INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY, AUGUST 5, 2000 - 0700 MDT
NATIONAL PREPAREDNESS LEVEL V

## CURRENT SITUATION:

New large fires were reported in the Northern Rockies, Eastern Great Basin, Western Great Basin, Rocky Mountain and Northwest Areas. Nevada, Utah, Montana, California, Wyoming and Colorado experienced initial attack activity from widely spread lightning storms. Most western Geographical Areas reported some containment of large fires and good progress was made on others. Numerous aircraft, equipment, crew and overhead resources are being mobilized by the National Interagency Coordination Center. All eleven western states are reporting very high to extreme fire danger indices. The 3rd Battalion 5th Marines had their first day of training and gear issue at Camp Pendleton, CA. The Battalion will be transported to Idaho Falls on five large military transport aircraft for assignment to the Clear Creek fire.

NORTHERN ROCKIES AREA LARGE FIRES:
An Area Command Team (Edrington) is assigned to manage the large fires on the Bitterroot National Forest. An Area Command Team (Meuchel) is assigned to manage the large fires on the Beaverhead-Deerlodge National Forest. Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

BLODGETT TRAILHEAD, Bitterroot National Forest. A Type II Incident Management Team (Corbin) is assigned. This fire is three miles northwest of Hamilton, MT. There was an inversion over the fire yesterday and fire activity picked up when the inversion lifted in the afternoon. Active fire behavior was observed along the northern perimeter.

VALLEY COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Frye) is assigned. This complex of fires is seven miles south of Darby, MT. All fires burned actively and helicopter support assisted in structure protection. Highway 93 is open to limited access with pilot cars.

SULA COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Stam) is assigned. The fires located near Sula, MT, are being managed with the Twin fire on the Salmon-Challis National Forest in Idaho. Evacuations of several drainages remain in effect. High winds and an inversion lifting caused the fire to burn actively and make a downhill run toward Highway 93.

WILDERNESS COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Cook) is assigned. The complex consists of 19 fires in the Selway-Bitterroot and Frank Church River of No Return Wildernesses, 40 miles southwest of Hamilton, MT. The largest fire is 1200 acres. Three of the fires burned into existing fires and two lookouts were evacuated as a precautionary measure.

CROOKED, Clearwater National Forest. A Type II Incident Management Team (Johnson) is assigned. No new information was received.

COUGAR CREEK, Beaverhead-Deerlodge National Forest. A Type II Incident Management Team (Gauger) is assigned. The fire is 30 miles southwest of Philipsburg, MT. Fire activity was quiet yesterday and observed fire behavior was creeping and smoldering.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Carvelho) is assigned. The complex consists of the Falls Creek ( 2600 acres) and Copper Creek ( 650 acres) fires, 30 miles southwest of Philipsburg, MT. Structure protection measures have been initiated on three threatened structures. Both fires are burning in very steep terrain and dry, heavy fuels. Thick smoke is limiting aviation support.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type II Incident Management Team (Specht) is assigned. The fire received light rain showers yesterday morning and afternoon, which helped to moderate fire behavior.

BOULDER HILL, Central Land Office, Montana Department of Natural Resources and Conservation. A Type II Incident Management Team (Ariss) is assigned. The fire is two miles north of Boulder, MT. Most of the Incident Management Team has arrived and some evacuations of Aspen Valley and Tizer Lake Roads continue.

HIGH ORE ROAD, Central Land Office, Montana Department of Natural Resources and Conservation. The fire is three miles northeast of Basin, MT. Dozer firelines are being constructed and $70 \%$ of the fire is lined.

JUDITH COMPLEX, Lewis and Clark National Forest. A Type II Incident Management Team (Hoff) is assigned. This complex consists of the Studhorse, Lost Fork and High Springs fires, which are 25 miles southwest of Stanford, MT. Some of the crews were moved off of the firelines due to thunder cell activity.

CANYON FERRY COMPLEX, Helena National Forest. A Type I Incident Management Team (Waterbury) is assigned. This complex, located 12 miles north of Helena, MT, consists of the Bucksnort and Cave Gulch fires. The Cave Gulch fire is nearing containment and good progress with fireline construction is being made.

MCDONALD II, Lewis and Clark National Forest. A Type II Incident Management Team (Doman) is assigned. The fire is 36 miles southwest of Choteau, MT. The fire is contained on the south side and protection of structures continues.

THREE BEARS, Nez Perce National Forest. This fire, 29 miles from Elk City, ID, is burning actively on both sides of the Salmon River. Threatened resources include backcountry ranch complexes. Poor visibility and low water are limiting aircraft and jet boat uses.

MONTURE/SPREAD RIDGE, Lolo National Forest. A Type I Incident Management Team (Bennett) is assigned. This fire is 19 miles east of Seeley Lake, MT. Existing roads and dozer fireline were used to establish some
indirect firelines south of Spread Creek. Higher humidities and cloud cover assisted firefighters.

PARKE PEAK, Glacier National Park. This fire was ignited by lightning on 7/23 in the northwest corner of the park. Bucket drops and light winds aided firefighters in suppression efforts. This will be the last report unless significant activity occurs.

HELL CREEK, Miles City Field Office, BLM. This fire is burning in heavy timber 20 miles northwest of Jordan, MT. Smoldering fire behavior was observed and mopup continues.

TAYLOR SPRINGS FIRES, Bitterroot National Forest. This group of eight fires are 26 miles southeast of Darby, MT. All fires were reported as burning actively.

## EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

OLDROYD COMPLEX, Fishlake National Forest. A Type I Incident Management Team (Hutchinson) and a Type II Incident Management Team (Shell) are assigned. This complex includes the Oldroyd, Mona West, Broad, Mourning Dove and Yance fires near Richfield, UT. Firefighters made good progress on all the fires in the complex. Cooler temperatures, higher humidity levels, and measurable rain have assisted the operation. Structure protection plans remain in place.

WASATCH COMPLEX, Wasatch-Cache National Forest. A Type I Incident

Management Team (Dague) is assigned. This complex consists of the Oak Hill, Iron Mine Lake, Cottonwood, East Vivian and Wallsburg fires. All are located southeast of Salt Lake City, UT. Thunderstorms in the area yesterday produced some scattered showers, causing higher humidity levels. Crews are making good progress checking the spread and knocking down spot fires on the Oak Hill fire. The East Vivian fire is contained. Highway 92 and the Timpanogos Monument remain closed.

BRUIN POINT, Moab Field Office, BLM. A Type II Incident Management Team (Suwyn) is assigned to this fire and the Range Creek fire. This fire is burning in timber between Price and East Carbon City, UT. The fire made a major run, burning an additional 500 acres. Current threats are to a communication site and a Remote Automated Weather Station.

CLEAR CREEK, Salmon-Challis National Forest. Two Type I Incident Management Teams (Hart and Bateman) are assigned. The fire is 12 miles west of Salmon, ID. The fire continues to back into the Trail Creek drainage. Fireline construction and contingency implementation is hampered due to heavy timber, steep terrain, and poor accessibility. Structure protection measures are in place for over 200 threatened homes, outbuildings, historic sites, and commercial ventures.

BURGDORF JUNCTION, Payette National Forest. A Type I Incident Management Team (Vail) is assigned. The fire is 23 miles north of McCall, ID. The 3rd Battalion 16th Field Artillery from Ft. Hood, Texas, commanded by LTC Daryl Williams, is assigned. Training of military resources continued yesterday. They will be given fireline assignments tomorrow. There was a major fire run to the northeast from the California Creek drainage yesterday. Firefighters made significant progress constructing handline along the eastern flank of the fire.

EASTERN IDAHO COMPLEX, Upper Snake River District, Eastern Idaho Area, BLM. A Type I Incident Management Team (Humphrey) is assigned. This complex includes the following fires: Coffee Point North, Flattop, Fisher Springs, Rattlesnake, Moonshine, Gentile Valley, Putnam, Tin Cup, Supon, Camus Creek, Sheep Station, Station Creek, Willow Creek and West Fork. The Putnam fire is controlled and the Willow Creek fire is contained. Mopup and rehabilitation of dozer lines is underway. Cooler temperatures and higher humidity levels helped firefighters make substantial gains toward containment of the Moonshine fire.

LOGAN COMPLEX, Wasatch-Cache National Forest. A Type II Incident Management Team (Carr) is assigned. This complex includes the High Point and the Millville 2 fires, both located near Logan, UT. The High Point fire is now contained and the Millville 2 fire is ninety percent contained. The decrease in acreage is due to more detailed mapping.

RANGE CREEK, Moab Field Office, BLM. A Type II Incident Management Team (Suwyn) is assigned to this fire and the Bruin Point fire. This fire is burning in timber between Price and East Carbon City. Threats are to a major watershed, local communities and commercial timber on state land.

BOULDER, Bridger-Teton National Forest. A Type II Incident Management Team (Zimmerman) is assigned. This fire is 15 miles east of Jackson, WY, in the Gros Ventre Wilderness. Crews continue to locate previously undetected spot fires south of the Jackpine housing complex.

MYLER CANYON, Northwest Utah State. This fire is one mile east of Clarkston, UT. A thunderstorm passed over the fire area late yesterday. It caused extreme fire behavior within the perimeter of the fire. Crews working on securing the control line are limited by a lack of water.

MCDONALD CREEK, Lower Snake River District, Eastern Idaho Area, BLM. This lightning caused fire is 3 miles north of Rowland, NV. The fire continues to grow on several fronts. The Lower Snake River District is coordinating suppression with the Humboldt National Forest. Portions of the fire are burning in rugged, inaccessible terrain.

FLOSSIE COMPLEX, Payette National Forest. This fire is 50 miles northeast of McCall, ID. Ranches, an airstrip and a guard station continue to be threatened. The fire exhibited extreme behavior yesterday due to passing thunderstorm cells. The fire is within one quarter mile of the airstrip and ranches.

BUTTS, Salmon/Challis National Forest. This fire is burning in the wilderness 34 miles northeast of Salmon, ID. There is structure protection in place at the Butts Point Lookout. The fire was torching within one mile of the lookout yesterday.

SALT LAKE DESERT COMPLEX, Salt Lake District, BLM. A Type I Incident Management Team (Hefner) is assigned. This complex, consisting of the Aragonite, Bismark and Box Canyon fires, is three miles north of Eureka, UT. Showers from Thursday night raised the humidity levels and helped to slow the fires.

FILLY, Salmon/Challis National Forest. This fire is burning in the Frank Church River of No Return Wilderness Area, 30 miles northwest of Salmon, ID. An afternoon reconnaissance revealed that the fire has not increased in size.

NEBO CREEK, Uinta National Forest. This fire is burning in sagebrush, pinyon pine and juniper near Birdseye, UT. No new information was reported. This will be the last report unless new information is received.

WESTERN GREAT BASIN AREA LARGE FIRES:
Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

O'NEIL BASIN COMPLEX, Elko Field Office, BLM. A Type II Incident Management Team (Murphy) is assigned. This complex consisting of the Camp Creek, Cold Springs, Wildcat, Sun, Mahogany, and Stag fires is 40 miles southeast of Jackpot, NV. The Cold Springs and Camp Creek fires burned actively in sagebrush. Current threats include threatened and endangered species, wildlife habitat, ranches, and cultural/historic sites.

NORTHEAST ELKO COUNTY ZONE, Elko Field Office, BLM. A Type II Incident Management Team (Burdick) is assigned. This complex consists of nine fires. The Charlie fire reported extreme fire activity and major runs to the north and northeast. TROUT, Humboldt/Toiyabe National Forest. This fire is burning in pinyon pine and juniper about 30 miles northwest of Las Vegas, NV. The community of Trout Canyon is threatened. Retardant drops by air tankers were very effective.

TWIN PEAK, Carson City Field Office, BLM. This lightning-ignited fire is burning in pinyon pine and juniper 60 miles east of Fallon, NV. The fire made significant runs, moving into the Stillwater mountain range. Fire behavior is plume dominated. Current threats are to critical sage grouse habitat, desert big horn sheep habitat, a riparian area, and the Clan Alpine Wilderness Study Area.

RABBIT, Elko Field Office, BLM. This fire is burning in pinyon pine, juniper and sage 43 miles southeast of Elko, NV. High winds in the area of the fire caused a blow-out on the northeast side.

CHERRY, Ely Field Office, BLM. This fire, 30 miles northwest of Ely, NV, was contained on $7 / 19$ but has spotted outside containment lines and has grown 500 acres. No new information was received.

PHILLIPS RANCH, Humboldt-Toiyabe National Forest. This fire is burning in mixed conifer 50 miles southeast of Ely, NV. No new information was reported. This will be the last report unless new information is received.

## SOUTHWEST AREA LARGE FIRES:

PEAK, Tonto National Forest. A Type II Incident Management Team (Anderson) is assigned. The fire is burning in dense chaparral and mixed conifer six miles south of Globe, AZ. Interior portions of the fire continue to burn actively and crews are continuing fireline construction. Telecommunications equipment and Federal Aviation Administration sites on Pinal Peak continue to be threatened.

WALL, Albuquerque Field Office, BLM. The fire is burning in a remote portion of the El Malpais Wilderness 20 miles southwest of Grants, NM.

GOLF, Coconino National Forest. This lightning-caused fire is 20 miles east of Camp Verde, AZ. There has been little activity on the fire for the last two days and no new information was received.

## SOUTHERN CALIFORNIA AREA LARGE FIRES:

PECHANGA, Riverside Ranger Unit, California Department of Forestry. Unified Command with a California Department of Forestry Type I Incident Management Team (Heil) and a U.S. Forest Service Type II Incident Management Team (Dietrich) is in effect. The fire is five miles east of Temecula, CA. Progress continued with firing operations and indirect fireline construction. Numerous structures are threatened in and nearby the Pechanga Indian Reservation.

KING, Kern County Fire Department. A Type I Incident Management Team (Kinsey) is assigned. The fire is two miles southeast of Havilah, CA. The fire burned actively yesterday.

NORTH FORK, San Benito-Monterey Ranger Unit, California Department of Forestry. The fire is two miles east of King City, CA. A California

Department of Forestry Type I Incident Management Team has been ordered. Control problems include steep terrain, high winds and low relative humidities.

GOLDEN 2, Bakersfield District, BLM. A Type II Incident Management Team (Terwilleger) is assigned. This fire is burning in sagebrush and timber two miles south of Coleville, CA. The fire received additional resources which assisted the suppression efforts.

MANTER, Sequoia National Forest. A Type I Incident Management Team (Studebaker) is assigned. This fire is 15 miles northeast of Kernville, CA. A successful firing operation was completed along the north side of the fire yesterday and fireline construction continued on the rest of the fire.

ARNOT 2, Stanislaus National Forest. This fire is 45 miles northeast of Sonora, CA. Most resources have been released as the fire received rain again.

CHANCE, Kern County Fire Department. The fire is 15 miles north of Tehachapi, CA. The fire is expected to be near containment today.

PEAK, Kern County Fire Department. This fire is 15 miles west of Tehachapi, CA and activity on the fire has slowed. Current threats are to grazing land, improvements and outbuildings.

| INCIDENT NAME | $\|\mathrm{ST}\|$ | UNIT | SIZE | $\left\lvert\, \begin{gathered} \% \\ \mid \text { CTN } \end{gathered}\right.$ | $\begin{aligned} & \text { EST } \\ & \text { CTN } \end{aligned}$ | $\begin{aligned} & \mid \text { TOTAL } \\ & \mid \text { PERS } \end{aligned}$ | \|CRW| | \|ENG | \| HEL | $\begin{aligned} & \mid \text { STRC \| } \\ & \mid \text { LOSS } \end{aligned}$ | $\mid \text { EST\| }$ | $\begin{gathered} \$ \$ \$ \\ \mathrm{C}-\mathrm{T}-\mathrm{D} \end{gathered}$ |

ROCKY MOUNTAIN AREA LARGE FIRES:
PONY, Ute Mountain Agency, BIA. A Type II Incident Management Team (Sisk) is assigned. This fire is burning in an isolated area 20 miles south of Cortez, CO. The fire made a significant run to the east and burned onto National Park Service lands. Mesa Verde Park employees were evacuated and the park was closed yesterday.

MIDDLE ENOS, Worland District, BLM. A Type II Incident Management Team (Barber) is assigned. This fire is burning in sagebrush, juniper and limber pine 15 miles south of Meeteetse, WY. Good progress has been made in most divisions. A thunderstorm cell moved over the fire. Crews had to move off the fire due to the associated lightning and rain.

BLACKHALL, Rawlins District, BLM. A Type II Incident Management Team (Hartman) is assigned. The fire was ignited by lightning on 8/2 near

Encampment, WY. The fire made another run yesterday and continues to threaten several nearby structures.

PONDEROSA, Casper Dispatch Center Counties. The fire is actively burning in timber 20 miles southeast of Gillette, WY. Firefighters made good progress on the fire.

## NORTHWEST AREA LARGE FIRES:

NEWBERRY 2, Deschutes National Forest. The fire is located six miles northeast of LaPine, OR. An Oregon Department of Forestry team (Thorpe) is managing the fire. Initial attack was successful but several campgrounds have been evacuated as a precaution. No report of any damage to any recreational facilities or structures in the area have been received.

SLIDE MOUNTAIN, Malheur National Forest. A Type II Incident Management Team (Jackson) is assigned. The fire is burning 10 miles south of Prairie City, OR. This lightning-caused fire is burning in the Strawberry Wilderness and air support helped keep the fire in check yesterday.

FLAT CREEK, Wenatchee National Forest. This lightning-caused fire is 18 miles northwest of Stehekin, WA. The fire is burning in very steep and inaccessible terrain in the Glacier Peak Wilderness. The fire is being monitored from a viewpoint and a historic structure is threatened.

KERN, Vale District, BLM. This fire is 25 miles south of Vale, OR. The fire was active due to strong winds and continuous fuels. The fire is threatening a power line.

TAMARACK CREEK, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Gilpin) is assigned. The fire is located 50 miles west of John Day, OR. The fire is burning in timber and grass and the cause is under investigation.

DIAMOND CRATERS, Burns District, BLM. This fire is burning seven miles northwest of Diamond, OR below the Malheur National Refuge.

OUTLOOK:
*** A FIRE WEATHER WATCH IS POSTED IN SOUTHWEST AND CENTRAL OREGON FOR DRY LIGHTNING AND GUSTY WINDS ***

Hot and dry conditions will continue across much of the western United States. Mainly dry thunderstorms will prevail in the afternoon and early evening hours throughout the Great Basin and Rocky Mountains. Coastal California will have low clouds and fog with cooler temperatures.

Temperatures will again reach the $90^{\prime}$ s in most areas, with highs of 100 to 110 in the lower elevations of Utah, Arizona, southern Nevada and southern California. Humidities will be in the single digits and teens, except higher along the coast.

Winds are expected to be 10 to 20 mph , with local gusts up to 30 mph in the desert areas of California, Nevada, Arizona, Utah and southern Idaho.
