INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, AUGUST 16, 2000 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL V

## CURRENT SITUATION:

Nine new large fires were reported, including three each in the Eastern Great Basin and Northern Rockies Area. Containment was reached on three fires in the Northwest and Southern Areas. Initial attack activity was light to moderate, with some precipitation received in the four corners states. Winds are forecast to diminish today which will assist crews in making progress toward containment of large fires. Mobilization of available aircraft, crews, equipment and overhead continues at a steady pace through the National Interagency Coordination Center. Very high to extreme fire indices have been reported in all 11 western states, plus North Dakota and Texas.

## NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Edrington) is assigned to manage the large fires in the Hamilton area. An Area Command Team (Mann) is assigned to manage the large fires in southwestern Montana. An Area Command Team (Meuchel) is assigned to manage the large fires in central Montana. Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

BLODGETT TRAILHEAD, Bitterroot National Forest. A Type I Incident Management Team (Gage) is assigned. This fire is three miles northwest of Hamilton, MT. The fire continues to move west toward in the SelwayBitterroot Wilderness. Inversion and smoke are hampering aerial reconnaissance and mapping of the incident. Fire activity is more vigorous above 6000 feet elevation.

VALLEY COMPLEX, Bitterroot National Forest. Two Type I Incident Management Teams (Frye and Meyer) are assigned. These fires are seven miles south of Darby, MT. This complex now includes the fire formerly known as the Sula Complex. Moderate runs with torching and spotting in timber have been observed. Structure protection operations continue in the Sleeping Child, Little Sleeping Child, East Fork, Springer, Bonanza, West Fork, Hughes Creek and Lost Trail Pass areas, where approximately 800 residences are threatened.

WILDERNESS COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Cook) is assigned. The complex consists of 24 fires in the Selway-Bitterroot and Frank Church River of No Return Wildernesses, 40 miles southwest of Hamilton, MT. The Hamilton and Lonely fires have probably grown together, but visibility has been obscured by a smoke inversion.

RAZOR, Bitterroot National Forest. This fire is 25 miles southwest of Darby, MT. The fire was started by lightning on $8 / 13$ and was not staffed until $8 / 14$ due to its remote location. It has made a major run, pushed by strong winds. Flame lengths 100 feet in length have been observed. The
upper West Fork area has been evacuated. After today, this fire will be reported with the Valley Complex.

THOMPSON FLAT COMPLEX, Lolo National Forest. A Type II Incident Management Team (Hoff) is assigned. This is a complex of six fires within three miles of Superior, MT. Crews continue to make progress with fireline construction and holding actions along Johnson Creek. The fire is quite active near the head of Johnson Creek. A burnout operation around several homes in the Trout Creek drainage is underway.

RYAN GULCH, Southwestern Land Office, Montana Department of Natural Resources and Conservation. A Type I Incident Management Team (Melton) is assigned. This fire is 12 miles southeast of Clinton, MT. The east side of the fire is being pressured by strong and gusty winds. The fireline was crossed once, but the slopover was attacked by dozers supported by a helicopter with bucket. Residents within the Bear Creek area have been evacuated.

UPPER NINEMILE COMPLEX, Lolo National Forest. A Type I Incident Management Team (Bennett) is assigned. The Army's 20th Engineers Battalion from Ft. Hood, Texas, commanded by LTC Shumway, is assigned. These fires are burning near Huson, MT. Crews had to be pulled off the fireline on the Alpine fire due to strong winds which caused extreme fire behavior. Both the Alpine and the Ninemile fires have spotted over containment lines again.

CLEAR CREEK DIVIDE COMPLEX, Flathead Agency, BIA. A Type I Incident Management Team (MacGregor) is assigned. This complex, 60 miles northwest of Missoula, consists of the Clear Creek, Vanderburg, Siegel and Magpie fires. Direct attack on the east side of the Vanderburg fire and helicopter bucket work on the southeast side have been implemented successfully. Communities along Highway 200 are threatened.

CROOKED, Clearwater National Forest. A Type I Incident Management Team (Hefner) is assigned. The fire is 50 miles southwest of Missoula, MT, near Lolo Pass. The fire has made upslope runs within established firelines with individual torching observed. The estimated containment date has been pushed back, due to steep terrain and strong afternoon winds which are hampering direct tactical operations.

MONTURE/SPREAD RIDGE, Lolo National Forest. A Type I Incident Management Team (Waterbury) is assigned. This fire is 19 miles east of Seeley Lake, MT. Significant winds in the afternoon have caused the fire to become more active. Torching with some short crowning runs have been observed. Unburned islands within the fire's perimeter continue to burn out.

BOULDER COMPLEX, Central Land Office, Montana Department of Natural Resources and Conservation. A Type I Incident Management Team (Humphrey) is assigned. This complex, three miles northeast of Basin, MT, consists of the Boulder Hill and High Ore Road fires. Fire activity has been limited to isolated flare-ups in unburned areas. There are hot spots remaining near the fireline that become active in the heat of the afternoon. Some demobilization is underway.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type II Incident Management Team (Swope) is assigned. This complex includes the Mussigbrod and Maynard fires, which are 12 miles northwest of Wisdom, MT.

Strong winds have caused both fires to experience extreme behavior. Crews were forced to retreat from the fireline. The Full Circle fire has burned into the Maynard fire and is threatening to move across Highway 93 towards the Big Hole Valley.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Carvelho) is assigned. The complex consists of the Falls Creek, Cougar Creek/Coyote Springs, Skalkaho Pass, Lick Creek and Copper Creek fires, 30 miles southwest of Philipsburg, MT. The Cougar/Coyote fire has made a significant run toward Medicine Lake. Structure protection measures are continuing.

CANYON FERRY COMPLEX, Helena National Forest. This complex, located 12 miles north of Helena, MT, consists of the Bucksnort and Cave Gulch fires. Fire activity has been minimal, although it did pick up and become a bit more active during the afternoon hours.

JUDITH COMPLEX, Lewis and Clark National Forest. A Type II Incident Management Team (Szczepanik) is assigned. This complex consists of the Studhorse, Lost Fork and High Springs fires, which are 25 miles southwest of Stanford, MT. Occasional torching and minor runs on steep slopes have been observed. Threatened resources include timber, a watershed and endangered species habitat.

BURNT FLATS, Clearwater area, Idaho State Department of Lands. A Type II Incident Management Team (Ostman) is assigned. The fire is three miles from Whitebird, ID. The fire has been active in three sub-drainages. The fire is moving to the east through timber and brush. Short crown runs, torching and mid-range spotting have been noted. Some spotting across Jimmie Creek has occurred.

BEAVER CREEK, Gallatin National Forest. A Type II Incident Management Team (Duke) is assigned. This fire is south of Big Sky, MT. The fire has been particularly active along the west perimeter and continues to back downhill in the Cub Creek drainage. Two U.S. Forest Service and two private cabins are threatened.

KOOTENAI COMPLEX, Kootenai National Forest. A Type II Incident Management Team (Cowin) is assigned. This complex consists of 34 fires that are 20 miles northwest of Libby, MT. Ten of these fires have been staffed. Torching and spotting have been noted in the afternoon and the fire is remaining active until late at night. Structure protection plans are being made.

ELK MOUNTAIN, Northwestern Land Office, Montana Department of Natural Resources and Conservation. A Type II Incident Management Team (Gauger) is assigned. This fire is 26 miles west of Whitefish, MT. Fire activity has increased due to strong winds, high temperature and low relative humidities. Long range spotting has occurred on the southeast side of the fire.

MALONEY CREEK, Clearwater Area, Idaho State Department of Lands. A Type II Incident Management Team (Specht) is assigned. This fire is 12 miles southeast of Craigmont, ID. The fire continues to burn under the powerline and is active on the west and south flanks. An estimated 25 power poles have been destroyed. The fire is exhibiting high activity levels both night and day.

STONE YOUNG, Kootenai National Forest. A Type II Incident Management Team (Colla) has been ordered. The complex consists of four fires. The Young fire has burned into Canada. The Lydia fire has potential to threaten structures. The other two fires in the complex are the Stone Hill and the Cliff Point fires.

TROY SOUTH, Kootenai National Forest. A Type II Incident Management Team (Berndt) is assigned. This complex of 37 fires is near Troy, MT. Five of the fires are high priority due to threats to a municipal watershed and structures in the city of Troy. A structure protection plan is being developed.

NORTHWEST LAND OFFICE (NWLO) IA COMPLEX, Northwestern Land Office, Montana Department of Natural Resources and Conservation. These fires are all within the northwest Montana zone. The total number of fires in the complex is 27. The fires have been actively burning in some areas, with spotting and isolated torching noted on the Bald Hill fire.

CHIPMUNK, Flathead National Forest. The fire is burning in spruce, subalpine fir and brush 45 miles southeast of Kalispell, MT. Firefighters are locating strategic points and beginning structure protection planning. The fire is observed to have a rate of spread of one to two miles per hour with some torching.

THREE BEARS, Nez Perce National Forest. A Type II Incident Management Team (Cones) is assigned. This fire, 29 miles from Elk City, ID, continues to burn actively on both sides of the Salmon River, pushed by southwest winds. Site protection measures have been completed at Arctic Creek and are being developed for Mallard Creek, Cook Ranch and Whitewater.

HELEN CREEK, Flathead National Forest. This fire is 22 miles south of Spotted Bear, MT. Flame lengths are less than two feet and the fire has been observed to be creeping on the surface. Threatened resources are three administrative structures and one pack bridge.

HUMP CREEK, Northwestern Land Office, Montana Department of Natural Resources and Conservation. This fire is four miles southwest of Reed Point. A total of 26 structures are threatened. A burnout operation is planned for today.

KNF ABC, Kootenai National Forest. There are 35 active fires in this complex, 27 staffed and eight unstaffed. Four of the larger fires will be assigned to the Stone Young Complex. All fires are within the Kootenai National Forest.

HAWKS GROUND, Clearwater Area, Idaho State Department of Lands. The fire is burning four miles northeast of Winchester, ID. Containment is being hampered by steep canyons, poor access and rolling debris.

MCDONALD II, Lewis and Clark National Forest. The fire is 36 miles southwest of Choteau, MT. Hot spots and torching are increasing in the southwest corner.

HIDDEN CREEK, Clearwater National Forest. The fire is 12 miles southeast of Powell, ID. The fire is active on the north perimeter, moving toward

Big Sand Creek, with flame lengths of two to four feet. The fire is being monitored by US Forest Service personnel.

FROG LAKE, Clearwater National Forest. The fire is 16 miles southeast of Powell, ID. The fire is being monitored by US Forest Service personnel.

ELIZABETH, Clearwater National Forest. The fire is 33 miles northeast of Pierce, ID. The fire is being monitored by US Forest Service personnel.

SNOW CREEK, Clearwater National Forest. The fire is 30 miles northeast of Pierce, ID. The fire is being monitored by US Forest Service personnel.

EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency

Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

RANKIN, Salmon-Challis National Forest. A Type II Incident Management Team (Suwyn) is assigned. This fire is 40 miles west of Challis, ID. The northern perimeter of the fire at Rankin Creek is holding as the fire slowly burns toward a dozer fireline and an old burn.

SWAINS, South Central State of Utah. A Type II Incident Management Team (Burdick) is assigned. This human-caused fire is burning east of Holden, UT. Intense fire activity has been observed as several interior areas torch. Firefighters were able to hold the fireline on a ridge as the fire made a run toward it. Some rain fell on the fire as a thunderstorm moved through the area.

BOULDER, Bridger-Teton National Forest. A Type II Incident Management Team (Zimmerman) is assigned. This fire is 15 miles east of Jackson, WY, in the Gros Ventre Wilderness. Firefighters continue efforts to contain the fire east of Little Granite Creek.

GLADE, Grand Teton National Park. This lightning-caused fire is 12 miles north of Colter Bay, WY. Flagg Ranch Lodge, a campground, residences and National Park Service residences have been evacuated. Air tankers were successful in slowing fire spread to the east, toward the lodge and south of the Grassy Lake road. Spotting has been observed one-quarter to one-half mile ahead of the main fire. Crews continue to work on the spot fires.

ELK VALLEY, Caribou National Forest. This lightning-caused fire is 20 miles northeast of Montpelier, ID. There has been some spotting across firelines, but all spots have been contained.

MORAN, Grand Teton National Park. This fire is burning in the Teton Range, west of Jackson Lake at Moran Canyon. The fire is burning with great intensity in very heavy fuels. The Moran patrol cabin has been confirmed destroyed. The Lower Berry patrol cabins, six miles to the north, will be wrapped and sprinkled.

NICK, Payette National Forest. A Type II Incident Management Team (Saleen) is assigned. This fire is burning in subalpine fir 12 miles east of McCall, ID. Firefighters have established structure protection zones around Krassel work station and the Zena Ranch. The area around the fire has been closed to recreational activities.

CLEAR CREEK, Salmon-Challis National Forest. A Type I Incident Management Team (Hart) is assigned. A Type I Incident Management Team (Hutchinson) has been assigned to transition with Hart's team. The fire is 12 miles west of Salmon, ID. The 3rd Battalion 5th Marines from Camp Pendleton, California, commanded by Col. Callihan, is assigned. The size of the fire combined with minimal firelines is allowing for rapid fire growth.

BURGDORF JUNCTION, Payette National Forest. A Type I Incident Management Team (Vail) is assigned. A Type I Incident Management Team (Dague) has been assigned to transition with Vail's team. The fire is 23 miles north of McCall, ID. The 3rd Battalion 16th Field Artillery from Ft. Hood, Texas, commanded by LTC Darryl Williams, is assigned. Fifty-nine personnel from the Idaho National Guard and 24 personnel from the 116th

Calvary are providing the military with air and medical support and four Blackhawk helicopters. Primary fire spread is toward the west in the northwest corner. The spot fire east of Rabbit Creek continues to spread slowly towards Republican Flats. Contingencies are in place to provide the Nez Perce National Forest with initial attack forces should the fire cross the Salmon River.

HALF MOON, Bridger-Teton National Forest. This fire is near Pinedale, WY. Active burning and torching has been observed as the fire moves to the east. Spotting has occurred across Pole Creek. One 30 acre spot fire and several smaller spots are causing containment problems.

DRY FORK II, Vernal Field Office, BLM. The fire is burning in pinyon pine, juniper, aspen, fir and lodgepole pine 20 miles northwest of Vernal, UT. Light rain fell over the fire with little effect. The fire has burned from Ashley Gorge to the bottom of Black Canyon.

MORSE, Salmon-Challis National Forest. The fire is burning in grass, sagebrush and douglas fir 12 miles southeast of Ellis, ID. One U.S. Forest Service campground continues to be threatened.

TRAIL CREEK, Boise National Forest. This fire is five miles south of Atlanta, ID. The fire grew rapidly under red flag conditions. Two U.S. Forest Service engines will be used to patrol the town of Atlanta to provide contact with residents and begin initial removal of campers from the local backcountry campsites.

LOOKOUT POINT, Payette National Forest. The fire is 51 miles east of McCall, ID. Structure protection at Taylor Ranch and Cabin Creek is being provided by 12 smokejumpers. This fire is expected to burn into the Diamond Peak fire in the near future.

FONTENELLE, Bridger-Teton National Forest. This lightning-caused fire is northeast of Cokeville, WY. Extreme fire behavior has been noted. Current threats are to many natural gas wells.

BLIND, Bridger-Teton National Forest. The fire is southeast of Alpine, WY. Dry fuels and windy conditions have caused extreme fire behavior, including crowing and long range spotting.

FRANKLIN CANYON, Northwest Utah State. This fire is six miles west of Coalville, UT. Fire activity is intense, with torching and crowning observed. One section of powerlines was destroyed and another section is threatened. Concerns include poor access and threatened structures.

ENOS, Bridger-Teton National Forest. A Type II Incident Management Team (Zimmerman) is assigned. This fire is burning in the Teton Wilderness 33 miles northeast of Jackson, WY. Intense fire activity continues. Concerns are U.S. Forest Service and National Park Service patrol cabins, outfitter camps and developments south of the fire in the Buffalo Creek area.

FLOSSIE COMPLEX, Payette National Forest. This fire is 50 miles northeast of McCall, ID. Fire activity moderated yesterday.

NORTH FORK WILDERNESS COMPLEX, Salmon-Challis National Forest. The ten fires in this complex, including the Butts and Filly fires, are 40 miles
northwest of Salmon, ID. The fires have been very active. Structure protection is in place at the Salmon River Lodge.

SOUTH ZONE WILDERNESS, Salmon-Challis National Forest. This fire is 50 miles northwest of Challis, ID. This fire is being monitored for fire growth and behavior. No new information was received.

TRIANGLE, Bridger-Teton National Forest. This fire is burning near Pinedale, WY. The fire is burning to the east in the Wind River Range. No new information was reported.

DIAMOND PEAK, Payette National Forest. This lightning-caused fire is 42 miles northeast of McCall, ID. The fire has made a run and could be at Cabin Creek by tonight. It should burn into the Lookout Point fire soon. Two smokejumpers are providing structure protection.

INDIAN/PROSPECT, Payette National Forest. The fire is 33 miles east of McCall, ID. The fire has been considerably calmer and there was no significant movement. NORTH SHELLROCK, Payette National Forest. The fire is 55 miles east of McCall, ID. It is currently being monitored from the air.

CHOURNOS, Northwest Utah State. This fire is 30 miles west of Ogden, UT. The fire behavior is still very intense.

WESTERN GREAT BASIN AREA LARGE FIRES:
Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

TWIN PEAKS, Carson City Field Office, BLM. A Type II Incident Management Team (Praytor) is assigned. This fire is burning in pinyon pine and juniper 50 miles east of Fallon, NV. The fire continues to make runs through unburned drainages located within the fire perimeter.

SOUTH WILLOW, Winnemucca Field Office, BLM. The fire is burning in sagebrush, grass and juniper 60 miles west of Winnemucca, NV. The fire continues to burn actively, exhibiting extreme rates of spread, torching and spotting. Current threats are to a structure, a historical site, rangeland and sage grouse habitat.

PARSNIP, Ely Field Office, BLM. This fire is burning in sagebrush, dense pinyon pine and juniper 30 miles northeast of Caliente, NV in a wilderness study area. The fire received light precipitation.

WHISKEY, Battle Mountain Field Office, BLM. This fire is burning in pinyon pine, juniper and sage fuels 15 miles south of Battle Mountain, NV. Fire activity has slowed and crews have begun cold-trailing the fire perimeter.

PHILLIPS RANCH, Humboldt-Toiyabe National Forest. The fire is 50 miles southeast of Ely, NV. USFS personnel are monitoring the fire. No active fire behavior has been observed.

MAMMOTH, Humboldt-Toiyabe National Forest. The fire is burning in white fir 75 miles southwest of Ely, NV. It started on 8/2 in the Grant Range Wilderness Area. On $8 / 11$ the fire grew to its present size due to strong gusty winds. No new information was received.

O'NEIL BASIN COMPLEX, Elko Field Office, BLM. A Type II Incident Management Team (Murphy) is assigned. This complex, consisting of the Camp Creek, Cold Springs and Mahogany fires, is 40 miles southeast of Jackpot, NV. Unburned fuels are still smoldering in the interior of the Camp Creek fire.

CHERRY, Ely Field Office, BLM. This fire is 30 miles northwest of Ely, NV. Due to its inaccessibility, the fire is being monitored by BLM personnel. Crews are arriving on the fire today to begin efforts to contain it.

LITTLE WATER, Humboldt National Forest. This fire is 60 miles southeast of Elko, NV. It is being monitored from the air.

## ROCKY MOUNTAIN AREA LARGE FIRES:

KATE'S BASIN COMPLEX, Wind River Agency, BIA. A Type I Incident Management Team (Lohrey) is assigned. This complex includes the Kate's Basin and the Blondie \#2 fires, eight miles southwest of Thermopolis, WY. The west flank and the northeast corner of the fire were burned out to control lines. The fire made runs through unburned fuels in the interior. Control problems include steep rugged terrain and cliffs, limited access and extremely dry fuels.

FLAGPOLE MOUNTAIN, South Dakota State Forestry. A Type II Incident Management Team (Gardner) is assigned. This fire is near the town of Hot Springs, SD. The fire has exhibited activity in isolated areas and within firelines. Minimal fire growth has been noted.

ENCAMPMENT COMPLEX, Rawlins District, BLM. A Type II Incident Management Team (Hartman) is assigned. This complex consisting of the Blackhall and Hell Canton fires are southeast of Encampment, WY. Fire activity has been moderate and firefighters have made significant progress toward containment.

SHEEP MOUNTAIN, Rock Springs District, BLM. A Type II Incident Management Team (Carlson) is assigned. This lightning-caused fire is near Rock Springs, WY. Intense fire behavior was observed when thunderstorms went through the area. However, firefighters have been able to hold the fire with little acreage gain.

BURRO FLATS, Shoshone National Forest. The fire is 12 miles south of Dubois, WY. It is burning in the Fitzpatrick Wilderness at high elevations. The fire is being held in check with retardant and helicopter water drops. A crew has been air lifted to the fire to build fireline.

WOODS CANYON, Custer Dispatch Center Counties. The fire is 10 miles northwest of Hulett, WY. It is being staffed by Wyoming State and crook County resources. Fire behavior is moderate, with occasional torching observed. A burnout operation has been completed.

HOGBACK, Craig Dispatch Center Counties. This fire is five miles south of Meeker, Co. No new information was received.

NORTHWEST AREA LARGE FIRES:
MILEPOST 244, Umatilla National Forest. A Type II Incident Management Team (Jackson) is assigned. The fire is burning in grass, brush and timber five miles southeast of Gibbon, OR. Extreme fire behavior has been observed, including flame lengths of 50 to 100 feet. Resources were pulled off from the head of the fire yesterday afternoon and crews are currently working the fire's flanks. Threats are to tribal lands, railroad facilities, private property and wildlife habitat.

BUFFALO LAKE, Colville Agency, BIA. A Type II Incident Management Team (Furlong) is assigned. This fire is burning in grass, sagebrush, timber and slash four miles northeast of Coulee Dam, WA. Crews are continuing to improve fireline and mopup along the east flank. Aerial ignition of unburned interior islands near the fireline is occurring on the south and east flanks.

FLAT CREEK, Wenatchee National Forest. This lightning-caused fire is 18 miles northwest of Stehekin, WA, in the Glacier Peak Wilderness. Monitoring by agency personnel from a viewpoint and by helicopter continues.

## SOUTHERN CALIFORNIA AREA LARGE FIRES:

HIGHWAY, Fresno-Kings Ranger Unit, California Department of Forestry and Fire Protection. This human-caused fire is 28 miles northeast of Fresno, CA. Continued hot temperatures and steep terrain are challenging containment efforts. Demobilization of some resources has begun.

SAWMILL, Inyo National Forest. The fire is ten miles north of Independence, CA. Progress is being made toward containment despite steep terrain.

## NORTHERN CALIFORNIA AREA LARGE FIRES:

UNION, Shasta-Trinity Ranger Unit, California Department of Forestry and Fire Protection. This human-caused fire is ten miles north of Redding, CA. Three residences, one mobile home, one travel trailer, four vehicles and two outbuildings have been confirmed destroyed. Containment was expected late last night.

## SOUTHWEST AREA LARGE FIRES:

PEAK, Tonto National Forest. A Type II Incident Management Team (Joki) is assigned. The fire is burning in dense brush and steep terrain six miles south of Globe, AZ. Fire activity has been minimal.

RATTLESNAKE, Prescott National Forest. The fire was ignited on 8/7 near Black Canyon City, AZ. The fire is burning in a canyon with limited access in the Castle Creek Wilderness. The fire is being monitored by USFS personnel.

SOUTHERN AREA LARGE FIRES:
VISTULA, Texas State Forest Service. The fire is 100 miles northwest of Houston. It is burning in a pine plantation and cut over area. A National Guard helicopter assisted crews in saving two structures.

1943, Texas State Forest Service. The fire is burning in a pine plantation 75 miles northeast of Warren, TX. No new information was received.

LAKE BROWN, Texas State Forest Service. This fire is burning in brush, cedar and juniper 50 miles southeast of Abilene, TX. No new information
was received.

OUTLOOK:
*** A RED FLAG WARNING IS POSTED IN SOUTHWEST SOUTH DAKOTA AND NORTHEAST WYOMING FOR A FRONTAL PASSAGE AND DRY LIGHTNING THIS MORNING ***

A dry southwest to west flow aloft will prevail over Washington, Oregon, Idaho and Montana. Winds will be much lighter over this area as the previous disturbance moves off to the east. Further south, monsoon moisture will continue to bring a possibility of thunderstorms to the four corners states and to Nevada and Wyoming. Dry thunderstorms may persist into this morning in southwest South Dakota. Winds will generally be southwest to west at 10 to 20 mph .

High temperatures will range from the mid 70's to the mid 90's in most areas and up to 110 in the deserts of western Utah, northern Arizona and southern Nevada. Up to 115 degree temperatures will occur across the southern California and Arizona desert areas. Afternoon relative humidities will range from the low teens to the 20 's in most areas, except drier in the hottest deserts and valleys.

A fire weather watch is posted in northeast Florida for low relative humidities.
