coconino National Forest. The fire is in a remote area 20 miles east of Camp Verde, AZ. It was ignited on $7 / 21$ by lightning. Fuels are ponderosa pine, pinyon pine and juniper. The fire is being monitored by USFS personnel.

WALL, Albuquerque Field Office, BLM. The fire is burning in a remote portion of the El Malpais Wilderness 20 miles southwest of Grants, NM and
is being monitored by BLM personnel.

## OUTLOOK:

*** A RED FLAG WARNING IS POSTED IN WESTERN WYOMING FOR HOT AND DRY CONDITIONS, DRY FUELS, DRY THUNDERSTORMS AND GUSTY WINDS ***
*** A RED FLAG WARNING IS POSTED IN EAST CENTRAL NEVADA FOR DRY LIGHTNING
AND GUSTY WINDS ***
*** A RED FLAG WARNING IS POSTED IN EASTERN WASHINGTON AND NORTHERN IDAHO FOR STRONG WINDS ***
*** A FIRE WEATHER WATCH IS POSTED IN EASTERN MONTANA FOR STRONG WINDS, LOW HUMIDITY AND DRY LIGHTNING ***
*** A FIRE WEATHER WATCH IS POSTED IN WESTERN MONTANA AND CENTRAL IDAHO FOR GUSTY WINDS AND LOW HUMIDITIES ***

```
*** A FIRE WEATHER WATCH IS POSTED IN EASTERN WYOMING FOR DRY
THUNDERSTORMS ***
```

*** A FIRE WEATHER WATCH IS POSTED IN SOUTHWEST IDAHO AND SOUTHEAST OREGON FOR GUSTY WINDS AND LOW HUMIDITIES. THERE IS A SLIGHT CHANCE FOR DRY THUNDERSTORMS IN THE WEST CENTRAL IDAHO MOUNTAINS ***
*** A FIRE WEATHER WATCH IS POSTED IN SOUTHEAST IDAHO FOR GUSTY WINDS, LOW HUMIDITIES, HIGH HAINES INDEX AND ISOLATED DRY LIGHTNING ***

```
*** A FIRE WEATHER WATCH IS POSTED IN NORTHERN UTAH FOR DRY LIGHTNING AND
```

## STRONG THUNDERSTORM WINDS ***

Hot and dry conditions will continue across northern portions of the western United States with a slight chance of dry thunderstorms east of the Cascade range and north of the Snake River Valley. Central portions of the western states will be hot and dry. In the southwest there will be a chance of showers and thunderstorms.

Temperatures will again reach the 90's to 105 across much of the west, with highs around 110 in the deserts of Arizona and Utah. Humidities will be in the single digits and teens. Winds will be from the southwest to northwest at 10 to 20 mph with gusts up to 50 mph near thunderstorms.

There is a slight chance of thunderstorms in the Sierra Nevada. Winds will be west with gusts up to 25 mph .
