INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, SEPTEMBER 6, 2000 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL IV

## CURRENT SITUATION:

Twenty new large fires were reported, 19 of which were in the Southern Area. Firefighters reached containment goals on 13 fires, 11 in the Southern Area and one each in the Northern Rockies and Rocky Mountain Areas. Initial attack activity was heavy in the Southern Area and moderate in the Rocky Mountain Area. Showers persisting in the northern Rocky Mountains today will continue to assist crews there. Fire activity will continue in Texas and the South with no change in the hot weather predicted. Very high to extreme fire indices were reported in Oregon, Washington, California, Idaho, Montana, North Dakota, Utah, Wyoming, Nevada, Arizona, Colorado, Kansas, Arkansas, Mississippi, Oklahoma and Texas.

## NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Edrington) is assigned to manage the large fires in the Hamilton area. An Area Command Team (Mann) is assigned to manage the large fires in southwest Montana. An Area Command Team (Meuchel) is assigned to manage the large fires in central Montana. An Area Command Team (Gale) is assigned to manage the large fires in northwest Montana. Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

VALLEY COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Stutler) is assigned. The Army's 3rd Battalion 327th Infantry from Ft. Campbell, KY, commanded by LTC Lehr, is assigned. These fires are seven miles south of Darby, MT. The complex consists of the Bear, Taylor, Taylor Spot, Hilltop, Razor, Fat and Mink fires. The fires have received up to 0.1 inch of rain in the past 24 hours. Crews are isolating and containing hot spots. The Governor of Montana and the Adjutant General for the National Guard visited the fire yesterday.

SKALKAHO COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Rutherford) is assigned. This group of fires is ten miles southeast of Hamilton, MT. Included in the complex are the Bear and Coyote fire. Higher humidities and cooler temperatures are contributing to a decrease in fire activity.

BLODGETT TRAILHEAD, Bitterroot National Forest. A Type I Incident Management Team (Rutherford) is assigned. This fire is three miles northwest of Hamilton, MT. Minimal fire activity has been observed.

WILDERNESS COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Cook) is assigned. The complex consists of 15 fires in the Selway-Bitterroot and Frank Church River of No Return Wildernesses, 40 miles southwest of Hamilton, MT. Large fires in the complex include the Hamilton, Lonely, Fitz, Thirty, Echo and Throng fires. Fire activity has been greatest at the 4000 to 5000 foot elevations, with less activity at
higher elevations.
ALDER CREEK, Lolo National Forest. A Type II Incident Management Team (Hoff) is assigned. This fire is 31 miles southeast of Missoula, MT. Crews are constructing fireline on the southeast corner of the fire, with the assistance of helicopter bucket drops. Rehabilitation work is underway at Millers Flat and Trout Haven.

THOMPSON FLAT COMPLEX, Lolo National Forest. A Type I Incident Management Team (Studebaker) is assigned. This is a complex of six fires in the vicinity of Superior, MT. Crews are making progress with fireline construction and mopup of the Landowner fire. The access roads to Flat Creek have been repaired.

UPPER NINEMILE COMPLEX, Lolo National Forest. A Type I Incident Management Team (Bateman) is assigned. The Army's 20th Engineers Battalion from Ft. Hood, Texas, commanded by LTC Shumway, is assigned. These fires are burning 25 miles northwest of Missoula, MT. The complex has received about half an inch of rain. All firelines are holding and mopup operations continue.

CLEAR CREEK DIVIDE COMPLEX, Flathead Agency, BIA. A Type I Incident Management Team (Orich) is assigned. This complex, 60 miles northwest of Missoula, consists of the Clear Creek, Vanderburg, Siegel, Seepay and Magpie Creek fires. The fires have received nearly half an inch of precipitation. Crews are continuing direct attack on all fires, maintaining existing firelines and extinguishing hot spots within the unburned areas of the fire. One mile of rehabilitation work has been completed on the Vanderburg fire. Two miles of rehabilitation are complete on the Clear Creek fire.

MONTURE/SPREAD RIDGE, Lolo National Forest. A Type II Incident Management Team (Hollenshead) is assigned. The fires are 15 miles east of Seeley Lake, MT. Fire suppression and rehabilitation is going faster than expected. Helicopters continue to make water drops on hot spots.

CROOKED, Clearwater National Forest. A Type II Incident Management Team (Anderson) is assigned. The fire is 50 miles southwest of Missoula, MT, near Lolo Pass. Minimal fire activity has been observed. This will be the last report unless significant activity occurs.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Hart) is assigned. The complex consists of the Falls Creek, Cougar Creek, Coyote Springs, Medicine Lake, Skalkaho Pass, Lick Creek and Cooper Creek fires, 30 miles southwest of Philipsburg, MT. The fire is continuing to smolder and creep in heavy fuels. No resources are currently at risk.

MAUDLOW/TOSTON, Central Land Office, Montana Department of Natural Resources and Conservation. A Type II Incident Management Team (Greene) is assigned. These fires are 25 miles northeast of Belgrade, MT. The fire is smoldering and creeping with low intensity. Isolated smokes have been noted inside the fire perimeter. Crews continue mopup and patrol activities, along with rehabilitation work.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Bennett) is assigned. These fires are 12 miles
northwest of Wisdom, MT. The complex includes the Mussigbrod and Maynard fires. Smoldering fire behavior in the thousand hour fuels has been observed. An increase in wind caused some minor fire activity on one division in the afternoon.

KOOTENAI COMPLEX, Kootenai National Forest. A Type II Incident Management Team (Lavoiny) is assigned. These fires are 20 miles northwest of Libby, MT. All the fires in the complex have remained quiet. Mopup and patrol continues on established firelines. Crews have been able to begin direct attack on portions of the fire that had contingency firelines in place.

TROY SOUTH, Kootenai National Forest. A Type II Incident Management Team (Gauger) is assigned. The Army's 1st Battalion 321st Artillery from Ft. Bragg, NC, commanded by LTC Mathis, is assigned. This complex of fires is near Troy, MT. The fires have not been staffed due to the safety hazard of working on steep, wet, slippery terrain and concerns for hypothermia. Crews continue patrolling and checking unstaffed fires from this complex. Intermittent rains and cooler temperatures have reduced fire behavior to smoldering.

CHIPMUNK, Flathead National Forest. The fire is burning in spruce, subalpine fir and brush 45 miles southeast of Kalispell, MT. The fire has received 0.09 inch of precipitation, and fire behavior has been minimal. Crews are working hot spots and putting in hose lays along the constructed firelines. Snag removal operations along Bunker Creek Road are progressing well. Roads within the fire area have been reopened.

THREE BEARS, Nez Perce National Forest. A Type II Incident Management Team (Cones) is assigned. This fire is on both sides of the Salmon River, 29 miles from Elk City, ID. No significant fire activity has occurred. This will be the last report unless significant activity occurs.

SUGARLOAF, Gallatin National Forest. The fire is 13 miles northeast of Wilsall, MT. Low fire activity has been observed. The fire is being monitored by aerial reconnaissance.

GREEN MOUNTAIN, Kootenai National Forest. These fires are seven miles northwest of Trout Creek, MT. The complex includes the Green Mountain, McNeeley, Basin Creek and Engle fires. Isolated areas of smoldering have been noted, and a few small smokes are visible at the peak of the burning period. U.S. Forest Service personnel continue to monitor the fire.

SPRUCE COMPLEX, Yellowstone National Park. This is a complex of 11 fires in Yellowstone National Park. The complex consists of the Plateau, Moose, Unlucky, Boundary and several smaller fires. A slight increase in fire activity has been noted. Structure protection remains in place at the backcountry cabins and at the east and south entrances to the park.

JUDITH COMPLEX, Lewis and Clark National Forest. This complex consists of the Studhorse, Lost Fork and High Springs fires, which are 25 miles southwest of Stanford, MT. The fire is smoldering, with no significant activity observed.

SHARON, Glacier National Park. This fire is near North Fork in Glacier National Park, MT. Continued cool, wet weather is keeping fire activity low. The National Park Service is monitoring the fire with daily aerial observation flights.

POACHER, Clearwater National Forest. This lightning-caused fire is 13 miles southeast of Powell, ID. It is being monitored by U.S. Forest Service personnel. The fire received 0.37 inch of precipitation. This will be the last report unless significant activity occurs.

COPPER, Clearwater National Forest. This fire is 40 miles northeast of Pierce, ID. The fire is being monitored by U.S. Forest Service personnel. No significant activity has occurred. This will be the last report unless significant activity occurs.

PORPHYRY, Clearwater National Forest. This fire is 18 miles southeast of Powell, ID. The fire received precipitation. U.S. Forest Service personnel are monitoring the fire. This will be the last report unless significant activity occurs.

HELEN CREEK, Flathead National Forest. This fire is 22 miles south of Spotted Bear, MT. The fire is being monitored by U.S. Forest Service personnel. Fire activity has decreased due to the change in the weather. The fire is backing to the west and south with minimal movement toward the north. The threat to the Mud Lake Lookout has been reduced.

HIDDEN CREEK, Clearwater National Forest. The fire is 12 miles southeast of Powell, ID. The fire is being monitored by U.S. Forest Service personnel. No significant activity has occurred. This will be the last report unless significant activity occurs.

LONG RIDGE, Nez Perce National Forest. This fire is in the SelwayBitterroot Wilderness, 14 miles southwest of the Moose Creek Ranger Station. The fire is being monitored by reconnaissance flights and by the Gardiner Lookout. The fire has received 0.40 inch of precipitation. This will be the last report unless significant activity occurs.

MINARET PEAK, Flathead National Forest. The fire is near the Spotted Bear Ranger Station in the Bob Marshall Wilderness. U.S. Forest Service personnel are monitoring the fire's activity. Fire activity is low due to the weather.

EAST THUNDER 14, Idaho Panhandle National Forest. This fire is 23 miles east of Sandpoint, ID. Fuels are subalpine fir, spruce, brush and grass. Forest Service personnel are monitoring the fire. This will be the last report unless significant activity occurs.

PARKE PEAK, Glacier National Park. The fire has been burning since 7/23 in the northwest corner of the park. Fire activity continues to be minimal. The National Park Service is monitoring the fire.

ELIZABETH, Clearwater National Forest. The fire, 33 miles northeast of Pierce, ID, is being monitored by U.S. Forest Service personnel. No significant activity has occurred. This will be the last report unless significant activity occurs.

SNOW CREEK, Clearwater National Forest. The fire is 30 miles northeast of Pierce, ID. U.S. Forest Service personnel are monitoring the fire. No significant activity was observed. This will be the last report unless significant activity occurs.

COLLINS CREEK, Clearwater National Forest. The fire is 25 miles northeast of Pierce, ID. The fire is being monitored by U.S. Forest Service personnel. This will be the last report unless significant activity occurs.

CRIMSON PEAK, Flathead National Forest. This fire is located in the Bob Marshall Wilderness. The fire is being monitored by U.S. Forest Service personnel. Fire activity continues to be low due to the weather. One spot fire has been located between this fire and the Monture fire.

LONE SHEEP, Nez Perce National Forest. This lightning-caused fire is 20 miles southwest of Elk City, ID. The trail closures have been rescinded. No significant fire activity has occurred. This will be the last report unless significant activity occurs.

## EASTERN GREAT BASIN AREA LARGE FIRES:

CLEAR CREEK COMPLEX, Salmon-Challis National Forest. A Type I Incident Management Team (Hefner) is assigned. This complex consists of the Clear Creek, Marlin Springs, Full Circle and Sisters fires. The 3rd Battalion, 2nd Marines from Camp Lejeune, North Carolina, commanded by LTC Smith, are committed. An increase in fire activity is expected as warmer and drier weather is moving into the fire area. Mopup and rehabilitation efforts are being accomplished.

YELLOWPINE COMPLEX, Payette National Forest. A Type I Incident Management Team (Melton) is assigned. This complex consists of Nick Peak and Indian/Prospect fires and is located 20 miles east of McCall, ID. Crews are constructing and improving fireline on the northeast flank of the Nick Peak fire. On the Indian/Prospect fire, crews are patrolling, mopping up and constructing fireline on the west flank from Blowout Creek to Thunder Mountain Road. The acreage increase is due to more accurate mapping.

BURGDORF JUNCTION, Payette National Forest. A Type II Incident Management Team (Suwyn) is assigned. The fire is 23 miles north of McCall, ID. The fire received between 0.5 and 0.9 inches of precipitation, and in some areas three to four inches of snow. The decrease in acreage is due to better mapping. Weather conditions have made it unsafe for crews and equipment to go to the fireline.

MORSE, Salmon-Challis National Forest. The fire is burning in grass, sagebrush and douglas fir five miles east of May, ID. Very little fire activity has been observed due to wet conditions and high relative humidity. Most resources have been demobilized and the fire will be patrolled by the U.S. Forest Service.

SCF WILDERNESS, Salmon-Challis National Forest. A Type II Incident Management Team (Adams) has been assigned. Eleven wildland fires are currently burning within the Salmon Challis Wilderness Complex: Little Pistol, Indian Creek, Filly, Butts, Papoose, Parker, Packer Meadow, Shell Rock, Wilson Creek, Jackass and Jack Creek. Observed fire behavior has been low. Trail assessments continue. Structure protection is in place for the Little Creek Guard Station.

TETON COMPLEX, Grand Teton National Park, NPS. This complex is north of Jackson, WY. The complex consists of the Wilcox, Moran, Hechtman, Glade and Enos fires. Crews are patrolling and mopping up on the Moran, Wilcox and Enos fires. Strong winds and low relative humidities are causing an increase in fire activity.

FONTENELLE, Bridger-Teton National Forest. This fire is 20 miles north of Kemmerer, WY. Crews are holding the fire within the established perimeter.

FLOSSIE COMPLEX, Payette National Forest. These fires are 50 miles northeast of McCall, ID. There is no longer any threat to structures at Root Ranch, due to the change in the weather.

DIAMOND COMPLEX, Payette National Forest. This complex of fires, 42 miles northeast of McCall, ID, consists of the Lookout, Point, North Shellrock and South Shellrock fires. There is no longer any threat to structures. All resources have been demobilized and the fire will be monitored by U.S. Forest Service personnel.

SOUTHERN AREA LARGE FIRES:
LOWE, National Forests in Texas. This fire is threatening two residences and one outbuilding. No other information was received.

CR 205, Texas State Forest Service. The fire is burning in heavy cedar 20 miles south of Austin, TX. High temperatures and no humidity recovery at night are hindering containment efforts.

WILLOW CREEK, Texas State Forest Service. This fire is 20 miles southwest of Austin, TX. Fuels involved are juniper and oak.

DICKEY LOOP, Texas State Forest Service. The fire was caused by lightning 60 miles northwest of Houston, TX. Two homes have been confirmed destroyed. The fire is burning in a pine plantation. Little humidity recovery is occurring in the evening hours, and temperatures over 100 degrees are being experienced throughout the night.

SNAKE EYE COMPLEX, National Forests in Mississippi. This complex of fires is near Potts Camp, MS. All existing fires have stayed within containment firelines. Most areas have received no precipitation. A helicopter continues to do reconnaissance work in the area and engines are patrolling the fires.

E WHITES 2, Anahuac National Wildlife Refuge. This fire is burning in a marsh area 40 miles from Houston, TX. Mopup operations are continuing.

HORIZON, Texas State Forest Service. The fire is burning 40 miles northwest of San Antonio, TX. Residences are threatened.

LEGGETT, Texas State Forest Service. This fire is burning in a pine plantation 60 miles northeast of Houston, TX. No new information was received.

WARREN, Texas State Forest Service. This fire is located 80 miles
northeast of Houston, TX. The fire is burning actively due to record high temperatures and no relative humidity recovery.

327, Texas State Forest Service. This fire is actively burning in a pine plantation 60 miles northeast of Houston, TX.

CHICKEN, Texas State Forest Service. This fire is located 20 miles east of Nacogdoches, TX. Low relative humidity and high temperatures are causing containment problems.

RANGER HILLS, Texas State Forest Service. This fire is burning in heavy brush and cedar 50 miles east of Abilene, TX. The fire has spotted and jumped across containment lines and I-20.

MOORE BRANCH, Texas State Forest Service. This fire is burning in a pine plantation 30 miles north of Beaumont, TX. The fire has jumped a major highway and destroyed several structures. The town of Newton is threatened and evacuations are occurring.

STANLEY MAINLINE COMPLEX, Texas State Forest Service. This complex of fires is burning actively in a pine plantation 40 miles northeast of Houston, TX.

DRY FORK, Ouachita National Forest. This fire is burning in pine and hardwood timber. No new information was received. This will be the last report unless new information is received.

OAK CREEK, Texas State Forest Service. No new information was received.
MOUNT LEBANON, Texas State Forest Service. This fire 100 miles east of Dallas is burning in a pine plantation. No new information was received. This will be the last report unless new information is received.

SLICKEM SLOUGH, Texas State Forest Service. This fire is burning in cedar, juniper, brush, oak and mesquite 13 miles northwest of Sherman, TX. No new information was received. This will be the last report unless new information is received.

PINEY GROVE, Texas State Forest Service. This fire is burning in a pine plantation 100 miles east of Dallas, TX. No new information was received. This will be the last report unless new information is received.

BEDIAS CREEK, Texas State Forest Service. This fire is burning in a heavy pine plantation 50 miles northwest of Houston, TX. No new information was received. This will be the last report unless new information is received.

WEST NUECES, Texas State Forest Service. This fire is 50 miles northeast of Del Rio, TX. The fire is burning in heavy mesquite, oak and juniper fuels in rough terrain. Record high temperatures are contributing to containment problems.

YELLOW BAYOU, Texas State Forest Service. This fire is burning in a pine plantation 100 miles northeast of Houston, TX. No new information was received. This will be the last report unless new information is received.

HUFFINES, Texas State Forest Service. This fire is burning in a pine
plantation 80 miles northeast of Tyler, TX. No new information was received. This will be the last report unless new information is received.

MONTEITH, Texas State Forest Service. This fire is burning in oak, cedar and juniper 40 miles south of Waco, TX. No new information was received. This will be the last report unless new information is received.

ROSEBUD, Texas State Forest Service. This fire is burning in thick brush, mesquite, oak, cedar and juniper 25 miles south of Waco, TX. No new information was received. This will be the last report unless new information is received.

BREMOND, Texas State Forest Service. This fire is burning in grass and pine 60 miles south of Waco, TX. No new information was received. This will be the last report unless new information is received.

SALADO, Texas State Forest Service. This fire is burning in cedar, oak and juniper 50 miles south of Waco, TX.

CYPRESS CREEK, Texas State Forest Service. The fire is located 30 miles north of Houston, TX. Extreme fire behavior has been noted and several structures are threatened.

1131, Texas State Forest Service. Extreme fire behavior has been observed on this fire that is 75 miles northeast of Houston, TX.

TEXLA, Texas State Forest Service. The fire is in Orange County, northeast of Houston, TX. Gusty winds and high temperatures are hampering containment efforts on this plantation fire.

LOTTA, Texas State Forest Service. The fire is burning in a pine plantation in Harrison County, TX.

TUCKER, Texas State Forest Service. This pine plantation fire is 50 miles northwest of Nacogdoches, TX.

EL CAMINO, Texas State Forest Service. The fire is located ten miles east of Palestine, $T X$, and is burning in a pine plantation.

SKELLYTOWN, Texas State Forest Service. This grass and brush fire is 40 miles northwest of Amarillo, TX.

ENCHANTED ROCK, Texas State Forest Service. Burning in rough terrain, this fire is 80 miles west of Austin, TX.

SWEETHOME, Texas State Forest Service. The fire is 100 miles east of San Antonio, TX. It is burning in heavy brush, pinyon pine, juniper and cedar.

201, Texas State Forest Service. Burning in heavy brush, cedar and pinyon pine, this fire is 50 miles north of Austin, TX.

WILLIAMS BRANCH, Texas State Forest Service. The fire is 50 miles north of Austin, TX. Thirty homes are threatened by this fire that is burning in cedar, oak and juniper.

## WESTERN GREAT BASIN AREA LARGE FIRES:

PHILLIPS RANCH, Humboldt-Toiyabe National Forest and Great Basin National Park. The fire is 50 miles southeast of Ely, NV. Park Service personnel are monitoring the fire.

ROCKY MOUNTAIN AREA LARGE FIRES:

JASPER, Black Hills National Forest. This fire is 15 miles east of Newcastle, WY. Winds have increased and relative humidities are lower. Crews continue mopup activities and rehabilitation operations. Smoldering and creeping fire behavior has been observed, with some torching in interior islands. Demobilization of resources is underway.

## SOUTHWEST AREA LARGE FIRES:

B-52, Bernalillo District, New Mexico State Forestry. This fire is in the Marquez Wildlife Area, 35 miles northeast of Grants, NM. Wildlife habitat
and timber resources are threatened. The fire was caused by an abandoned campfire. Containment problems include steep terrain, high temperatures and poor relative humidity recovery at night.

## OUTLOOK:

## *** A RED FLAG WARNING IS POSTED IN SOUTHERN LOUISIANA FOR LOW RELATIVE HUMIDITIES ***

South Texas and the Gulf Coast states will continue to be under a strong area of high pressure. Continued hot conditions with only isolated afternoon thunderstorms are expected. Highs will be 85 to 95 with 100 to 110 in the hottest locations. Relative humidities will be 20 to 40 percent. Winds will be northwest to northeast 10 to 15 mph .

An upper level trough of low pressure will swing across the northern Rockies this morning, which will help scour out some of the moisture that has been over the northwest areas for the past few days. Lingering moisture will bring a chance of shower activity to portions of the Pacific Northwest, northern Rockies and portions of the Great Basin. Monsoon moisture will be present across the central Rockies and southwestern states. The tail end of the Pacific trough will bring partly cloudy skies along with isolated showers and thunderstorms to the central Rocky Mountains.

In the north temperatures will generally be in the 50's to mid 60's in the mountains and the mid 60's to $80^{\prime}$ s elsewhere. Winds will be from the west to northwest 10 to 20 mph . In the Southwest and central Rockies temperatures will be in the 60's and 70's in the mountains and 80's to 100 at lower elevations. Winds will generally be from the west to southwest at 20 to 30 mph .

Humidities will be in the mid teens to around 30 percent. In the warmer desert areas, humidities could drop into the single digits. In portions of the north, humidities of 30 to 50 percent are expected.
