INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, AUGUST 14, 2000 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL

## CURRENT SITUATION:

The Eastern Great Basin, Northern Rockies, Western Great Basin, Southern California, Rocky Mountain and Southern Areas reported a total of eleven new large fires. Initial attack activity was moderate in most areas, except in the Northern Rockies Area where more holdover fires were discovered. Crews reached containment goals on six large fires. The forecast is for continued dry weather with gusty winds in Wyoming and Montana, which will challenge containment efforts there. Very high to extreme fire indices have been reported in all 11 western states and in Texas, Oklahoma and North Dakota.

A Bell 412 helicopter crashed while conducting water drops on the Twin Peaks fire in Nevada. The pilot was fatally injured. There were no passengers on the flight. The entire fire community wishes to extend condolences to the family and friends of the pilot.

## NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Edrington) is assigned to manage the large fires in the Hamilton area. An Area Command Team (Mann) is assigned to manage the large fires in southwestern Montana. An Area Command Team (Meuchel) is assigned to manage the large fires in central Montana. Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms. BLODGETT TRAILHEAD, Bitterroot National Forest. A Type I Incident Management Team (Gage) is assigned. This fire is three miles northwest of Hamilton, MT. The inversion and smoke is continuing to restrict aerial reconnaissance and suppression efforts. Uphill runs have been observed in the Canyon Creek drainage. An estimated 600 homes remain evacuated based on current and expected fire behavior.

VALLEY COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Frye) is assigned. This complex of fires is seven miles south of Darby, MT. Resources have been pulled off the fireline in the Little Sleeping Child and East Fork of the Bitterroot areas due to increased fire activity. The fire is approaching the uppermost structures in the Little Sleeping Child drainage. At least 800 homes remain evacuated.

SULA COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Corbin) is assigned. The fires in this complex, located near Sula, MT, include the Maynard, Spade, Slate, Full Circle and Taylor Springs fires. Fire activity continues to be high, with the wind pushing the fire through grass and pastures. Torching, crowning and intermediate runs have been observed on the Maynard and Taylor Springs fires.

WILDERNESS COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Cook) is assigned. The complex consists of 24 fires in the Selway-Bitterroot and Frank Church River of No Return Wildernesses, 40
miles southwest of Hamilton, MT. Fire activity has accelerated on the Lonely, Hamilton, Thirty, Echo, Fitz and Throng fires. Spotting has caused some fire growth.

THOMPSON FLAT COMPLEX, Lolo National Forest. A Type II Incident Management Team (Hoff) is assigned. This is a complex of six fires within three miles of Superior, MT. The fires south of the highway are in patrol and mopup status. A defensive strategy has been implemented in the Johnson Creek area to protect structures and keep the fires within the confinement area.

RYAN GULCH, Southwestern Land Office, Montana Department of Natural Resources and Conservation. A Type I Incident Management Team (Melton) is assigned. This fire is 12 miles southeast of Clinton, MT. The fire became very active again yesterday afternoon, threatening to jump containment lines along the west and south flanks. Firefighters were required to retreat to safe areas. Evacuations remain in effect. Approximately 65 structures are threatened.

UPPER NINE MILE COMPLEX, Lolo National Forest. A Type I Incident Management Team (Bennett) is assigned. The Army s 20th Engineers Battalion from Ft. Hood, Texas, commanded by LTC Shumway, is assigned. These fires are burning near Huson, MT. Fires included in the complex are Siegel Pass \#7, East Fork Beecher, Pats Creek, Grave Creek, Marion, Big Blue, Alpine Divide, Lower Blue and South Fork Nemote \#4. A burnout operation is being planned for the eastern flank of the South Fork Nemote fire. The Marion fire and the Nine Mile fire have nearly burned together. CLEAR CREEK DIVIDE COMPLEX, Flathead Agency, BIA. A Type I Incident Management Team (McGregor) is assigned. This complex, 60 miles northwest of Missoula, consists of the Clear Creek, Vanderburg, Siegel and Magpie fires. Structure protection is ongoing for residences near the Vanderburg and Clear Creek fires. The east side of the Vanderburg fire crossed containment lines and advanced half a mile. Approximately 60 structures in Paradise, MT are threatened.

CROOKED, Clearwater National Forest. A Type I Incident Management Team (Hefner) is assigned. The fire is 50 miles southwest of Missoula, MT, near Lolo Pass. Cloud cover has assisted suppression efforts. Crews continue to burn out from roads and mop up the fireline successfully. High winds in the evening are causing problems.

MONTURE/SPREAD RIDGE, Lolo National Forest. A Type I Incident Management Team (Waterbury) is assigned. This fire is 19 miles east of Seeley Lake, MT. Firefighters protecting historical cabins in the Bob Marshall Wilderness have been withdrawn from the area as the fire approaches. Winds of up to 50 mph are being recorded on Jumbo Lookout.

BOULDER COMPLEX, Central Land Office, Montana Department of Natural Resources and Conservation. A Type I Incident Management Team (Humphrey) is assigned. This complex, three miles northeast of Basin, MT, consists of the Boulder Hill and High Ore Road fires. The evacuation order for communities adjacent to the complex has been lifted. Fire activity increased in the afternoon, with torching and spotting within internal unburned islands observed.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type II Incident Management Team (Swope) is assigned. This complex includes the

Mussigbrod and Maynard fires, which are 12 miles northwest of Wisdom, MT. Both fires exhibited very little spread. Individual and group torching induced by the steep terrain has been observed.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Carvelho) is assigned. The complex consists of the Falls Creek, Cougar Creek and Copper Creek fires, 30 miles southwest of Philipsburg, MT. Fire activity has increased somewhat because of winds and lower relative humidities.

BURNT FLATS, Clearwater area, Idaho State Department of Lands. A Type II Incident Management Team (Ostman) is assigned. The fire is three miles from Whitebird, ID. Crews have secured a fireline in Chapman Creek to keep the fire from threatening the Yellow Wolf Ranch and Highway 95. The northeast and eastern edges of the fire are unstaffed. The fire has doubled in size.

Kootenai complex, Kootenai National Forest. A Type II Incident Management Team (Cowin) is assigned. This complex consists of numerous fires 20 miles northwest of Libby, MT. Priorities are being set for structure protection.

ELK MOUNTAIN, Northwestern Land Office, Montana Department of Natural Resources and Conservation. A Type II Incident Management Team (Gauger) is assigned. This fire is 26 miles west of Whitefish, MT. Holding the fireline and controlling spots across the fireline have been difficult. Structure protection planning is in progress for residences downhill from the fire. The fire has burned into the bottom of the Brush Creek drainage.

MALONEY CREEK, Clearwater Area, Idaho State Department of Lands. A Type II Incident Management Team (Specht) is assigned. This fire is 12 miles southeast of Craigmont, ID. The fire has crossed Deer Creek and is threatening a powerline which is part of the regional grid. Cabins along the Salmon River are secure.

JUDITH COMPLEX, Lewis and Clark National Forest. A Type II Incident Management Team (Szczepanik) is assigned. This complex consists of the Studhorse, Lost Fork and High Springs fires, which are 25 miles southwest of Stanford, MT. Very dry fuels and low relative humidities are impeding containment efforts.

THREE BEARS, Nez Perce National Forest. A Type II Incident Management Team (Cones) is assigned. This fire, 29 miles from Elk City, ID, is burning actively on both sides of the Salmon River. The nearby Short Creek fire (1000 acres) is also being managed by the team. Fire activity has increased with the southwest winds. Site protection measures are underway at Arctic Circle.

CANYON FERRY COMPLEX, Helena National Forest. This complex, located 12 miles north of Helena, MT, consists of the Bucksnort and Cave Gulch fires. Fire activity has been minimal. Gusty winds have caused minor spotting, all within the established firelines.

BEAVER CREEK, Gallatin National Forest. This fire is south of Big Sky, MT. High winds have pushed the fire three miles from the point of origin. Extreme fire behavior has resulted in crews being evacuated from the
fireline. US Forest Service and private structures are in the path of the fire. Voluntary evacuation of some residences in the Taylor Fork area has occurred.

KNF ABC, Kootenai National Forest. There are 28 staffed fires and approximately 96 unstaffed fires in this group. All are within the Kootenai National Forest. BALD MOUNTAIN, Northwestern Land Office, Montana Department of Natural Resources and Conservation. Fire behavior is reported to be extreme.

NWLO IA COMPLEX, Northwestern Land Office, Montana Department of Natural Resources and Conservation. These fires are all within the northwest Montana zone. Ten fires are included in the complex.

HIDDEN CREEK, Clearwater National Forest. The fire is 12 miles southeast of Powell, ID. No new information was reported.

SEVEN BLACKFOOT, Miles City Field Office, BLM. This fire is in a wilderness study area 35 miles northwest of Jordan, MT. Pockets of timber are torching in the interior. Crews are making good progress with fireline construction and cold trailing operations.

MCDONALD II, Lewis and Clark National Forest. The fire is 36 miles southwest of Choteau, MT. No new information was received.

PARKE PEAK, Glacier National Park. This fire was ignited by lightning on 7/23 in the northwest corner of the park. This will be the last report unless there is significant activity to report.

FROG LAKE, Clearwater National Forest. The fire is 16 miles southeast of Powell, ID. No new information was received.

HAWKS GROUND, Clearwater Area, Idaho State Department of Lands. The fire is burning in steep terrain four miles northeast of Winchester, ID. No new information was received.

ELIZABETH, Clearwater National Forest. The fire is 33 miles northeast of Pierce, ID. No new information was received.

SNOW CREEK, Clearwater National Forest. The fire is 30 miles northeast of Pierce, ID. No new information was received.

## EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

RANKIN, Salmon-Challis National Forest. A Type II Incident Management Team (Suwyn) is assigned. A Type I Incident Management Team (Stam) has been ordered. This fire is 40 miles west of Challis, ID. Major problems and concerns are with historical, private and commercial property adjacent to the fire in the Yankee Fork drainage and additional private property along the Salmon River. Retardant drops were used to slow the fires spread down slope in upper Blind Creek, less than two miles above the town of Sunbeam.

ELK VALLEY, Caribou National Forest. This lightning-caused fire is 20 miles northeast of Montpelier, ID. Successful burnout operations have been completed.

BOULDER, Bridger-Teton National Forest. A Type II Incident Management Team (Zimmerman) is assigned. This fire is 15 miles east of Jackson, WY, in the Gros Ventre Wilderness. Dry, hot and windy conditions caused active torching on the perimeter and interior of the fire. Fire activity continues to test the west portion s containment lines. The fire has backed into Little Granite Creek in several areas. Spotting has not created any new problem areas.

BURGDORF JUNCTION, Payette National Forest. A Type I Incident Management Team (Vail) is assigned. A Type I Incident Management Team (Dague) has been assigned to transition with Vail s team. The fire is 23 miles north of McCall, ID. The 3rd Battalion 16th Field Artillery from Ft. Hood, Texas, commanded by LTC Darryl Williams, is assigned. Fifty-nine
personnel from the Idaho National Guard and 24 personnel from the 116th Calvary are providing the military with air and medical support and four Blackhawk helicopters.

CLEAR CREEK, Salmon-Challis National Forest. Two Type I Incident Management Teams (Hart and Bateman) are assigned. The fire is 12 miles west of Salmon, ID. The 3rd Battalion 5th Marines from Camp Pendleton, California, commanded by Col. Callihan, is assigned. The fire in Pine Gulch has potential to grow to the south. Fuels reduction along the Salmon River Ridge road is at an accelerated pace with the arrival of large pieces of logging equipment. This is to support preparation of the contingency line above the town of Salmon and its watershed.

SWAINS, South Central State of Utah. A Type II Incident Management Team (Burdick) has been ordered and will transition this evening. This humancaused fire is burning east of Holden, UT. Extreme fire conditions were observed with crowning and 200-foot flame lengths. Structures and wildlife habitats remain threatened.

MORSE, Salmon-Challis National Forest. A Type II Incident Management Team (Suwyn) has been ordered. The fire is burning in grass, sagebrush, and Douglas Fir 12 miles southeast of Ellis, ID. Resources threatened are one Forest Service campground. Actions planned for today are to monitor and hold the fireline north of Morse Creek drainage and east of Tater Creek.

HALF MOON, Bridger-Teton National Forest. This fire is near Pinedale, WY. The fire had significant growth yesterday and is currently threatening the Half Moon Lodge. The Sweeney Creek Trail area was evacuated yesterday and other areas are currently being evaluated. Air support was used yesterday to hold the west flank of the fire.

NICK, Payette National Forest. A Type II Incident Management Team (Saleen) has been ordered. This fire is burning in subalpine fir 12 miles east of McCall, ID.

DRY FORK II, Vernal Field Office, BLM. The fire is burning in pinyon pine, juniper, aspen, fir and lodgepole pine 20 miles northwest of Vernal, UT. The east side of the fire is inaccessible by personnel and engines. Fire behavior has been unaffected by nightfall.

ENOS, Bridger-Teton National Forest. A Type II Incident Management Team (Zimmerman) has been assigned to manage this fire. This fire is burning in the Teton Wilderness 33 miles northeast of Jackson, WY. Firefighters successfully completed structure protection around the Enos Lake patrol cabin.

FLOSSIE COMPLEX, Payette National Forest. This fire is 50 miles northeast of McCall, ID. The threat to structures at Chamberlain and Stonebreaker Ranch has passed.

NORTH FORK WILDERNESS COMPLEX, Salmon/Challis National Forest. The ten fires in this complex, including the Butts and Filly fires, are 40 miles northwest of Salmon, ID. Growth potential is extreme due to limited access, steep rugged terrain and dry fuels at high elevations. The fires were active yesterday and all made major runs.

POINT/LOOKOUT, Payette National Forest. The fire is 51 miles east of

McCall, ID. Three outbuildings were destroyed yesterday. Structure protection is being provided for the rest of the structures.

SOUTH ZONE WILDERNESS, Salmon-Challis National Forest. This fire is 50 miles northwest of Challis, ID. This fire is being monitored for fire growth and behavior.

TRIANGLE, Bridger-Teton National Forest. This fire is burning near Pinedale, WY. The fire is currently not staffed and is burning to the east in the Wind River Range.

DIAMOND PEAK, Payette National Forest. This lightning-caused fire is 42 miles northeast of McCall, ID. The fire made a large run towards the northeast yesterday evening. Resources threatened include two historical buildings.

INDIAN/PROSPECT, Payette National Forest. The fire is 33 miles east of McCall, ID. The private vehicle trapped behind fireline earlier has been retrieved. The fire is moving towards the Stibnite Mine which has been evacuated. The fire is being monitored by air.

SID = Upper Snake River District, South-Central Idaho Area, BLM

WESTERN GREAT BASIN AREA LARGE FIRES:

SOUTH WILLOW, Winnemucca Field Office, BLM. The fire is burning in sagebrush, grass and juniper 60 miles west of Winnemucca, NV. Current threats are to grazing lands and mine shacks.

O NEIL BASIN COMPLEX, Elko Field Office, BLM. A Type II Incident

Management Team (Murphy) is assigned. This complex, consisting of the Camp Creek, Cold Springs and Mahogany fires, is 40 miles southeast of Jackpot, NV. Unburned fuels are still smoldering in the interior of the Camp Creek fire. Crews will continue with mopup today. Some demobilization is occurring.

TWIN PEAKS, Carson City Field Office, BLM. A Type II Incident Management Team (Praytor) is assigned. This fire is burning in pinyon pine and juniper 50 miles east of Fallon, NV. The fire $s$ forward progress has slowed. Torching continues on islands within the perimeter. Some progress has been made toward containment, despite extremely dry fuels and difficult terrain. Several ranches in the area remain threatened.

RABBIT, Elko Field Office, BLM. The fire is burning in pinyon pine, juniper, sagebrush and grass 60 miles southeast of Elko, NV. Torching trees have been observed near the fire s perimeter and within unburned islands. Current threats are to wildlife habitat, grazing and cultural resources.

WHISKEY, Battle Mountain Field Office, BLM. This fire is burning through pinyon pine, juniper and sage fuels 15 miles south of Battle Mountain, NV. Fire activity during the past 24 hours has been low. Limited access, steep terrain and very dry fuels are challenging containment efforts. Wildlife habitat, livestock and grazing lands are threatened.

CHOKE CHERRY, Elko Field Office, BLM. This fire is 14 miles east of Jackpot, NV. The fire is burning in pinion pine, juniper, sagebrush and grass. Crews are making good progress constructing fireline and cold trailing. Some interior torching has been observed.

PARSNIP, Ely Field Office, BLM. This fire is burning in sagebrush, dense pinyon pine and juniper 30 miles northeast of Caliente, NV in a wilderness study area. Dozer lines are being built around structures. Moderate fire behavior has been reported, with some torching and a slight acreage gain.

PHILLIPS RANCH, Humboldt-Toiyabe National Forest. The fire is 50 miles southeast of Ely, NV. USFS personnel are monitoring the fire. Torching and up-drainage runs have been observed in timber stands on the north and south ends.

CHERRY, Ely Field Office, BLM. This fire is 30 miles northwest of Ely, NV. Due to its inaccessibility, the fire is being monitored by BLM personnel.

RIGHT HAND, Carson City Field Office, BLM. This fire is burning in pinyon pine and juniper 25 miles northeast of Reno, NV. No significant fire activity has been observed in the past 24 hours. Engines and a crew continue to work toward containment.

MAMMOTH, Humboldt-Toiyabe National Forest. The fire is burning in white fir 75 miles southwest of Ely, NV. It started on $8 / 2$ in the Grant Range Wilderness Area. On 8/11 grew to its present size due to strong gusty winds. Current threats are to summer and winter wildlife habitat and sensitive plant species.

## ROCKY MOUNTAIN AREA LARGE FIRES:

FLAGPOLE MOUNTAIN, South Dakota State Forestry. A Type II Incident Management Team (Gardner) is assigned. This fire is near the town of Hot Springs, SD. Wind shifts and steep terrain continue to deter containment efforts. One residence and three outbuildings have been destroyed. The fire is threatening numerous other residences.

KATE S BASIN COMPLEX, Wind River Agency, BIA. A Type I Incident Management Team (Lohrey) is assigned. This complex includes the Kate s Basin and the Blondie \#2 fires, eight miles southwest of Thermopolis, WY. High winds, high temperatures and low relative humidities are combining to keep the fires very active. The Blondie \#2 fire continues to spread.

SHEEP MOUNTAIN, Rock Springs District, BLM. A Type II Incident Management Team (Carlson) is assigned. This lightning-caused fire is near Rock Springs, WY. The fire has made several runs, pushed by strong shifting winds. A major powerline is threatened. Highway 191 has been closed from Utah to Rock Springs.

BLACKHALL, Rawlins District, BLM. A Type II Incident Management Team (Hartman) is assigned. This fire is four miles southeast of Encampment, WY. Strong winds have caused the fire to spot across containment lines. The fire is threatening two structures to the north. Very dry conditions and winds have challenged fire containment efforts.

HOGBACK, Craig Dispatch Center Counties. This fire is five miles south of Meeker, Co. The fire received long duration rain. Most resources have been released and the fire will be in patrol status for the next few days.

HELL'S CANYON, Rawlins District, BLM. This fire is 50 miles south of Rawlins, WY. The fire is reported to be running, torching, crowning and spotting in rugged terrain with minimal access.

NORTHWEST AREA LARGE FIRES:
BUFFALO LAKE, Colville Agency, BIA. A Type II Incident Management Team (Furlong) is assigned. This fire is burning in grass, sagebrush, timber and slash four miles northeast of Coulee Dam, WA. Crews continuing to progress toward containment. A burnout operation is underway along the east flank of the fire.

WHITE ELEPHANT RANCH, Prineville District, BLM. This fire is made up of two lightning-caused fires 15 miles east of Grass Valley, OR that burned together. Containment was expected late last night.

FLAT CREEK, Wenatchee National Forest. This lightning-caused fire is 18 miles northwest of Stehekin, WA, in the Glacier Peak Wilderness. Monitoring by agency personnel from a viewpoint and by helicopter is continuing.

## SOUTHERN CALIFORNIA AREA LARGE FIRES:

HIGHWAY, Fresno-Kings Ranger Unit, California Department of Forestry. This human-caused fire is 28 miles northeast of Fresno, CA. The town of Auberry has been evacuated and structures are threatened. Highway 168 has been closed.

SAWMILL, Inyo National Forest. The fire, near Independence, CA, was ignited on $8 / 5$ by lightning. Steep terrain is slowing containment efforts.

NAME | | | |CTN| CTN |PERS | | | |LOSS|LOSS|C-T-D

SOUTHWEST AREA LARGE FIRES:
PEAK, Tonto National Forest. A Type II Incident Management Team (Joki) is assigned. The fire is burning in dense brush and steep terrain six miles south of Globe, AZ. The fire received over 2.5 inches of rain and hail yesterday afternoon. Large scale rehabilitation efforts are underway.

BELL, Las Vegas District, New Mexico State Forestry. This lightning-caused fire was ignited on 8/7. It is burning in pinyon pine, juniper and grass 30 miles northwest of Tucumcari, NM. No new information was received.

RATTLESNAKE, Prescott National Forest. The fire was ignited on 8/7 near Black Canyon City, AZ. The fire is burning in a canyon with limited access in the Castle Creek Wilderness. The fire is being monitored by USFS personnel.

OUTLOOK:
*** A RED FLAG WARNING IS POSTED IN PORTIONS OF WESTERN AND SOUTHWEST WYOMING FOR GUSTY WINDS AND LOW RELATIVE HUMIDITIES ***
*** A FIRE WEATHER WATCH IS POSTED IN SOUTHERN AND SOUTHEAST MONTANA FOR GUSTY WINDS AND LOW RELATIVE HUMIDITIES ***

Weak upper level disturbances will continue to move into the west coast, bringing seasonal temperatures to the Pacific northwest, Great Basin, and northern Rockies. This will also bring locally breezy conditions to portions of the Great Basin and northern Rockies, but there is no chance of precipitation. Monsoonal moisture and a chance of thunderstorms continues across the southwest region, as high pressure extends from the four corners area to southern California.

High temperatures will range from the mid 70's to the mid 90's in most areas and up to 110 in the deserts of western Utah, northern Arizona and southern Nevada. Up to 115 degree temperatures will occur across the southern California and Arizona desert areas.

Afternoon relative humidities will range from the low teens to upper 20's in most areas, except drier in the hottest deserts. Northwest to southwest winds of 10 to 20 mph and gusty can be expected across portions of the north. Elsewhere, diurnal winds of 10 to 15 mph are expected.

A fire weather watch is posted in portions of northern Florida for low relative humidities.
